SERBIAN TOWN SOON TO FALL

Bulgarians Near Victory in Battle Between Prilep and Monastir.

EMPEROR WILLIAM ARRIVES IN VIENNA

Given Notable Ovation on Visit to Aged Austrian Monarch.

Today's War News Given in Summary

A battle between Bulgarians and Serbians is raging between Prilep and Monastir, an Athens dispatch states, and it is thought there that Monastir cannot hold out much longer. The civilian population has left the city.

The northern army of Serbia is continuing its retreat toward Scutari, Albania, unofficial advices state. Berlin mentions a further pursuit of the Serbians, although announcement was made yesterday of the conclusion of the Serbian campaign. It may be that the German forces of the allied armies are not participating in the further operations.

A total of 502 guns, many of them of heavy calibre, were taken from the Serbians during the campaign, the German statement declares. An additional 1,500 Serbians were captured in the operations covered by today's official communication.

Operations on the Franco-Belgian front are largely artillery and aeroplane actions, Verdun has been bombarded, although ineffectually, by German aeroplanes, and French aviators have dropped bombs on the railroad station of Brieulles in retaliation, Paris reports, the railroad being cut.

Berlin announces the destruction of a French aeroplane by artillery fire.

Emperor William arrived in Vienna today and visited Emperor Francis Joseph. The two monarchs had not met since the outbreak of the war. Vienna greeted the German emperor with a notable demonstration.

Athens, Nov. 29.—Monastir has been evacuated by the civilian population. There is a prospect that the Serbian town will be occupied by Bulgarians as it seems likely, according to reports received here that the Serbs will not be able to resist long in the battle now in progress between Prilep and Monastir.

The northern Serbian army continues to retire toward the Albanian town of Scutari.

EMPEROR WILLIAM IN VIENNA

Big Crowd Gives German Monarch Notable Demonstration.

Berlin, Nov. 29. Emperor William arrived in Vienna today and paid a personal visit to the Austro-Hungarian monarch, Emperor Francis Joseph, at Schoenbrunn castle.

The German emperor was received at the railroad station, says the Overseas news agency, by Archduke Charles Francis, the heir to the throne, and Archduke Franz Salvatore and Archduke Charles Stephen. The news agency adds: "An immense crowd gathered to greet the German emperor and cheered with indescribable enthusiasm and joy. The entire city of Vienna had been decorated with bunting for the occasion.

"The meeting between the emperors who had not seen each other since the outbreak of the war took place in Schoenbrunn castle and was a most cordial one. The monarchs could hardly master their emotion."

Army headquarters announced today that in the Serbian campaign, 502 cannon were captured.

WORK IS STARTED ON PROPOSED 'BUS LINE

Solicitors Are Now Endeavoring to Sell Stock in New Company.

With little hope of ever settling the street car strike that has been in progress in Fort Wayne since September 27, solicitors were put to work Monday selling shares of stock for the proposed bus line to be operated in opposition to the street cars. After a sufficient amount of stock has been subscribed a company will be formed and incorporated for $100,000.

Shares of stock are being sold at the par value of $10, as follows: "We, the undersigned, subscribe for the number of shares of stock of the par value of $10 in the proposed transportation company, as set opposite our names. The payment on said stock is to be made as follows: Twenty per cent. on call of the board of directors and ten per cent. on the first of each and every month thereafter until paid in full."

Greenland Issues Statement.

A statement was issued Monday by Samuel W. Greenland, general manager of the Fort Wayne and Northern Indiana Traction company, setting forth in detail the strike situation and the effort the company has made to bring about a settlement of the trouble, including the correspondence between the officials of the company and the conciliation committee appointed by Governor Samuel M. Ralston.

Colonel J. Levering Jones, chairman of the executive board of the traction company, left the city Sunday for Toledo and from there will return to his home in Philadelphia.

FORCES DETOUR OF PRESIDENT'S TRAIN

Bad Freight Smash on the Pennsylvania East of Philadelphia.

Philadelphia, Nov. 29.—One of the most serious freight wrecks that has occurred in a long time on the New York division of the Pennsylvania railroad occurred at Cornwells, eighteen miles east of Philadelphia, early today and traffic was blocked many hours. The train on which President Wilson returned to Washington from New York was one of the many that had to be diverted over other routes. No one was hurt, but thirty freight cars were damaged and piled up over the four tracks of the road.

The accident was due to the failure of the engineer of one of the two freight trains involved to obey signals. Both freights were going east on different tracks and one crossed over at a switch and crashed into the middle of the other.

President Wilson's train was diverted at Trenton, N. J., to the Trenton division and run down along the New Jersey side of the Delaware river to the Delaware river bridge where it crossed into Philadelphia and resumed its journey along the regular route.

HIS LETTERS TO MRS. GALT WERE INSULTING

New York, Nov. 29.—A man describing himself as Samuel White, 27, an inventor, was arrested here today by police and secret service agents charged with having written insulting letters to Mrs. Edith B. Galt, President Wilson's fiancee, and her mother, Mrs. Bolling. White, according to the police, admitted having written to Mrs. Galt and Mrs. Bolling concerning a patent egg carrier to be used in the mails and two new musical instruments. The prisoner said the police added, that he wrote the first letter for a Samuel Osborne, of Chicago, who had invented one of the musical instruments.

White told the police that he met Mrs. Galt and her mother at the Grand Central palace here in 1913.

WORKING LONG HOURS TO FINISH EXCAVATION FOR BIG BUILDING JOB.

In an effort to finish the excavation for the new Fort Wayne Transfer company building at Harrison and Douglas before extremely cold weather sets in, the entire force at work on the building was kept busy all day Sunday, and the men are working long after dark each evening. The building is one of the largest to be erected here this year, and is 240 by 58 feet, and two and three stories high.

Sam D. Hanna Pleads in the Circuit Court to False Pretense Count.

TO BE SENTENCED NEXT SATURDAY

Forgery Trial at Bluffton Ends Suddenly on an Agreement.

Following a sudden and rather sensational ending of the trial of Sam D. Hanna on a forgery charge in the circuit court at Bluffton, at 11:15 o'clock Monday morning, Hanna appeared in the circuit court here early Monday afternoon and pleaded guilty to the second count of an affidavit charging him with obtaining money by false pretenses. To the first count of the affidavit, charging grand larceny, he pleaded not guilty.

The case was set for trial next Saturday, at which time Hanna will be sen-

LAST MINUTE NEWS

BRITISH GOVERNMENT MADE NO SUCH REQUEST

London, Nov. 29.—(6:15 p. m.)—The official press bureau made the following statement today: "With reference to the announcement from Ottawa on November 28, that the Canadian government had commandeered 16,000,000 bushels of wheat at the request of the British government, the board of agriculture states that the British government has made no such request, and that at present they have no information on the subject."

MILITIA ORDERED OUT IN WAR ON LOTTERIES

New Orleans, La., Nov. 29.—Governor Hall today ordered the Bogalupo company of the Louisiana national guard into camp near Southport, in Jefferson parish, which adjoins this city. The governor declined to say whether he would proclaim martial law but said the troops would be held there. It is alleged the state law against lotteries is being violated in Southport. Some lottery shops have been raided.

LIQUOR MEN GET FEW MINOR CONCESSIONS

New Restrictions on Sale Go Into Effect in England.

London, Nov. 29.—The new restrictions on the sale of liquor became effective today. With the exception of certain minor concessions obtained at the eleventh hour, opposition to the measure provide proved futile. Subject to the usual exemption and to a few special provisions it is made an offense punishable by a fine of $500, or imprisonment for six months to sell or supply intoxicating liquors for consumption on the premises except between the following hours: Week days noon to 2:30 p. m. and 6:30 to 9:30 o'clock in the evening.

Sundays, 1 to 3 p. m. and 6 to 9 p. m. A relaxation of the order permits an extension for half an hour for consumption of liquor ordered during a period in which the sale is permitted. Another amendment permits delivery of liquors ordered during opening hours if paid on delivery.

Spirits for home drinking cannot be purchased on Saturday or Sunday, nor on other days except between noon and 2:30 p. m. This traffic is limited to the sale of bottles holding not less than a quart.

PURDUE TO ASSIST IN MEMORIAL PLAN

Charles G. Sauers, landscape expert from Purdue university, will be in Fort Wayne Friday for the purpose of investigating the question of a memorial to Johnny Appleseed, and also to secure a rough plan for the beautification of the grounds surrounding the new Lincoln school in Washington township.

The fact that Purdue university is to assist in the movement for a memorial to Johnny Appleseed, whose body is buried in the Archer cemetery, northeast of the city, will cause no little interest. The movement was first started by the Ohio Apple Growers' association some months ago.

SCHOOL HEADS ARE COMING THIS WEEK

Practically every county school superintendent in northern Indiana will be in attendance at the superintendents' conference to be held here Thursday and Friday. Thursday will be devoted to a program in the assembly room of the court house and Friday to sightseeing. Friday morning the superintendents will visit the schools of Fort Wayne and in the afternoon for an automobile trip over the city in machines to be furnished by the Fort Wayne Real Estate exchange. D. O. McComb, superintendent of the Allen county schools, is president of the association, and F. G. Smeltzly is secretary.

KERN IS AGAIN FLOOR LEADER

Indiana Senator Unanimous Choice in Caucus of Democrats.

RULES REPORT GOES OVER TO WEDNESDAY

Discussion on Cloture May Prolong Conference Several Days.

Washington, Nov. 29.—Senator Kern, of Indiana, was re-elected chairman of the democratic senate caucus and floor leader by unanimous vote today at the conference of senate democrats.

Senator Pittman, of Nevada, was elected secretary of the conference to succeed Senator Saulsbury, of Delaware, who wished to relinquish the office. Selection of a vice-chairman, president pro tempore of the senate committee assignments and the report of the special committee on revision of the rules were postponed until Wednesday.

Senator Kern was authorized to name a new steering committee of eight members to be approved by the conference Wednesday. Chairman Owen, of the special committee to revise the rules, will submit a report Wednesday recommending a modified form of cloture on debate. Upon that a division of opinion is expressed and discussion may prolong the conference several days.

Nearly All Democrats There.

Practically all the majority members of both branches were here today to take up the work of organizing for the sixty-fourth congress, which convenes next Monday.

One of the most important matters which awaited the consideration of the senate caucus was a revision of the rules to provide for cloture of debate. A special committee, of which Senator Owen, of Oklahoma, is chairman, had prepared a report recommending a modified form of cloture designed to prevent protracted filibustering.

A majority of the democrats are said to favor cloture, although some are expected to vigorously oppose it.

The re-election of Senator Kern, as majority leader; Senator Clarke, of Arkansas, as president pro tempore, and Senator Lewis, of Illinois, as party "whip," was forecast. Important committee vacancies, mostly on the republican side, are to be filled, as well as committee places found for new democratic senators.

House democrats are confronted with a more difficult task because of the reduced democratic and increase republican membership. Not only are there many democratic vacancies on most of the important committees, but the increased republican membership necessitates changing the party ratio on nearly

LIFELESS BODY IS FOUND IN A WAGON

Hans Knuth Dies Suddenly During Night in the McKinley Barns.

After he had failed to return home Sunday night, members of Hans Knuth's family became alarmed Monday morning and began an investigation as to where he might be. An inspection of the McKinley feed barn, on Beach street, where it was known he spent a great deal of his time, brought to light his lifeless body as it lay in one of the trucking wagons. The unfortunate young man was subject to convulsions and it is thought that while going through one of these seizures he was seized with an attack of heart trouble.

The deceased was thirty-five years of age. Sunday afternoon he had been around the house, 1646 Oakland street, and early in the evening had been in the office of the feed barn. Presumably he had gone into the barn and when he felt the attack coming over him he crawled into the wagon, where death claimed him a short time afterward.

He was the son of Mr. and Mrs. Henry Knuth, who survive him, as do five brothers and four sisters: Charles, John, Fred, William, Henry and Eucelia Knuth, Mrs. Albert Gauser, Mrs. John Bilser and Mrs. Glenn Moll, of Detroit.

HIS INJURIES PROVES FATAL

Ben Fishman, 18, Dies After Accident on Spy Run Avenue.

STREET CAR AND WAGON IN CRASH

Young Driver Was to Have Quit His Position at End of Day.

Promising his father that this would be his last day in the employ of the Merchants' Delivery company, Ben Fishman, aged 18, of 802 East Lewis street, left home Monday morning and in less than six hours was dead as the result of his wagon being struck by a Spy Run car at Spy Run and Riverside avenues. He drove out of Riverside to Spy Run directly in front of the car, and his delivery wagon was struck squarely and he was thrown to the pavement, his skull being fractured.

The accident occurred at 10:30 o'clock Monday morning and the lad died at St. Joseph's hospital shortly after noon. The police were called immediately after the crash and took young Fishman to St. Joseph's hospital, where Dr. E. J. McOscar did all that was possible to save his life.

The street car was driven by Charles K. Higgins, an old employe of the company. Higgins has been employed by the company for eighteen years. At the time the employes walked out he was ill and off duty and did not return to work until about a week ago. He has run on the Spy Run line for many years and the officials state he never before figured in a serious accident.

His Last Day.

"If I may work just today I shall resign Tuesday morning," said young Fishman early Monday morning when his father pleaded with him to leave the delivery company because of the dangers in driving on crowded streets. His father consented to allow him to finish the day.

Ben Fishman was eighteen years old and is survived by the parents, Mr. and Mrs. Max Fishman, 802 East Lewis street, and with whom he made his home; four brothers, Sam, Abraham, Louis and Felix, and one sister, Jeannette. He was born in Russia and came to this country six years ago, moving with his parents directly to Fort Wayne. He went to school for several

CONSTABLE CAUSES DELAY IN WEDDING

Because he was unable to pay his debts John Nanoff, a Bulgarian, was ordered taken to the county jail by Justice of the Peace Henry J. Grabner, Monday. Judgments were secured in Justice Grabner's court against Nanoff by Lebanoff Brothers in the sum of $23.60 and by Mike and John Cosmo for $13. Nanoff left the city some months ago, going to Detroit. Monday he returned to claim his bride to whom he was to be married within the next day or two when a constable spoiled the wedding plans by taking him in charge. Unable to settle the accounts against him the justice ordered him taken to jail, where he will have to remain for forty days unless he is able to settle before that time.

ADAIR ENTERS RACE FOR GOVERNORSHIP

Portland, Ind., Nov. 29.—Congressman John A. M. Adair, of this city, announced here today that he would be a candidate for the democratic nomination for governor of Indiana.

Mr. Adair is serving his fifth term as representative of the Eighth district in the national house of representatives.

Wilson to Cite Attacks on Industrial Concerns

Washington, Nov. 29.—President Wilson's address to congress next week not only will treat upon greater preparedness for national defense but will call to the attention of congress the explosions and fires in American industrial plants. The president intends to recommend that the Sherman law be amended to include severe penalties for such restraints of trade.

Any division in the ranks of American citizens whose sympathies with the warring belligerents may have led to excesses will be emphatically condemned as un-American by the president. In several recent speeches the president has spoken for "America first" and called upon Americans to stand united. That he considered the situation of sufficient importance to bring to the attention of congress, however had not generally been realized. The president is expected to refer to the subject in his address to congress.

Governor Ralston Comes to City Monday Evening

Governor Samuel M. Ralston will arrive in Fort Wayne Monday evening to spend the night and will leave Tuesday morning for Chicago. The governor and Mrs. Ralston will come from Huntington, where the state executive is to be the guest of honor at a banquet to be given by the Huntington Commercial club.

State Treasurer George A. Bittler, who is in the city today, will accompany a number of other Fort Wayne democrats to Huntington to attend the banquet, and will return with him at the conclusion of the addresses. At the governor's suggestion Mr. Bittler will breakfast with him Tuesday morning to discuss a number of official matters, and it is also Mr. Bittler's plan to take the governor and Mrs. Ralston for a brief automobile ride about the city, if the weather is inviting.

QUICKLY FOLLOWS BROTHER IN DEATH

by all committees to provide for the enlarged majority.

There probably, however, will be few changes in chairmanships of important committees. Three democratic vacancies on the ways and means committee are to be filled and the naval committee reorganized in view of the defense program. Five democratic vacancies are to be filled, owing to the retirement of three advocates and two opponents of naval increases.

Before the house ways and means committee republican leader Mann appeared and stated what the republicans want in the way of increased representation on committees. In view of the increased republican membership it is thought the republicans will be allowed one more member on the more important committees. The democrats never are opposed to increasing the number of republicans on any committee which deals with party measures. It was decided to leave selections to Mr. Mann himself or the republican caucus. The republicans will caucus Thursday night and the democrats will pass upon their own selections Saturday night.

BOARD ASKS BIDS TO HAUL GARBAGE

Question of Site for New Plant Remains Unsettled.

At its meeting Monday afternoon the board of works ordered advertisements for bids for collecting garbage next year and as the proposals will be based on delivery to the old plant, the prospect of a new one being completed next year seem to be as remote as ever. The bids will be received December 16.

So far there has been no agreement as to the location of the new garbage plant, and the outlook is for a rather stubborn contest on that point.

Mayor Hosey's plan to build the new crematory on the city's North Clinton street property, near the present crematory, will probably encounter stubborn opposition in the city council. The special committee on garbage disposal is said to be unanimous against such a plan and other members of the council will probably join the opposition. North side people and those in the Spy Run district do not want the crematory located where the old one is and councilmen representing these and contiguous sections will be apt to oppose the choice of such a site.

It is felt by other councilmen as well as these that since a new crematory is to be built a central location should be chosen for it. That the proposal to build an additional crematory at the end of Huestis avenue, as proposed by Mayor Hosey and the board of works, was based upon a purpose to eliminate some of the long hauls in garbage collection is pointed out as one of the reasons for demanding a central location.

FEAR EFFECT OF THE WEATHER.

Concrete Work Must Be at Contractor's Own Risk.

Fearing the effect of the frosty weather will be detrimental to the concrete work on the Wayne Trace pavement the board of works has formally notified the Moellering Construction company, contractor for the improvement, that further procedure on the job will be entirely at the company's own risk. The board will in this way save itself the responsibility should the pavement prove to be defective by reason of the action of frost during the work of construction. The board had representatives of the Moellering company in for a conference, Monday afternoon, to discuss further procedure on the dam across Spy run in Lawton park. It was expected to make some arrangement for providing fires to heat materials so that the cement would set properly.

NEW ACCOUNTING SYSTEM.

A new accounting system to accord with the recommendations of the state board of accounts has been adopted for the city waterworks department and Secretary Charles J. Beuret will take steps for its installation at once. The new system will have the effect of saving considerable money both for books and labor.

GUILTY TO ONE CHARGE

(Continued from Page 1).

tenced on his plea and the other charges against him will be dismissed.

Agreement Was Reached.

The trial of Hanna on the charge of forgery, that had been proceeding on a change of venue in the Wells circuit court since last Tuesday, came to an abrupt close when the state dismissed its case and the jury was discharged.

There had been an agreement that if Hanna would plead guilty to the false pretense charge the others would be dismissed and at 11:15 the case in Bluffton was at an end.

Hanna, with his attorneys, Thomas & Townsend, and Prosecuting Attorney Harry H. Hilgemann, returned at once to Fort Wayne and the arrangement was hurriedly made for his appearance in the circuit court, where he was arraigned on the affidavit with the dual charge of grand larceny and false pretense.

After this procedure was over and Judge Eggeman had continued Hanna at liberty on his previous bond, he left court with his attorneys.

The penalty for obtaining money under false pretense is one to seven years in prison.

Grew Out of Big Smash.

The cases against Samuel D. Hanna grew out of the crash of the Hanna-Brackenridge company, a Fort Wayne manufacturing concern of which he was the president and general manager, more than two years ago. The affairs of the concern were tremendously involved and its liabilities were huge. Fort Wayne banks had been victimized by its paper. Hanna was charged with obtaining money at the Hamilton National bank on forged paper and it was on that charge he was being tried at Bluffton. He was also charged with grand larceny, perjury and false pretenses. The German-American bank was alleged to be victimized by these operations.

LODGE ELECTIONS.

Home lodge No. 342, F. & A. M., will elect officers on December 7 and Sion S. Bass post, G. A. R., on December 10.

COLORED BURGLARS DID NOT GET FAR

Men Who Robbed Store in Fort Wayne Arrested at Ossian.

Harry Wood and Leslie Cook, both colored, are in jail charged with burglary, owing to the diligence with which Sheriff A. C. Gladieux struck the trail of the men who robbed the grocery and meat market of Robert Huser, 1909-11 Taylor street, early Monday morning. The robbers took a quantity of meat, a lot of cigarettes, smoking tobacco and other plunder. Their trail was struck south on the Lake Erie railroad and Sheriff Gladieux telephoned Marshal Van Anda at Ossian to look for the men. He found them soon afterward and they were brought here. They have confessed.

NEWS OF THE COURTS.

The Indiana Lighting company has begun action in the superior court against J. C. Young to collect $100 on account. Thomas & Townsend are the plantiff's attorneys.

In the superior court Homer Brayton has sued Sophia Witte to foreclose a mechanic's lien, demanding $100. Moffett & Bochwitz and Louis Plost appear for the plaintiff.

Oscar W. Nelson has begun suit in the circuit court against William K. Noble in a complaint on contract, demanding $780.07 and other relief. John Jones and E. L. Siebold are attorneys for the plaintiff.

GIVEN PRISON TERMS FOR EXPRESS THEFTS

Indianapolis, Nov. 29.—Harold and Victor Davy, who confessed to stealing a number of express packages valued at several thousand dollars from the express companies' office in Terre Haute, where one was employed, were sentenced to two years each in the federal penitentiary by Federal Judge Anderson here today.

The judge had fixed Harold Davy's punishment at three years, but changed it on the plea of Victor that he had planned the robbery. Setnence on Gertrude Davy, wife of Harold, was suspended owing to her physicial condition.

British Field Marshal Reaches French Capital on Way Homeward.

Paris, Nov. 29.—(4:20 p. m.)—Field Marshal Earl Kitchener, British secretary of war, arrived in Paris from Italy today. He was given an ovation by soldiers and travelers at the station when he stepped from the train.

Generally speaking the night passed quietly on the French front according to an announcement made this afternoon by the French war office. There have been some engagements with hand grenades in the Artois districts. The statement says that "During the day of yesterday four German aeroplanes flew over Verdun and threw down some bombs, but without causing any material damage. As a retaliatory measure five French aeroplanes threw down about 20 shells on the railroad station at Brieulles, to the south of St. Enay. The railroad line was cut and a train making its way to the north was compelled to turn back precipitately."

SEE STEADY DECLINE IN COUNTRY CHURCHES

Facts Gathered for Commission on Church and Country Life.

Columbus, O., Nov. 29.—One out of every nine country churches have been abandoned in recent years. Only one-third are increasing in membership and two-thirds have either ceased growing or are dying. Eighty-three per cent. have less than 100 members; 21 per cent. have less than 25; 27 per cent. have between 25 and 50; and 34 per cent. have between 50 and 100. Only six per cent. have individual preachers, while 26 per cent. share ministers with another church; 23 per cent. have one-third the time of a minister; 27 per cent. have one-fourth time; 14 per cent. have one-fifth time; 5 per cent. have only one-sixth time. A large proportion of preachers receive about the same pay as a day laborer. Less than 40 per cent. of the rural population are church members.

These facts, shown in an extensive rural survey of Ohio, whose results were announced today, are applicable to most states, according to officers of the Commission of Church and Country Life. Plans for scientific surveys in all states, including Indiana, to secure definite data for each locality, will be formulated at the national convention of the Commission on Church and Country Life, to be held in Columbus, Ohio, Dec. 8, 9, and 10, with President Wilson and Gifford Pinchot among the speakers.

The Ohio survey is considered the most thorough ever undertaken but the campaign not only for surveys but also for speedy reforms to make churches community centers as well as houses of religious worship, is to be carried into every part of the country within the next year.

Here are the causes which the country church of the near future must promote in order to save itself according to a much-discussed report by President Kenyon L. Butterfield, of Massachusetts agricultural college, ready for presentation to the commission: Good roads, better farming, encouragement of agricultural college extension courses, community beautification, public health and recreation, temperance, better schools, Saturday half holiday for agricultural laborers, community athletics, observance of religious and patriotic holidays and home coming weeks, community planning and contentment with farm life.

The church must become the social center for the community, with its ministers leading in a variety of interest, and religion thereby will become a stronger appeal, says the Butterfield report. Naturally this program is expected eventually to dim denominational lines.

Concrete means of promoting the community church movement are disclosed in another report which the commission is expected to adopt as working plans. President Wilson, who will make an address at the convention, Dec. 10, is reported particularly interested in these plans.

They are summarized thus: First, rural ministers and church leaders during the next year will receive publications issued by the commission on church and country life devoted to the problems of rural church federations and combinations. This will prepare the way for discussion of church co-operation. Then in each township or natural community, churches will be urged to form a federation, with delegates and ministers from each church forming a supervisory committee to co-ordinate community activities. Ultimately this federation might employ a common minister and pay him a salary adequate to allow him to undertake wider social work. In many cases these churches could merge. Denominational connection with a certain church organization could be maintained, but within the community sectarian differences would be largely ignored.

It is a big program, but officers of the commission believe they can make great headway within the year. The movement will be directed by Gifford Pinchot, chairman, and Rev. Charles O. Gill, secretary of the commission.

STATEMENT BY THE TRACTION COMPANY

As an explanation of the Traction company's position in the present controversy, the following statement has been made:

Since the appointment of the governor's committee, representatives of the Traction company have met with this committee at different times, and on November 13th, there was a joint meeting held of representatives of the former employes and of the Traction company. In discussing the general situation, it was suggested that a slight modification be made in the contract in reference to the arbitration board and also the question of re-employing a number of the former employes. This proposition was afterward put in written form in order that it might not be misunderstood, and submitted to the governor's committee, the proposition being as follows:

Committee.

Gentlemen:—Confirming the suggestions heretofore made to your committee, and for the purpose of aiding you in securing an adjustment of the unfortunate conditions now and heretofore existing in this city, the Fort Wayne and Northern Indiana Traction company hereby submits and offers the following:

1. That the existing contract with our present and future trainmen shall be amended by adding an additional section thereto, which shall provide that a committee consisting of the general manager and the heads of two departments of the company shall be appointed by the company to first hear all grievances of any kind of the company's employees as to wages or working conditions and such hearing shall be had within one week before such general manager and the head of a department other than the one in which such employee or employees may be at the time engaged. If such general manager shall be absent from the city or unable to act, the head of another department (other than the one in which the complaining employee or employees are engaged) shall act in his place. Such employee or employees may appear in person and be represented by any other employee or employees of the company in the same class of service.

If any employee is found by such committee to have been suspended or discharged without cause, he shall be reinstated with full pay from the date of such suspension or discharge. Any such grievance not satisfactorily disposed of in the foregoing manner shall be referred to the public service commission of Indiana for arbitration and final decision.

2. This company has at present approximately two hundred trainmen in its employ under written contracts executed by them and the company; but it believes it can, and, if sufficient vacancies occur, will re-employ fifty of its former employees within two weeks after a settlement is made, and others of such employees from time to time as vacancies shall occur, upon their making the usual application for employment and executing such contract as so amended. In the re-employment of such former employes, selections shall be made by the company and preference given to former employees having families dependent upon them.

This offer is to become effective upon the strike and boycott against this company being called off by the Amalgamated Association of Electric and Street Railway Employees of America and the Federation of Labor of Fort Wayne and its affiliated bodies. Respectfully submitted, Fort Wayne and Northern Indiana Traction Company.

(Signed.) By J. M. BARRETT, President.

This proposal was referred to the carmen and at one of their meetings it was rejected and a counter-proposition was made which was sent to the governor's committee under date of November 24th with a letter, copies of this proposition and letter being as follows:

Fort Wayne, Ind., Nov. 24, 1915.
SAMUEL M FOSTER, Chairman.
WILLIAM P. BREEN,
W. D. CALVIN,
CHARLES A. DUNKELBERG,
REV. ARTHUR J. FOLSOM,
OWEN N. HEATON,
GAYLORD M. LESLIE,
CHARLES M'CULLOCH,
Committee.

Relative to the proposition submitted by the traction company in which heads of various departments of said company are to participate in the settlement of grievances we can see no advantage over that of submission of grievances to the general manager or head of departments with which employee is connected, nor can there be a definite promise to call the strike off without some definite proposition being made to take back and retain all the men at present affected by the controversy unless there is just cause for discharge.

Inasmuch as the Amalgamated Association of Street and Electric Railway Employees of American and the Fort Wayne Federation of Labor have submitted, through you to the Fort Wayne and Northern Indiana Traction company, a counter proposition of settlement of the present carmen's controversy, which calls for an arbitration committee, and believing in your sincerity of purpose, your justice and fairness, we respectfully request that the conciliation committee, or any portion of it, act as this board of arbitration to adjust any differences arising during the period of re-employment of former trainmen effected by this strike, providing that your acting in such capacity is agreeable to the traction company.

Looking forward to a just and speedy settlement of the unfair conditions at present existing, we are very respectfully yours.

COMMITTEE FOR CARMEN.
For Fort Wayne Federation of Labor.
SAMUEL M FOSTER, Chairman.
WILLIAM P. BREEN,
W. D. CALVIN,
CHARLES A. DUNKELBERG,
REV. ARTHUR J. FOLSOM,
OWEN N. HEATON,
GAYLORD M. LESLIE,
CHARLES M'CULLOCH,
Committee.

The further propositions of the Fort Wayne and Northern Indiana Traction company submitted to us through your honorable body, has been given due consideration by the men affected and they sincerely wish to make a counter proposition which will meet with the hearty approval of the Amalgamated Association of Street and Electric Railway Employees of America and the Fort Wayne Federation of Labor:

1. We are willing to submit to the proposition that the strike against the traction company be called off at once, providing that all employees now on strike be placed on the payroll of the company at a minimum wage of $12 per week until such time as they shall be placed, and, also providing that men shall not be required to perform other than duties usually required of them. These men shall also be placed on former runs according to seniority, that is, the oldest man in the service shall be the first man put back on his former run, and so on until all are returned.

2. That none of the men so re-employed shall be discharged or suspended because of activity during this controversy and all men discharged or suspended during the life of this contract shall have the right to submit their grievances, if any there be, to the present conciliation committee, or any party of this committee, and if found to have been wrongfully discharged or suspended such employee shall be reinstated and shall receive full pay for time lost because of such wrongful discharge or suspension. The aggrieved employee may be represented before the conciliation committee by any person whom he wishes to choose. All grievances shall be submitted and decisions rendered within five days of discharge or suspensions.

3. All grievances relative to working conditions shall be taken up by a committee from the men with the general manager of the company.

4. All decisions rendered by the conciliation committee shall be binding upon both parties to this agreement from..... to May 1st, 1917.

COMMITTEE FOR CARMEN.
For Fort Wayne Federation of Labor.

The Traction company in its proposal stated that it now has in its employment approximately 200 men who have signed the following contract with the company:

THIS AGREEMENT, between the Fort Wayne and Northern Indiana Traction Company and its Trainmen, WITNESSETH:

1. That if, at any time the trainmen, or any of them have any grievances of any kind or character as to wages and conditions, they shall be presented to and taken up with the Company, and if not satisfactorily adjusted within ten (10) days thereafter, shall be referred to the Public Service Commission of the State of Indiana, for final decision. All members of the Commission shall sit upon hearing and participate in decision.

2. This agreement shall be signed by the undersigned trainmen of the Fort Wayne and Northern Indiana Traction Company the proper officials of the Fort Wayne and Northern Indiana Traction Company.

3. Said Public Service Commission, if the matter be referred to them, shall take up and hear evidence of all parties interested on any grievances as to wages, hours and conditions of service, and render decision concerning same. Said decision in effect to relate back to the date of such reference to the Commission.

4. This contract is made to avoid suspension of operation due to any labor controversies and it is agreed that strikes, lockouts and interruption of operation of any cars of Fort Wayne and Northern Indiana Traction Company shall not occur.

5. The above mentioned adjustments and arbitrations, if any, shall proceed only in the name of the complaining employee, employees or Committee thereof.

These men are not what is generally termed "strikebreakers," as they are all citizens of the State of Indiana and voluntarily made applications for positions with this company, a number of the men having been promoted from positions they formerly occupied with the company as section men. To accept the proposal made by the carmen would necessitate the dismissal from the service of the company of the men who are now employed and under contract with the company, the contract signed by the present men being identical with the contract signed by the former employes, dated July 23rd, 1915, and for the company to violate this contract would place them in exactly the same position that the former employes of the company now occupy, they having broken the contract made with the company on the above date.

The number of men at present employed is ample to operate full and adequate service on the city lines of Fort Wayne and to furnish identically the same, or more frequent service than was furnished prior to September 27th, when the former employes left the service of the company. The contracts that are in force at the present time, were made in good faith by the company and by the present employes and a great number of the men who were not residents of Fort Wayne have brought their families to the city and located here with the understanding that they would be given permanent employment and this understanding is supported by the contract itself.

It is the company's belief that there is nothing to be accomplished by further negotiations with the carmen in view of the statement made in their letter of November 24th, in which they state "Nor can there be a definite promise to call the strike off, without some definite proposal being made to take back all men at present affected by the controversy," and the company refuses, absolutely and positively to violate the contracts which it has with its present employes and it is the belief of the company that the citizens of Fort Wayne will approve of their position.

THE SENTINEL'S DAILY SCRIPTURE READING.

11 Thessalonians 2:1-14.

1 Now we beseech you, brethren, by the coming of our Lord Jesus Christ, and by our gathering together unto him,

2 That ye be not soon shaken in mind, or be troubled, neither by spirit, nor by word, nor by letter from us, as that the day of Christ is at hand.

3 Let no man deceive you by any means: for that day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition;

4 Who opposeth and exalteth himself above all that is called God, or that is worshipped; so that he as God sitteth in the temple of God, shewing himself that he is God.

5 Remember ye not, that, when I was yet with you, I told you these things?

6 And now ye know what withholdeth that he might be revealed in his time.

7 For the mystery of iniquity doth already work: only he who now letteth will let, until he be taken out of the way.

8 And then shall that Wicked be revealed, whom the Lord shall consume with the spirit of his mouth, and shall destroy with the brightness of his coming:

9 Even him, whose coming is after the working of Satan with all power and signs and lying wonders,

10 And with all deceivableness of unrighteousness in them that perish; because they received not the love of the truth, that they might be saved.

11 And for this cause God shall send them strong delusion, that they should believe a lie:

12 That they all might be damned who believed not the truth, but had pleasure in unrighteousness.

13 But we are bound to give thanks alway to God for you, brethren beloved of the Lord, because God hath from the beginning chosen you to salvation through sanctification of the Spirit and belief of the truth:

14 Whereunto he called you by our gospel, to the obtaining of the glory of our Lord Jesus Christ.

Military Training in High Schools

It is announced that the state board of education is shortly to be asked to include military training in the prescribed high school curriculum of Indiana. The idea appears to have originated with Pettis A. Reid, of Richmond, a member of the state board of education and of the Richmond school board, and it has already drawn the vigorous fire of opponents on the ground that it is but another step in the fostering of the sprit of militarism, against which this country has consistently contended, and against which it most certainly should stand.

But those who are advocating the compulsory training in the schools deny any purpose to foster the military spirit and assert only a desire to improve the physical condition of the boys in school, and to give them the benefit of the sort of systematic exercise that will give them carriage, alertness, habits of neatness and promptness, and that will round out and improve their physical machinery while their minds are also being trained. In all probability the advantage of some such training would never have been called into question but for the developments that have come with the European war, and the rather heated discussion pro and con as to the duty of the United States on the question of military preparedness. Unfortunately there are those seized by panic who would have the country assume unwarranted burdens and go to extreme lengths in a military way, and their course may be the means of defeating much legitimate effort from which good results might come without doing violence to national traditions.

It will be readily agreed that the physical culture already in use in the lower school grades has been of immense benefit, and it has not tended toward militarism. There is ample need for something to take its place in the upper classes. We think the advantages of the training of the military system have been finely demonstrated in the case of Concordia college in Fort Wayne, and that, too, without the development of anything like the spirit of militarism. It would be difficult to find a finer looking lot of robust, upstanding young men than those Concordia college students since the introduction of the system of military training a few years ago. Something approximating it would develop the same excellent physical results among the boys in the high schools of Indiana.

In connection with the celebration of Mr. Carnegie's eightieth birthday anniversary, it was announced by close friends that the iron-master has in the past twenty years given away the sum of $350,000,000, and that in his announced determination to escape the "disgrace" of dying rich Mr. Carnegie has succeeded in reducing his wealth to a measly twenty millions of dollars. Moreover, the prediction is made that when his will is read it will be discovered that practically all of which he may die possessed will be found to have been left to charity. Mr. Carnegie's judgment in the bestowal of his gifts has often been criticized by those who believe they could have chosen a more practical form of benificence than public libraries, but two things stand out strongly in his effort. He has succeeded in getting rid of most of his money—which was what he started out to do—and its beneficial results are not transient, but enduring. That, after all, is the measure of pretty large-sized success.

Investigations of garbage disposal system by the city authorities give promise that it is possible to find an incinerator in which little or no fuel is necessary to insure the proper combustion of the city garbage, and this will mark a tremendous reduction in the cost of operation. The system in use in Fort Wayne for many years has been very expensive, the fuel running second alone to the cost of collection, which will always be the big items of expense, whatever system is adopted. If necessity for fuel can be eliminated, or practically so, in the new incineration system, Fort Wayne will have made a substantial advance in the solution of its big garbage problem.

Under the ruling of the secretary of state the name of Colonel Roosevelt must remain on the Nebraska primary ballot as a candidate for the republican presidential nomination next year despite the efforts of the enthusiast who placed it there to withdraw his action. But even disappointment may have its advantages. In the event Colonel Roosevelt changes his mind and concludes to run, his Nebraska lawyer friend is in possession of pretty good documentary evidence and sustain his claim as the original Roosevelt man. And, it may be remarked, political lightning has been known to find a much less obtrusive target than that.

And Allen produces more sugar beets than any other county in Indiana, says County Agent Henry. Come to think of it, Allen is a mighty fine county from whatever angle you view it.

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Mr. and Mrs. Sol K. Blair are entertaining Mr. and Mrs. P. T. Mitchell, of Lima, Ohio.

Fred S. Hunting and Arthur Hadley, of the Electric works, went to Lafayette on business today.

The Rich hotel has on its Thanksgiving bill of fare a saddle of venison, a rarity in these parts now.

Tom W. Houlihan has returned from Chicago and resumed his duties in the office of the Fort Wayne Electric company.

Gen. and Mrs. S. E. Brown, of Denver, are visiting Mrs. Brown's sister, Mrs. Hattie T. Tolan, of West DeWald street.

Dr. K. K. Wheelock and Dr. G. W. McCaskey have leased office suites in D. C. Fisher's handsome new flat building on West Wayne street.

The Fort Wayne Artificial Ice company has been incorporated at Indianapolis, with $150,000 capital, with Henry C. Berghoff, Aaron Rothschild and R. T. McDonald as directors.

The millinery firm of Adams & Armstrong has been dissolved, Mr. Adams retiring on account of his interests in a hat manufactory in Adrian, Mich. Mr. Armstrong will continue the business.

Dog thieves are abroad. Hugh M. Diehl's Scotch terrior, Patsy, and Tom Clark's skye terrior are missing. Joseph Douglass reports his valuable Llewelyn setter is still missing. Mr. Douglass had refused $200 for the animal.

A special car was sent to Columbia City to bring here the jury in the case of Frank Witte vs. the Pennsylvania railroad, that the jurors might examine the machine in which Witte was injured while working in the shops.

Mrs. C. L. M. Woodward, the authoress and artist and widow of the late Contractor Koodward, who was one of the builders of the Wabash and Pennsylvania railroads, is dead at her apartments in the Wood mansion on West Superior street.

There is a hot dispute as to the winner of the Thanksgiving day foot zall game between the Amateur Athletic club team and the Electric works team. The game was given to the Electrics by a score of 2 to 0, but the Atheltics dispute the decisions and claim the game by 4 to 2.

GOLF AND AGRICULTURE.

(South Bend News-Times).

An interesting governmental question is raised by the National Golf association's request that the federal department of agriculture study and report on the kinds of grasses most suitable for golf courses.

This is probably the first intimation the agricultural department has had that its activities have anything in common with golf. The fact is that this game, though a most excellent sport for those who like it and can afford it, is in direct conflict with the most fundamental purposes of agriculture. Instead of making two cabbages grow where one grew before, golf makes green grass grow where cabbages once grew, and doesn't even utilize the grass for any economic purpose.

Every golf course represents so much land taken from the productive area. The economic loss is particularly noticeable in the vicinity of any large city, where the space devoted to chasing elusive pills over hundred-acre lots might profitably be devoted to market gardens and might conceivably lower the cost of living a little in those communities.

Golf is probably justified in spite of these facts, because of its contribution to the health of those who play it. But its claim on the department of agriculture is hard to figure out.

ONE WAY TO GET ACTION.

(Pittsburg Dispatch).

Another sample of the benevolent neutrality which the British authorities are trying to impose on American trade, meanwhile never overlooking the chance to promote British commerce at American expense, is offered in the release of toxin filters for a New York firm which had been held up since last May and the import of which was permitted only after it was pointed out how the British themselves would suffer.

The shipment of filter tubes of German manufacture was held up in Holland last May. They had been bought and paid for before last March. The British authorities tried in the meantime to impress on the importers that filters of English manufacture were superior to the German make and that they should be substituted. The importers fancied they knew best what they needed and stood their ground. An appeal to the state department brought no satisfaction, and then the New York firm sought the aid of several big laboratory concerns in different parts of the country. They went direct to Sir Richard Crawford the British trade representative in Washington, and told him that unless the filters in question came through, tetanus, typhoid and other antitoxins ordered for the allies would not be delivered. The British representative said he didn't know this country was supplying antitoxins for the allies, but he got busy.

It seems action can be secured without too much deliberation and too many notes if the need is made plain.

NEWS OF FORT WAYNE'S NEIGHBORS

BURGLAR WAS WOUNDED.

Andrews Resident Exchanges Shots With Night Marauder.

Huntington, Ind., Nov. 29.—Awakened by repeated noises in an adjoining room at 1 o'clock in the morning, William Stanton, of Andrews, heard a burglar moving about and, armed with a shotgun, stepped into a third room to prevent his escape. The burglar also heard Stanton, stepped to door of the room, threw the glare of his flashlight on Stanton and fired, the bullet cutting through the clothing of Mr. Stanton's right arm and just grazing the flesh. At almost the same instant Stanton discharged his shotgun, with better success than his assailant, for a blood soaked handkerchief and pieces of the flashlight were found. A gold watch and $18 were stolen, Stanton told Deputy Sheriff Ed Haley. The robber was between Stanton and the door and after the exchange of shots slipped out and escaped, leaving a trail of blood for a short distance. Stanton ran to a neighbor's home and told them he had killed a man, but when they returned found that the thief was gone.

VAN WERT AUTO THIEF IN JAIL.

Van Wert, Ohio, Nov. 29.—Bert Montague, well known here as a balloonist and former manager of a five-cent theater, lately a resident of Lima, has been placed under arrest at Alliance and will be brought to Van Wert to answer to a charge of stealing the A. M. Gribner automobile from the Smith garage, on South Washington street. An affidavit filed in the court of Mayor Gilpin holds Montague responsible for the theft of the machine. According to the story related in police circles, Montague burglarized the garage shortly after 5 o'clock, last Tuesday morning, and, in company with a Lima man, drove the car to Fort Wayne, where a bargain for its sale to the owner of a garage was struck, the purchase price being two hundred and fifty dollars. The buyer paid five dollars down to bind the bargain, pending an investigation, but Montague did not reappear.

FRACTURED HIP KILLS MAN OF 80.

Huntington, Ind., Nov. 29.—John Bechtol died Saturday at the home of his daughter, Mrs. Charles Urshel, of Clear Creek township, at the age of eighty years, four months and ten days, as a result of injuries suffered when he fell about six weeks ago, breaking his hip. Mr. Bechtol was born in Germany on July 17, 1835, and removed to this country in 1881, going first to Wabash county, Indiana, whence he moved to Bippus a few years ago, and lately to the home of his daughter in Huntington. He moved with his daughter's family to the place of late residence in Clear Creek township two weeks ago.

Mr. Bechtol is survived by the widow, Mrs. Lena Bechtol, and six children.

KENDALLVILLE MAN DIES WEST.

Kendallville, Ind., Nov. 29.—Members of the Gappinger family received a telegram announcing the sad news of the death of Albert Gappinger, a former resident here. He died at his home in Los Angeles, Cal. Death came after an illness of several months, resulting from Bright's disease. Albert Gappinger was born in Albion, Ind., and at the time of his death was fifty-five years old. For many years he made Kendallville his home, leaving here some twenty-five years ago and locating in the west, where he had since resided. He was identified with several fraternal societies. His last visit here was two years ago.

YOUNG AUTO DRIVER KILLED.

Stroh, Ind., Nov. 29.—Milo Rasler, aged 14, was killed about 7 o'clock Saturday night when an automobile he was driving plunged down an embankment and turning over pinioned the youth beneath the wrecked car. Young Rasler, who lives three miles northwest of Stroh, had been on an errand to the home of a neighbor and was returning when the accident occurred. He was found dead beneath his car by Andrew Forest, who resides near the Pizgah picnic grounds, went he went to the scene to investigate the continued running of an automobile engine. The lad was alone in the machine when the accident occurred.

Bluffton, Ind., Nov. 29.—A marriage took place this afternoon at the county court house, with Justice J. K. Rinehart officiating, announcement of which will come as a great surprise to their many friends, and congratulations and well wishes await them particularly in Liberty Center and vicinity, where both have resided for years and are well known. The bride was Miss Erilla J. Collier, 50, and the groom was John Dean, 62, formerly trustee of Liberty township, now located at Fiat, Jay county, where he is in the mercantile and elevator business. QUITS ANDREWS SCHOOL BOARD.

Andrews, Ind., Nov. 29.—F. W. Kelsey has resigned from the board of school trustees of the town of Andrews and in so doing has suggested that the only way in which the town may have good schools and not raise the tax levy or reduce the efficiency of the teaching is to join with the township. It is Mr. Kelsey's intention to leave Andrews, where he has lived for twenty-one years. He suffers from asthma. He has disposed of most of his interests, and may spend the winter in Florida, but he has not decided this definitely.

REUNION OF DEKALB TEACHERS.

Auburn, Ind., Nov. 29.—Teachers prominent in their calling in "other days" will have part in the reunion to be held in Auburn next Wednesday afternoon in the Eckhart public library. One Smashing Blow

Some folks go on for years wondering why they have headches, nervousness, heart flutter, biliousness and various other ailments. But they never suspect a most common cause—coffee drinking.

Coffee contains caffeine, a powerful habit-forming drug. The little doses repeated daily irritate the nerves, unsteady the heart, hinder digestion and work havoc generally with many coffee users.

The simple, easy way to smash coffee troubles at one blow is to quit the coffee and use

POSTUM

—the pure food-drink.

There's "nothing missed" with the change; and thousands have found it means a big step toward health and comfort.

Postum is made of wheat and a bit of wholesome molasses—has a rich flavour, much like mild Java coffee, yet contains no drug or other harmful element.

Postum comes in two forms: The original **Postum Cereal** requires boiling; **Instant Postum** is soluble—a level teaspoonful in a cup of boiling water makes a delicious drink—instantly. Both kinds are equally delicious, and the cost per cup is about the same.

Ten days off coffee and on Postum will show

CAN WIN WITH YELLOW DOG, THEIR BELIEF

Penrose Indicates Position of Standpat Taft Republicans.

By Gilson Gardner.

Washington, Nov. 29.—That the republicans can name a yellow dog and win is the profound conviction of the party leaders who nominated Taft three years ago. Senator Penrose, who was one of these leaders, voiced his opinion in an interview published recently in a Dallas, Texas, newspaper. Penrose was in Dallas with the Liberty Bell (not intended as a joke).

"Any Republican who is nominated for president," said the Pennsylvania senator, "will defeat Woodrow Wilson—certainly any republican who has been mentioned for the nomination thus far."

The senator disposed of the progressive party with a wave of his hand. "That is all gone. They have blown up; they don't count," he said.

The interesting thing about the Penrose statement is the fact that Penrose believes it, and will act accordingly. There is not a particle of doubt that Penrose, Barnes, Murray Crane, Root, Jim Watson, Tawney, Hilles, and other members of the republican national committee are planning to disregard the progressive element and name some man like Weeks of Massachusetts, or Burton of Ohio, as the republican candidate. The elimination of Root has resulted already in the solidifying of Root's strength for Weeks. Root and Lodge are now out for Weeks. Hughes is eliminated and the game becomes more simple.

The republicans evidently do not intend to accept Roosevelt's challenge to name a progressive like Cummins, or Borah, which means that the progressives will name Hiram Johnson, or some man equally good, will maintain their party solidarity and conduct a vigorous campaign, resulting certainly in the defeat of the standpat republican nominated, and the probable success of Woodrow Wilson.

"The Navy League can show its patriotism," says Representative Clyde Tavenner of Illinois, "and purge itself of any suspicion in connection with the charge that it is backed by gentlemen interested in the profits arising from the manufacture of munitions of war, by a very simple process. Let their board of directors pass a resolution in favor of government manufacture of all munitions of war and nobody will be asking for an investigation or intimating that their motives are unpatriotic."

In a statement issued by Arthur H. Dadmun, secretary of the Navy League, the letter says: "Among these unselfish American patriots (backing the league) is J. P. Morgan, who became a life member on the payment of $25 more than eight years ago. The only other contribution or support ever asked for or received from Mr. Morgan was received four years ago, when he contributed $100 to meet the traveling expenses of speakers attending a western convention."

Mr. Tavenner has dug up a published statement which is admitted by Mr. Dadmun to be correct, showing that the elder Morgan pledged $5,000 to the league of which he paid $3,000, and that another contributor was Elbridge H. Gary, of the steel corporation, who gave $1,000 to the league. These were part of a fund of $17,000 which was pledged by prominent men to keep the work going. Mr. Tavenner insists that he is going to push his resolution for an investigation, not of the books of the navy league, but of the persons who were responsible for the organization of the navy league and its early activities and their connection with firms which manufacture munitions of war.

Another evidence of prosperity is issued by the postoffice department. A sure barometer of the workingman's savings, says the department, are the deposits in the postal savings banks. During the last month these have been larger than ever before. The total deposits in the postal banks for the United States showed an increase of $2,150,000 in October. This is one of the largest gains in the history of the service. Scores of small cities and towns accepted more savings in October than in the previous year, and postmasters in reporting postal savings business for the month frequently referred to large orders and overtime hours in the local manufacturing plants.

The total postal savings deposits on October 31, aggregated $71,500,000. Individual depositors numbered $552,000.

DEMOCRATS ASKING FOR MORE RALLIES

Party Leaders Report Wide Interest All Over Indiana.

By Willis S. Thompson.

Indianapolis, Nov. 29.—The democratic state central committee has received requests from local committeemen and enthusiastic party workers throughout the state, urging that dates be fixed and speakers be supplied for many more party rallies. Most of these have requested the presence of Senator Kern, Governor Ralston, Congressman Adair and Auditor of State Crittenberger as the speakers.

While Senator Kern and Governor Ralston have attended a good number of these meetings, while Adair has missed none and while Crittenberger has spoken at all save one and that one absence being forced by sickness; even with all this show of willingness to serve, there are circumstances that limit the ability of speakers to respond. It will not be possible for Senator Kern and Congressman Adair to do any more speaking until the senate and congress adjourns for the holidays.

Anticipating their return and having their promises to speak where called upon these dates have been fixed for holiday week: Monday, December 27, Brookville; Tuesday, December 28, Richmond; Wednesday, December 29, Fort Wayne; Thursday, December 30, Lafayette; Friday, December 31, Muncie. Besides the four speakers named there will be others at the different meetings, including Treasurer of State George A. Bittler; Reporter of Supreme Court Phil Zoercher, Clerk of Supreme Court J. Fred France, Deputy State Auditor James H. Fry and others. An effort will be made to have National Committeeman Thomas Taggart speak at some one or more of the holiday meetings, but it is not possible to secure his promise so far in advance.

POLICE BAG 15-POUND SKUNK.

Dispose of "Wild Animal" Mrs. Lipshitz Heard in Woodshed.

Yonkers, Nov. 29.—"A big wild animal is roaring and rushing in my woodshed," Mrs. Rose Lipshitz, of Bellevue and Roberts avenue, telephoned to police headquarters one day recently. Lieutenant Quirk and Patrolman Wicht were sent to investigate. In the dark woodshed they saw two shining eyes, and five shots were fired.

On investigation the animal was found to be a skunk that weighed about fifteen pounds.

Redmerski—Seiler.

A beautiful Thanksgiving wedding that took place in St. Andrew's church was that of Miss Martha M. Seiler and Mr. Paul B. Redmerski. Rev. Father Hottenroth, of Goshen, celebrated the nuptial mass with Rev. Edmunds as deacon and Rev. George Horstman as subdeacon. The bride was beautifully gowned in white charmeuse made with court train. The bridal veil made with cap effect was held to the hair with a wreath of swansonia blossoms. Miss Marie Deck, as ring bearer, wore a white satin dress and carried the ring in the calyx of a calla lily. Miss Julie Deck, a bridesmaid, wore a yellow taffeta gown and carried a large bouquet of yellow chrysanthemums tied with yellow tulle. Miss Redmerski, sister to the groom, also a bridesmaid, was dressed in a Nile green [illegible] wore a shower bouquet of bride roses tied with white chiffon. Both bridesmaids wore flowers of color to correspond with their bouquets. Mr. Joseph Seiler, a brother of the bride, acted as best man and Mr. Gerald Leeper, an intimate friend of the groom, acted as groomsman. Mr. Edmund Justus Hunt, of Chicago, a cousin of the bride, and Mr. Theodore Frank Aloysius Deck were the ushers. The bride and groom left on a two weeks' trip to Pittsburg, Harrisburg, Washington, Baltimore and New York points. For traveling the bride wore a purple suit of broadcloth trimmed with marten fur and hat of same coloring with bird of paradise trimming. Guests from away present at the wedding were Mrs. Charles Hontz, of Chicago; Mr. and Mrs. Flanders and son, Charles, of Morris, Ill., and Miss Miller, of Goshen. Mr. Redmerski is employed at the Pennsylvania shops as a machinist. Both bride and groom are well known in this city and have many friends. The bride is a daughter of the late John Seiler. Nuttle—Rothgeb.

One of the many pretty weddings of Thanksgiving day was the one in which Miss Mary E. Rothgeb, daughter of Mr. Jesse Rothgeb, of Gar Creek, became the bride of Mr. Elwood Nuttle, son of Mr. and Mrs. Daniel Nuttle, of Flint, Mich. The bridal party motored from Gar Creek to New Haven, where the wedding ceremony was performed by Rev. Mr. Leach, pastor of the Methodist Protestant church. The bride was handsomely gowned in white crepe de chine trimmed with white fur. A shower bouquet of bride roses was a beautiful part of her costume. Miss Edith Nuttle was bridesmaid and she presented a sweet appearance in a white voile dress trimmed with pink satin rosebuds. The bridesmaid carried an armful of pink carnations. Mr. Rainh Rothgeb, a brother of the bride, was a groomsman and Mr. Clarence Nuttle, the groom's brother, was the best man. After the wedding service the bridal party drove back to the home of the bride's father and partook of an elaborate dinner suited to the two events of the day, the wedding and Thanksgiving. The immediate relatives were present. White and pink predominated in the pretty decorations of the rooms and a handsomely ornamented wedding cake was conspicuous on the bride's table. White chrysanthemums and smilax were other decorations of the bridal table. Mr. and Mrs. Nuttle are to live with Mr. Rothgeb, at Gar Creek, for the present. The groom is a blacksmith.

JEALOUSY GUARDED SECRET OUT.

Minneapolis, Minn., Nov. 26.—The jealously guarded secret of Mrs. Galt's trousseau is out. The chief morsel in the outfit has been described by no less a person than the modiste who is making it—Mrs. Margaret Wade Grinager, wife of Alexander Grinager, New York artist.

Mrs. Grinager formerly lived in Minneapolis, and wrote a description of the gown to a friend here. This is what she wrote:

"It is an evening gown with a foundation skirt of pale violet charmeuse. Over this is a skirt of orchid colored chiffon with a wide ruffle of rich gold lace, which is caught at the top at intervals by orchid colored roses and gold leaves. Over this is a very full skirt of paler orchid colored net, opening in front and back, revealing the richer skirt beneath. The bodice and top of the overskirt are of a rich gold and orchid brocade, the band on the overskirt being of the most cowboy chiffon. The corsage is of orchid net, with roses as garniture."

AT THE TEMPLE.

"45 MINUTES FROM BROADWAY."

Temple Players Are Making Big Hit in Cohan Production.

With a host of surprising and delightful little specialty numbers interpolated, with a beauty chorus consisting of well known Fort Wayne girls and youths assisting the Temple Players this week are giving a rousingly hilarious production of George Cohan's favorite "forty-five" Minutes from Broadway. Ashton Newton has drilled the chorus to a degree of perfection almost unbelievable when the brief rehearsal periods are considered. Included in this chorus are the Misses Anna Drew, Oliver Babcock, Mary Shaw, Gladys Granger, Naomi Shivers, Marie Diedeman, Mabel Bowen, Gretchen Niedhamm, Ada Rochuck, Nellie Stevenson, Mildred Christman and Nelli Jennings and the Messrs. Esco Horn, Gerald Burnett, William Reyer and Raymond Dodson. Miss Helen Farnan and little Geraldine Jennings do a specialty singing, "Mary is a Grand Old Name," Miss Farnan from an upper box and dainty little Geraldine singing from the stage. Maurice Jenkins is the riot of the show, especially when he sings "Forty-five Minutes from Broadway," while Miss Ethel Hamrick's depiction of the role of Mary is quite up to the standard this versatile girl has set by her efforts in other Temple Player productions.

On Tuesday afternoon the entire company and the chorus will entertain at a tango tea on the stage immediately following the matinee performance.

AT KEITH PALACE

A BILL OF FEATURES.

Will Cressy, Blanche Dayne, the Farber Girls and Others at Palace.

The bill of bills is being tapped this afternoon at the New Palace. Included in it are the royalty of vaudeville, including Will M. Cressy and Blanche Dayne, in Cressy's latest and best seller, One Night Only; the Farber Girls; Bert Fitzgibbons and a host of other Keith royal purples. Mr. Cressy and Miss Dayne's 1915 sketch rejuvenates the two characters, Miss Genevieve Montmorency, the star of the Elite Repertoire company, and Hip Flitters, proprietor of the town hall, characters that Mr. Cressy and Miss Dayne made famous three years ago. Since then the fair Genevieve has acquired an automobile and Hip has prospered a bit, too. The lovely young Farber sisters, the Misses Irene and Constance, are making their second appearance at the Palace. A year ago these girls worked one day when Miss Constance was taken seriously ill and they were forced to cancel. In that one day they so ingratiated themselves into the hearts of Fort Wayne that those fortunate enough to have enjoyed them are keen to welcome them back.

Bert Fitzgibbons, the man with the mobile face and with each pocket filled with laughs, is on this bill, as are Howard, the famous ventriloquist; Bertisch, the modern Hercules; Ward, and Faye, the English chappies, and Collier and Dewald, novelty skaters.

AT THE EMPRESS

Every mother, daughter, wife, husband and son in the city of Fort Wayne should see "Fine Feathers" at the Empress theater this week. It is easily the greatest production ever made by a local stock company and is a real dollar show at popular prices. Scenically and in the artists who play the show, it is on a par with the very best of the New York shows ever seen in this city. It tells a tale of modern life and is right up to the minute throughout. Eugene Walter is the author. When the show was seen here two years ago two dollar prices were charged for the production.

AT THE JEFFERSON.

CHIMMIE FADDEN OUT WEST.

With Victor Moore, a Hit at the Jefferson.

A better selection could not have been made for the part of Chimmie Fadden than Victor Moore, his portrayal of the Bowery boy, with all his toughness and all his odd puzzling ways, has a heart of gold and a very fine sense of honesty. In many respects his performance in Chimmie Fadden is better than his stage productions. This bill, with Get Rich Quick Wallingford, will be shown for the last times today.

The anticipated event will take place tomorrow. The Triangle premier for Fort Wayne. A triple bill, three stars, three features and a bargain matinee for Tuesday only. The two greatest picture programs in the world are the Paramount and the Triangle and the Jefferson holds both under contract and this gives you the assurance of seeing Metropolitan pictures of the $2 class at the Jefferson. The first showing is Marguerite Clark, in a Paramount picture. "The Prince and the Pauper." Dustin Farnum, in "The Iron Strain," Thomas H. Ince, Triangle. A Max Sennett Triangle-Keystone, featuring Charles Murray in "A Game Old Knight."

AT THE MAJESTIC.

Ruth St. Denis' Dances Nearest to Visual Music.

It is in the true artistic beauty of the dances presented by the world famous danse artiste, Ruth St. Denis, wherein lies the slow transitions of line from exquisite rhythm to rhythm. In such dances the primitive art of arts was first revealed and held sacred, and from which painting, sculpture, music and poetry and later the drama slowly differentiated. The art of dancing is like them all, but chiefly, like a union between music and colored sculpture. If we could pass from the changeless and perhaps tireless pose of a perfect statue to a series of others even stranger and stronger, and by endless shades of transition that are themselves the very poetry of scripture, we should score the nearest to seeing visual music.

Miss St. Denis, assisted by Ted Shawn and a notable company, comes to the Majestic theater Thursday night.

"It Pays to Advertise" at Majestic Friday and Saturday.

When one of Cohan and Harris' successes is announced, the patrons of the theater realize they can expect something worth while. This fact is perhaps the reason for the enthusiasm hereabouts towards the coming of "It Pays to Advertise," Cohan and Harris' latest farce hit, which ran for one entire year at the Geo. M. Cohaan theater in New York. This farce is today country-wide famous for the laughter contained within, and with the local presentation at the Majestic theater on Saturday matinee and night, December 4, the management expects the bona-fide capacity [illegible]

Needless is it for the press agent to say much about any of Cohan and Harris' Broadway successes. They are all known to the average theater-goer, who delights in attending them, especially with the guarantee that Cohan and Harris will send their own company of skilled players.

Roi Cooper Megrue and Walter Hackett penned "It Pays to Advertise," which tells a breezy, good-natured story of the commercial success of a young man. The play is the funniest combination of circumstances ever staged, but is a practical lesson to those who do not believe it teaches a great truth.

IS SERIOUS PROBLEM TO ENGLISH QUAKERS

Prospect of Conscription Brings Danger of Split in the Church.

London, Nov. 29.—For the English Quakers the possibility of conscription in Great Britain offers a very serious problem. It has even been suggested that there is danger of a split in the ranks of the church. A committee from the central organization is now engaged in sounding every male communicant of military age as to his intentions toward the society in the event of conscription.

A circular which has been sent to these possible subjects of conscription by the committee says:

"Whatever the future may have in store for us we are at least faced with the possibility of military or industrial compulsion. Should this actually come about, we assume that Friends will stand fast to their belief in the sanctity of human personality, and to the principles of Jesus Christ as they understand them, be the consequences what they may. We uphold liberty of conscience, a right won by much suffering in the past, and not lightly to be relinquished.

"Should Friends in any proposed legislation receive favored treatment, which is not extended to other conscientious objectors (as has been the case in the militia acts), we feel we should be in a difficult position. We should wish to support those outside our membership as far as possible, and some Friends feel it might be right for them to resign their membership to this end.

"This is a practical method which permits earnest consideration; but it should not be forgotten that it might prevent us serving the society in other directions, and its desirability must be carefully weighed against the force of the argument that if Quakers are given, and accept, exemption, there is every reason why the convictions of other conscientious objectors should be similarly recognized."

Each recipient of the circular is asked a series of questions as to his intentions "in order that those who wish to stand out in the event of conscript may be able to keep in close touch with the committee for rapid communication of advice and assistance."

STILL YOUNG AT SEVENTY.

Indiana Man Rolls Logs to Celebrate 50 Years of Marriage.

Bynville, Ind., Nov. 29.—In celebration of his golden wedding anniversary, Benjamin Eckert, age seventy, living in the Stringtown road near here, opened an old-fashioned log rolling contest by rolling the first and biggest log into place with his own hands. Mr. Eckert is vigorous despite his years and this fall plowed ten acres of wheat land in preparation for the planting.

Celebrating the anniversary with him were his wife, four children and twelve grandchildren. After the father had rolled the first log into place the sons entered into competition and quickly had a smokehouse in three hours. Mr. Eckert was born in Pennsylvania and came here twenty years ago when one of his sons bought a farm near the city. He was a soldier in the Union army during the civil war.

WANT SHARPE TO PUT YALE BACK ON GRID MAP.

AL SHARPE

The man who coached Cornell to the gridiron championship of the east this season is the man wanted by Yale alumni to put Yale back on the map.

Dr. Al Sharpe has told Yale men that he is under contract to coach baseball, basketball and football at Cornell until 1920, but it is said Yale men will ask the Cornell Athletic association to release him.

Sharpe is a Yale man. He has had fine success at Cornell and this season his team was not beaten.

CAMP SOON TO GIVE HIS FOOTBALL VERDICT

What Will He Say About the Western Champs, is Question.

With only the All-American selection to wait for before football is put on the shelf, the question arises of how far west and south Walter Camp will go when he makes his pick.

The west and south have broken into the national limelight more this season than ever before, and it remains to be seen if these sections have edged in strong enough to gain recognition on an All-American team that heretofore has been confined mostly to the east, with an occasional mention for the middle west.

Oklahoma produced the longest forward pass of the year—55 yards, by "Spot" Geyer, of Oklahoma university, and Dakota Wesley gave the longest drop kick in history, a 63-yard boot by Mark Payne.

Besides, the Oregon Aggies invaded Michigan and walloped the Michigan Aggies and Wisconsin is after Gilmour Dobie, of Washington university, at Seattle, whose Washington teams have not been beaten in eight years.

There are two great football players out in the northwest—Hap Miller, of the undefeated Washington university eleven, and Herman Abraham, of the Oregon aggies. When Abraham's team played the Michigan aggies he gave one of the greatest exhibitions of football ever seen in the middle west.

Notre Dame, in the middle west, has a great halfback in Stanley Cofall.

Many All-American selections are made every year, but Camp's pick is recognized as official. Camp is bound to name Mahan, of Harvard, for fullback, and Barratt, of Cornell, for quarterback. Now, is he going to stick in the east for the remainder of the outfit or is he going to recognize the stars of the south, southwest, west and northwest?

COACH GETS $10,000 FOR THREE MONTHS OF COACHING.

PERCY HAUGHTON

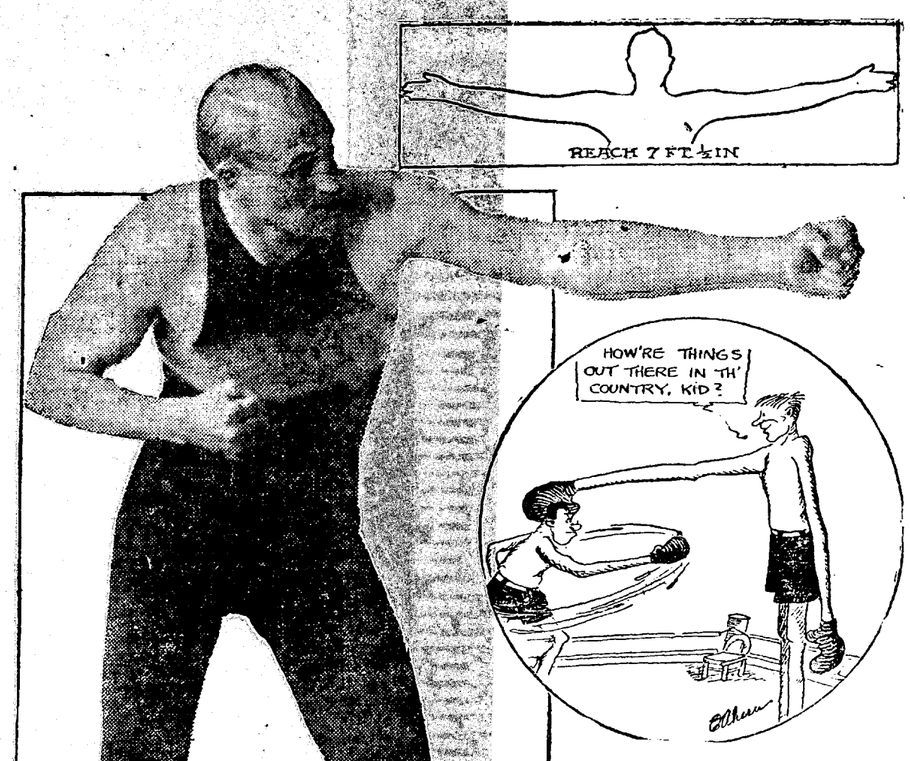
Ten thousand dollars for three months' work is the salary, it is said, Percy Haughon will get when he signs a new contract to coach Harvard football teams. Haughton shows up at Harvard each fall about Sept. 1 and is through before November ends.

But Haughton's value to Harvard is shown in figures. The eight Harvard teams Haughton has coached scored 116 points against Yale and held Yale to 13 points, three field goals and two safeties. Prior to Haughton's reign Harvard won only three games in Yale's 16.

Miss Marie Ahlesmeyer fell down the basement steps at the Hines residence on South Webster street, where she is employed, and was painfully injured Saturday. She was removed to her home on rural route No. 12.

Lodge elections are now taking place and presentation Chairs or Rockers are being purchased for retiring officers. At Foster's they have just placed on sale a very full line of these goods.

Willard to Meet Only Man Who Can Reach Him.



Fred Fulton

FRED FULTON, WHOSE LONG ARMS AND LEGS MAKE HIM A PHYSICAL MATCH FOR THE GIANT JESS WILLARD.

(By Brown Holmes).

News from headquarters is to the effect that everything is set for Fred Fulton, of Rochester, Minn., to meet Jess Willard for the heavyweight championship at New Orleans in March.

When Willard steps into the ring with Fulton he will meet the only fighter in the business big enough to reach him. Moran, Coffey, Gunboat Smith and all the others are so much shorter than Willard in reach he has only to hold out his fist and their wallops miss their mark.

Also, Willard is so long of legs and tall of body that the others would have trouble getting to him with a solid wallop. Jack Johnson was the lankiest of the heavies until Willard came along.

Johnson had a wonderful uppercut, as Tommy Burns, Jim Flynn, Frank Moran and Jim Jeffries will testify, but Willard was so tall the blow wouldn't reach when Jack attempted to defend his title against Jess.

Fulton's reach measures 84½ inches, or seven feet and one-half inch. It's the longest reach in fistiana. Willard's reach is 83½ inches. Willard is only two inches taller than Fulton. The newcomer is just as long in the legs, so in the matter of size he is a match for the champion.

It is claimed Fulton has never been hit hard. No wonder. He holds 'em off with the long left wing.

The title affair will be a fight between the Giants of the ring, with Willard favorite. Jess has shown class. Fulton has knocked out six men in his short career, but they were Jack Moran, Terry Keller, Art Pelkey, Jack Lewis, Tim Logan and Andre Anderson.

CUB FLINGER FAILS TO "HIT 'EM WHERE THEY AIN'T."

Karl Adams, the tall, thin hurler of the Chicago Cubs, was the booby prize hitter of the National league this year, according to official averages.

Adams was in 26 games and at bat 30 times, but the pitchers never happened to pitch one where he was swinging his bat. Three doughnut holes represent his average.

The next lowest average was .071 by Lefty Niehaus, of St. Louis. He managed to sneak in a hit in fourteen times at bat.

Scotland now has 124 agricultural cooperative trading societies.

A DREARY OUTLOOK FOR ORGANIZED BALL

Lefty Gilbert and His Gang of Outlaws May Be Forced to Desert.

(Terre Haute Tribune).

The Terre Haute Central league club must post a $2,000 forfeit with the league in December or lose its franchise, and unless "Lefty" Gilbert's stock campaign, which he will inaugurate this week, is successful, there will be no club in Terre Haute next season. The present stockholders are confronting a big debt and unless sufficient stock is sold will not post the forfeit, which means there will be no league baseball in Terre Haute.

The present officials will retain their connections with the club if the sale is successful, but otherwise will turn the franchise back to the league.

The plan is to interest as many business men as possible, so as to stimulate additional interest in the national pastime in Terre Haute.

GOIN' STEPPIN'?
Given by the Gym Knits Tuesday Eve. at Wayne Knit club house.

FREDDIE WELSH IS THE ARTFUL DODGER

The idea of Freddie Welsh asking for a vote by sporting editors to decide the logical contenders for the lightweight championship is ridiculous, even though a press agent affair. If Welsh really wants to know the logical contenders for his crown all he has to do is watch the papers.

Charley White and Ted Lewis have been knocking lightweights cold for several months. They have performed so well they stand out head and shoulders above all the others, so Welsh ought not to have any trouble deciding who he should meet if he really wants to meet a boxer who has a chance.

Right on the heels of Welsh's plea for a vote comes news that White knocked out Milburn Saylor in one round and Lewis knocked down Jimmy Duffy nine times in the first round. Neither Saylor nor Duffy are dubs. White and Lewis in beating them in such short time, have done more than Welsh ever accomplished. Welsh has not scored a knockout since Hector was a wall-eyed pup.

In addition to Duffy, Lewis has beaten Jack Britton twice and gave Joe Mandot a walloping. White has taken care of all those Lewis overlooked.

Mandot may be matched with Welsh in the near future and while Mandot or Johnny Dundee can look good with Welsh, they do not stand out like White and Lewis.

If Welsh is really looking for a contender, which may be doubted, he need not spend his time considering Joe Rivers, Joe Azevedo or men like O'Leary, practically unknown, who was his last opponent.

HORSE PLUNGES INTO AUTO.

Louis Steiman, 14, Hurt in Accident on the Lincoln Highway.

As the result of a runaway horse owned by Joe Barty plunging into the automobile belonging to Amos Arter, 2028 Fairfield avenue, Louis Steiman, 14 years old, who occupied the rear seat in the machine, was painfully injured about the head and shoulders and sustained several deep cuts Saturday.

In his report of the accident to the police Arter declares that he heard the clatter of the approaching hoofs and pulled his machine to the side of the road. Instead of the horse passing as he expected, it jumped directly into the car, smashing the fenders, lights, windshield and the steering gear. Barty was thrown out of the buggy, but was not hurt. His rig, however, was badly wrecked. The accident occurred on the Lincoln highway, one and a half miles west of New Haven.

Action of Canada in Commandeering Wheat in Elevators Discused.

AMERICAN MARKET LITTLE DISTURBED

Experts Say Vast Store is Still Available in Western Canada.

Chicago, Nov. 29.—Action of the Canadian government on Saturday night in commandeering nearly 20,000,000 bushels of Nos. 1, 2 and 3 northern wheat in elevators from Fort William, on Lake Superior, to the Atlantic seaboard, is expected to result in only slight fluctuations in the American market, according to opinions early today of leading grain dealers in Chicago.

The action was taken under the special war act and an official statement issued at Ottawa states that the price will be fairly adjusted and the grain owners promptly paid by the Canadian government. It is estimated that there is still in the hands of farmers and dealers in western Canada about 130,000,000 bushels of wheat available for export out of a total of about 350,000,000 bushels in the entire dominion. It is understood that a large portion of the wheat commandeered will be shipped to Italy.

George E. Marcy, president of the Armour Grain company, and Joseph Rosenbaum, head of the J. Rosenbaum company, two of the largest exporters here, are among those who do not look for quick change in prices. Mr. Marcy predicted that the Canadian government's action would release greater quantities of wheat for immediate delivery.

C. H. Canby, president of the board of trade, would make no prediction further than to say that the demand for wheat in the United States would be affected in proportion to the extent of the Canadian seizures and according to the disposition the government proposes to make of the grain and the price it will pay.

Experts said the price of grain had been kept down, so far this year, for two reasons, the first they said is the enormous supply both inthe United States and Canada and, second, the absence of competitive bidding. Most of the supplies for Great Britain and its allies have been purchased through one agent, they asserted. Franklin M. Crosby, of Minneapolis, a prominent miller, was quoted as saying that the action "does not concern the American milling interests to any extent, as there is no Canadian grain coming in on purchase and very little in bond for reshipment."

MUST SEEK OTHER SUPPLY.

Commandeered Grain Under Contract to New York Shippers.

New York, Nov. 29.—Much of the wheat commandeered by the Canadian government was under contract to New York shippers according to grain dealers here. Many of them have sold grain for December shipment and must obtain it from other sources to meet their contracts. They hope to obtain a share of the Canadian surplus not commandeered. This situation is expected to increase demand for wheat in the United States as millers in this country who ordinarily have obtained much of their supply from Canada will be compelled to turn to a greater extent to the home market. Shipping agents here say that the seizure of the wheat by Canada does not mean that its shipment to Europe will be diverted from United States ports as they do not believe that Halifax and St. John can handle the Canadian crop. Portland, Maine, is considered a great outlet for Canadian wheat and shippers believe that a large proportion of the commandeered grain will be exported either through that or other United States ports.

NEGRO MUST HANG FOR MURDER OF MRS. ALLEN

Joliet, Ill., Nov. 29.—Joseph Campbell, a negro convict, was today found guilty of murdering Mrs. Maizie Odette Allen, wife of former Warden Allen, in the warden's apartments of the state penitentiary here. The verdict fixed the punishment at hanging and was returned after forty-four hours' deliberation by the jury.

Mrs. Allen, formerly a star in musical comedy, was found murdered in her bed at the state prison on the morning of June 20 last. Her skull was fractured and her body burned. Fire, by which the murderer is believed to have hoped to have hidden the evidence of his crime, was discovered before the body was consumed. Campbell, a negro trusty, was arrested shortly afterward. He was serving an indeterminate sentence for murder.

Warden Allen was absent at French Lick Springs at the time of the murder. The crime led to his resignation as warden. The law did not permit a warden to live outside the prison, and he said life within his old apartments would be unbearable for him.

ENGLAND IS PINNING HER FAITH TO WINTER

Hopes for Reinforcement of Allies Before Victorious Invaders Can Consolidate Stands.

London, Nov. 29.—(12:05 p. m.)—The British public is not inclined to grant the German contention that the Serbian campaign of the central powers has been brought to a successful conclusion. The hope is expressed here that the wintry weather will give time for reinforcing the Anglo-French troops until they are strong enough to assume the offensive before the invaders have consolidated their positions in Serbia. Russia is also counted on to play a part in these operations.

In the meantime the only active military operations seem to be centering around Monastir, the fate of which is obscure. The many contradictory reports on this subject vary from the assertion that the city is still in the hands of the Serbians to the claim that the Bulgarians, accompanied by detachments of Austrians and Germans, have occupied the city. Further to the north it is reported the Serbian armies, divided into two sections, are retreating into Albania and Montenegro. It is not yet apparent whether Austro-German forces are to be sent against the Anglo-French lines north of Saloniki, but at the other extreme of the Balkan front the Montenegrins are expecting a heavy attack from the Austrians.

The entente ministers at Athens are said to have received the reply of Greece to their second note. Greece is reported to have promised to meet all demands which do not threaten to compromise her neutrality.

An unmistakable lull prevails along the eastern front. From the west come official reports of a lively air and sea skirmish off the Belgian coast.

BIEDERWOLF NAMED AS AN INVESTIGATOR

Charles L. Biederwolf, secretary of the Commercial club, has been appointed by the educational research committee of the Associated Advertising Clubs of the World to secure all data and such other information necessary to show the amount of business that is being done in Fort Wayne. On December 3, as soon as the business men have closed their books for the month of November, investigators in all the leading cities of the United States and Canada will call upon representative merchants in the leading retail lines and ask a short list of questions which the committee finds to be a barometer of business. The investigation will consume four days. The work in Fort Wayne will be done by Mr. Biederwolf. The Associated Advertising Clubs of the World is making a thorough investigation of exact conditions of business and prospects for the year 1916 and it is no small honor that has been bestowed upon Fort Wayne in being selected as one of the leading marketing centers to be represented in this undertaking.

Lindemuth, of the game department, and four of his deputies are visiting northern Indiana lakes this week, where cisco seining is in progress, to ascertain whether sportsmen are complying with his order that all the fish caught must be "stripped" and the spawn and fertilizer thrown into shallow water.

PUTTING MESSAGE IN FINAL SHAPE

President Back at White House Desk After New York Trip.

Washington, Nov. 29.—President Wilson returned from New York early today and immediately went to the white house and began work on his next annual address to congress.

On the return trip the president was accompanied by Senator Hughes, of New Jersey; Secretary Tumulty and Dr. Cary T. Grayson, the white house physician. Mrs. Norman Galt, his fiancee, remained in New York to purchase parts of her trousseau.

The president has the main outlines of his address to congress finished and expects to get it in final shape for the public printer today. He took the address with him to New York and discussed it with Col. E. M. House, his personal friend and political adviser.

While in New York the president is understood to have discussed the outlook for peace in Europe with Col House, who went abroad several months ago to investigate the situation for the president. It is not believed, however, that the president will initiate a conference of neutral nations to attempt to end the war, as suggested to him last week by a delegation of peace advocates.

SILVER PLATED KNIFE, LODGED IN WOMAN'S STOMACH 8 MONTHS, REMOVED.

Knife removed from stomach of Mrs. Elizabeth Hoschberger and Dr. G. C. Amerson, who performed the operation.

Chicago, Nov. 29.—There's one thing the human stomach cannot digest, and that's a silver-plated table knife.

For eight months Mrs. Elizabeth Hoschberger carried a silver table knife in her stomach.

The knife remained undigested, and Mrs. Hoschberger was bothered greatly with indigestion. Physicians refused to believe her when she told them what was the trouble.

Finally last Tuesday morning Mrs. Hoschberger consulted Dr. J. F. Pfock of the West Side hospital. She was X-rayed.

There was the knife lying diagonally in the right side of the stomach, the handle downward just as Mrs. Hoschberger said it was.

Dr. G. C. Amerson was selected to perform the operation. Dr. Pfock assisted. With a tiny silver blade Dr. Amerson made a half inch slit in the stomach; two fingers encased in rubber were thrust into the aperture, the tip of the knife was grasped, and ten minutes and a half of gentle manipulation freed the knife from the flesh.

BOWSER WORKING ON COOPERATIVE PLAN

Propose to Let Employes in the Shops Share in the Dividends.

When the plans now being worked out by John Leach are completed and adopted, the shop employes of S. F. Bowser & Company will share in the dividends of the company, in accordance with the wages each man earns. Details have not been worked out, but steps taken assure the employes that the plan will be operated to their advantage. The company expects the co-operative plan, as conceived by Mr. Leach, to result in closer attention to work by the employes and thus bring a saving in time and material in the cost of production. In fact, the output will increase without a corresponding increase in the cost of operating the factory. Only factory employes will be affected by the plan evolved by Mr. Leach. This means that between 525 and 550 men will participate in the dividends, which will be paid monthly. A meeting is being held this afternoon at the factory, at which Mr. Leach's plan will be unfolded and discussed in all its phases. For five weeks meetings have been held, at which Mr. Leach unfolded a part of his plan, one of the steps being the reduction of working hours with no reduction in wages from nine to eight and a half hours per day. The final feature of the plan is being unfolded this afternoon.

MADE HIS LAST RUN.

B. F. Campbell Completes Work at the Throttle.

B. F. Campbell brought the Broadway limited, No. 29, in from Crestline right on "the dot" this morning. The only feature unusual in the trip, for Engineer Campbell has made it a business to bring this magnificent train in on time, is the fact that it was his last run. He has passed the three score and ten mark in life's pathway and goes on the pension list Wednesday. Engineer Campbell does not retire from active work without reluctance, for he is seemingly young and good for many more years at the throttle, but it is the rule of the company and he always observes the rules.

E. Wells, of the Wabash, in response to an inquiry this morning. "Traffic on the Wabash is up to the limit of the equipment capacity," continued Mr. Wells, "and I am chasing around to see that none of the cars are locked up unnecessarily."

MACHINISTS MAKE GAIN.

The Machinists' union has made wonderful progress in Fort Wayne in the way of increasing its membership, according to report of the men engaged in the membership work. "Several of the big shops are 100 per cent. union and in others the percentage is about 95," said one of the officials of the union. From the same source it is learned that the increase is general throughout the state, particularly in South Bend, Laporte and other cities in the northeastern part. The latter formerly resided here and is well known in Fort Wayne.

MILK MASSAGE FINE TO CLEANSE SKIN

Fresh milk has been known for ages as having wonderful power of beautifying the skin and cleansing the pores of all poisons and impurities. In olden days milk baths were the morning requisite. Today the milk massage is the proper and popular method.

To make the milk massage, get about two ounces of powdered bryol crystal from your druggist, add it to half a pint of fresh skimmed milk, heat gently until a cream is formed. Apply this milk cream freely to the face, neck and arms, massage gently until cream is apparently all absorbed by the skin. Keep on massaging and the cream will roll out, bringing with it all the impurities and poisons out of the pores of the skin, and will leave the skin soft and white.—Advertisement.

IN THE CHURCHES

MANY PEOPLE LOOK UPON SIN AS A JOKE

Said Evangelist Patty in Powerful Discourse at Men's Mass Meeting.

The last week of the month's revival meetings at Simpson M. E. church opened Sunday afternoon at 3 o'clock with a big mass meeting for men. Evangelist Patty, who has stirred the entire community with his wonderful power of appeal the past three weeks, spoke on the moral and mental insanity of men before an audience which filled the entire auditorium of the church. In the course of his stirring discourse he said that too many people of today looked upon sin as a joke and that through the furtive efforts of the devil their souls had become so hardened that they were sure to become inmates of the asylum of hell which Satan has prepared for them.

Eight men stepped forward at the close of the sermon and made a public confession and accepted Christ as their Savior. Thus far the number of converts has been extremely gratifying, but it is anticipated that many more will come forward during the last week's meetings.

Rev. Patty in an eloquent manner showed the similarity between the mentally and morally insane people. He dwelt at length on the latter because people as a rule do not recognize these as soon as the former. In enumerating those people who were morally insane the evangelist scored heavily against the desire of worldly passions, prostitution, card playing and drinking.

In a graphic manner Evangelist Patty told his audience of the trial of Jesus and showed how Pontius Pilate without a doubt was morally insane. "Fort Wayne," said the speaker, "is filled with Pontius Pilates who may have the most sagacious minds yet turn Jesus Christ to the bloodhounds of hell.

"A mentally insane person," continued the speaker, "usually turns against his best friends whom he thinks are going to harm him at all times. A person morally insane does the same thing. He is endeavoring to assist the devil, who is really his worst enemy, to take away the throne from God Almighty and place satan there."

In closing he made an appeal to all those who were not already right with God to make a stand at once and told several stories of where people had been accosted and asked to confess Jesus and had refused. A few hours later they met sudden death and then it was too late.

A big mass meeting for everybody, men, women and children, will be held at the church next Sunday afternoon at 3 o'clock. Rev. Mr. Patty will deliver a sermon on the theme, "The Second Coming of Christ."

Another interesting service was held Sunday evening and a number professed confession. Monday evening will be Associated Christian Workers' night and the young people have planned to attend in a body. The junior boys' and girls' choruses will sing.

STEINWAY

The purchase of a Steinway means the selection of the ideal piano, for in the Steinway tone and workmanship are of the first importance. From the day in 1853, when the first Steinway Piano was presented to the public, it has represented the loftiest phase of the piano industry. It was then and is now the standard of piano quality throughout the world, yet you will find that the Steinway costs only a trifle more than other makes.

Style "V," the new Upright, and style "M," the small Grand, offer a special advantage in price. They embody all the distinct Steinway features (there being but one grade of Steinway Piano), and are of a size to meet the requirements of the modern home or apartment.

Style "V" Upright, Mahogany, $500

Wood-Cutting Made Easy

Wood-cutting shouldn't be hard work. The trouble is lots of people think it doesn't deserve a good tool. The right saw will make the work easier than you ever thought it could be.

Atkins Wood Saws

Go through the wood in a jiffy, with little effort. The blade is tapered, so that the tooth-edge is the thickest part. Doesn't bind or stick in the wood. Buy an Atkins—be sure it bears our name. If it doesn't make you feel more friendly to your wood-pile, bring it back to us and get your money back.

ISN'T IT SHOCKING! — DAME FASHION'S FUR-TRIMMED STOCKINGS.

Dame Fashion won't stop at anything so she's skipped right past shoe tops and now three or four rows of fur on lady's stocking is the latest.

Do you think it shocking—we mean the stocking. Just glance at the illustration above.

The new style so far is only used on filmy, thin stockings to be worn with a dancing frock and slippers.

An endless variety of kinds of fur are called into use by the new fad for one's stockings must match the color of one's evening frock, and, of course, the fur must be of the same color as the stockings.

Three rows of fur are most popular, but four rows are quite proper.

And do they show, of course they do when one tangoes in a dress with the latest full blown or hoopskirted effect.

SAFETY FIRST IN JUVENILE BOOKS

New Boy Scout Movement to Pick Good Reading is Onder Way.

"What Boys Live By," might very well have been used as a title to characterize the new book list just issued by the Library Commission of the Boy Scouts of America in an effort to present to the parents of 8,000,000 American boys, the truth about juvenile fiction and to furnish a complete and satisfactory guide to good reading for these same millions.

The survey is one of the first of its kind ever attempted. Out of a thousand volumes, some of which have withstood time and the reading of three generations, and some of which are of comparatively recent origin, 300 stood the test. These have been grouped in a special list entitled "Books Boys Like Best," which is being distributed all over the country through public libraries and bookstores.

Librarians, teachers and book dealers in all parts of the country co-operated in making the selections. A list of one thousand books waas sent to them, with a request to check the most popular books, as evidenced by the sale or the circulation. By this method the boys unconsciously select their own reading list and the list for the growing generation of youthful bookworms.

In the published list the books have been grouped according to the boy's chief reading interests: (1) Stories of Adventure; (2) The What and How to Do Books; (3) Books of Information. Besides the listing of the stories of adventure according to a boy's heroes, in each instance there is an interpretative introduction, showing just how that particular group of books is likely to influence the boy in his moral and mental development.

"It is not for an instant contended, of course, that this list contains all of the good boys' books," said Franklin K. Mathiews, the Chief Scout librarian. "But these are a careful selection of the good books that boys themselves have shown they like best. There will be no necessity of urging the reading of them, and, collectively, they alone will keep even the reading boys busy for some years."

The work is a part of the Boy Scout movement's plan to help parents who care what influences get into their boys' lives through their reading. "Safety First" Juvenile Book Week, Nov. 28-Dec. 4, will be the beginning of a national campaign to stamp out the intemperate reading of cheap books among boys.

NEW DISCOVERY DISSOLVES HAIR HARMLESSLY!

There is only one superfluous hair-remover known which will not cause redness, irritation or injury to the skin. This is a formula recently discovered, which not only is as harmless as water to the skin, but removes any hair instantly without leaving any evidence whatever that a hair-remover has been used. The skin will be soft and white. This toilet preparation, brand new, and being used by thousands of ladies, is known as the new Sulfo Solution. This comes in the form of a creamy, golden liquid. It is applied with the fingers or a little cotton swat, on the hairs to be removed. Almost immediately the hairs dissolve completely. The cream is then wiped off, leaving the skin in exquisite condition, without the least reddening or smarting. It can be applied to the most delicate skin or any part of the body, and will not even leave the skin red. The whole thing is all done in a few moments with perfect ease, and it never fails to remove all hairs no matter how thick or bristly. Its use positively defies detection. Aside of its marvelous results, it is the most economical hair-remover known. Sulfo Solution is made by the Cooper Pharmacal Co., of Chicago, Ill., costs $1.00 a bottle and is sold in Fort Wayne by Meyer Bros. Co. and Dreier Drug Co.—Advertisement.

"BOOK OF GOLD" WAR'S SORROW MEMORIAL TO THE BELGIAN KING.

San Francisco, Cal., Nov. 29.—"The Book of Gold" is a volume of mingled tears, romance, tragedy and devotion to an ideal.

Reposing here in the Belgian section of the French exposition pavilion, its pages are filled with names subscribing to the Belgian relief fund.

"The Book of Gold" is in charge of Mme. Jules Clerfayt, whose tragedy is interwoven with its story. She is the widow of Jules Clerfayt—personal friend of King Albert—who recently died of overwork and heartbreak for the tragic fate of his country men. She sits there beside the book in deep mourning, but with pathetic determination to be of service.

Before her marriage Mme. Clerfayt was beautiful Carmelito Castello, of San Francisco. Her late husband, a direct descendant of Field Marshal Francois Clerfayt, had the order of Leopold II conferred upon him by King Albert.

Mme. Clerfayt decided to carry forward the relief work begun here by her husband. Thus the "Book of Gold" was prepared. It contains the names of notables and of more humble personages from all over the world—a sort of bond of sorrow that has linked the citizens of every belligerent nation.

There are German, English, French and Italian, as well as Belgian and American signatures.

On its pages are the names of the mother of Brand Whitlock, of Helen Keller, blind genius; of E. S. Curtis, noted Indian photographer, of governors and mayors, of Samuel Hill, who some years ago built a house for King Albert in Seattle, Wash., at the time Belgium's monarch visited this country.

When the "Book of Gold" has been filled it will represent the contribution of many thousands of dollars to the Belgian relief funds, and will then be forgian relief funds, and will then be forwarded as a memorial to Albert, soldier-king of a brave little army.

AND THEN SPEAKING OF ARTFUL DODGING

This from Texas Congressman Keeps the Ladies All Guessing.

By Gilson Gardner.

Washington, Nov. 29—A prize—a postcard portrait of Susan B. Anthony with two green trading stamps—is offered by the Congressional Union for Woman suffrage to anyone who can tell the union what is meant by the following words spoken by Representative Robert L. Henry, of Texas, chairman of the committee on rules in the 63rd congress, when waited on at his home in Texas by a delegation of women, urging his support for the suffrage amendment. This is what Mr. Henry said:

"I am a trustee for the democratic party, as chairman of the rules committee, and sometimes I might say things in my own individual capacity that I should not say as chairman of that committee. This question will come before the committee, I am quite confident, and I will say this, that when it does it will receive full and careful consideration."

Mrs. Rotan, chairman of the delegation: "It certainly will be brought before them again."

Mr. Henry: "I will say this, that I shall be glad to hear any additional argument upon any point and I will always be in a receptive mood as a representative and chairman of the committee, but you ladies can understand that I might express myself as an individual in a way that might not meet the approval of my party and they might call a caucus and say to me, 'You are the agent and representative of your party, and as such you have no right to bring this matter up while you are chairman of the committee on rules.' And again the president might call me to a conference and inquire into my remarks and it might be that he might have changed his views on that question (laughter) and as a party leader I might find that I would have to cooperate with him temporarily on this question; but as an individual I would rather not discuss the merits from any standpoint of this amendment. I prefer just to say that I am glad to have this hearing and I will not be dilatory when it comes up for consideration. I will study it and go over every phase again and it may be that the committee on rules will bring the question up again in the house of representatives, and if they see fit to do so, I will be glad to vote on the question."

Mrs. Thompson: "Did you vote in favor of a committee on woman suffrage?"

Mr. Henry: "I have always felt that there should be a committee on suffrage, but the committee on rules being privileged to bring up any question at any time, feeling that there was not strength enough in favor of this to warrant the belief that such an amendment could be carried, I never found the occasion when I felt that there was a majority of the votes on the side of such, and therefore, I did not care to lead your cause to defeat on that question. I favored that committee on suffrage and shall favor it again. As I said before, it is one of the paramount issues of this country and there ought to be a committee separate and distinct on suffrage and I shall fight for it again and often, but whether you can pass it through the house is another question. I have long learned that that body is one that it is not always well to count on. It might be that you could even pass a resolution for a committee on suffrage, but I am not sure about it. If I happen to be chairman of the committee on rules, there is one thing that I can promise and that is that you shall have an opportunity to present your views to the committee."

Mrs. Thompson here asked whether Mr. Henry would state whether he was in favor of suffrage.

Mr. Henry: "That would be discussing the merits of the question and as I said, I can not separate myself from my position that I hold. I have always held, and I think it better always to issue bulletins than to state my views. I have never known the women of the country to take hold of any question where they did not feel that they were not right on it, and I commend you for the interest and the efforts that you are displaying in this cause; at the same time I do not agree with some of them. I wish I could on all questions, but of course there are two sides to it. As a matter of right perhaps it would do to submit this question to the states; that is as a matter of the rights of the individuals under the constitution, but as a matter of policy it might not be the right thing to do. There are a great many matters that are right theoretically but that are matters of policy I would not commend. You might submit this question and there might be perhaps any number of other things and other amendments that might be brought in."

Mrs. Thompson stated that all suffrage parties had centered on this one amendment.

Mr. Henry: "I did not mean on suffrage; I mean of all kinds. I think that without taking any part in any factions among the women of this cause in the country, I can say that I do not think there has ever been drawn up a resolution that is in more felicitous language than the Susan B. Anthony amendment and I feel safe in saying that if you can get this amendment passed that you will get all that you want and maybe a little more."

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says glass of hot water before breakfast washes poisons from system.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Advertisement.

IT'S RATHER UNUSUAL

DR. JOSEPHINE BAKER

—for a woman to save the lives of 20,000 babies in eight years. One would think that would be distinction enough for any woman, but Dr. Josephine Baker is not satisfied. She is director of the bureau of child hygiene of the New York board of health, where 60,000 are treated every year. "We have reduced the death rate in New York to 95 of every thousand babies," said Dr. Baker, in describing her work, "but we are not satisfied for we believe we can reduce this still further."

OUCH!

He—If you are so forgetful, how is it that you remembered me?

She—Lots of times I remember the little things when the big ones escape my notice.

WEALTH BRINGS FRIENDS.

Two Hundred Richmond Men Write to Miss Winifred Sammons.

Richmond, Ind., Nov. 29.—Miss Winifred Sammons, age seventeen, the $50,000 heiress, left today for Cheboygan, Mich., realizing that it would have been unnecessary for her to work as a house servant here had she only made known her prospects. Two hundred Richmond men have written Miss Sammons since it became known that when she is twenty-five years old she will inherit $50,000.

The girl ran away from home last June after a quarrel with her father, a Lansing theatrical man. She tried to make a living as a servant, but because of her unfamiliarity with kitchen utensils she could not "make good." She finally was sent to the Home for Friendless Women. Her aunt, Miss Lottie Sammons, a newspaper woman, took the girl back to Cheboygan after buying her a big Thanksgiving dinner and promising her an automobile and a piano.

Singing the Praise of Chamberlain's Tablets.

"Ever since I used Chamberlain's Tablets for indigestion, when living in Fulton, N. Y., about five years ago, and they did me so much good I have been singing their praise in the ears of neighbors and friends," writes Mrs. Ernest Crookes, Camillus, N. Y. Obtainable everywhere. —Advertisement.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Nov. 29.—Canadian comandeering of millions of bushels of wheat brought about an excited rush of buying here today and caused a decided upturn in prices. The market, however, as a whole did not prove as well as many traders had expected and the advances were moderate compared with wha had previously been witnessed many times since the beginning of the war. Opening prices of wheat here, which ranged from 1½c to 2½c higher, with December at $1.05 to $1.06, and May at $1.07 to $1.08½, were succeeded by a decline to slightly under the lower side of the initial range, December sagging to $1.04⅞.

The close was firm at 2¼c to 2⅜@2½c net advance with December $1.05⅝ and May, $1.08½.

Corn was bullishly affected by the advance in wheat. After opening a s hade off to ⅜c to ½c up the market rose to more than a cent above Saturday's finish but gradually receded.

The close was firm at a net gain of 1c to 1¼@1⅜c.

Oats developed firmness with corn and wheat.

Grain strength and a rise in the hog market carried provisions up grade.

THE DAY ON WALL STREET.

New York, Nov. 29.—On the resumption of trading today stock of various descriptions recorded moderate advances, with greater gains for a few specialties. Mercantile marine preferred rose 2¼, which it soon increased to 3½ at 70¼ and General Motors rose 4¼ at 460¼; later going to 465. Some rails were fractionally better and standard industrials manifested a similar tendency. Offsetting features, however, included further weakness in American Tobacco, which yielded 7½ points to 212, with some heaviness in Northern Pacific, Canadian Pacific and New Haven.
Dealings became increasingly dull after the opening, with a sagging tendency to rails and standard shares. Canadian Pacific and "Soo," its subsidiary, were lower by a point or more, also St. Paul, a condition ascribed to the Canadian government's seizure of large quantities of wheat within the dominion. Stocks of an obscure nature rose three to four points but failed to enlist public interest. By midday heaviness became more pronounced, with a renewal of activity. Bonds were steady.
Trading became stagnant in the final hour, with more variable price changes. The closing was irregular.

MOB HANGS A NEGRO NEAR INDIANA LINE

Evansville, Ind., Nov. 29.—Forty masked men early yesterday at Henderson, Ky., thirteen miles from here, forced an entrance to the cell of Ellis Buckner, colored, 24 years old, in the county jail. They took him to the river front, three blocks away, and hanged him to a willow tree in a lonely spot. The victim was charged with an attempt to assault Miss Annie Hardin, a white girl.

At 2 o'clock in the morning the mob, according to Henderson police, formed suddenly in front of the jail and demanded entrance. Arizona Grayson, deputy sheriff, and the jailer were the only ones in the jail. The mob threatened to batter down the door and wreak vengeance on the officers the latter say, and the door was opened.

Then the mob demanded that the corridor and cell doors be opened.

The negro was dragged to the foot of Powell street and hanged, a rope being thrown across the limb of a willow tree there. Chief of Police Graves located the body at 10 o'clock and cut it down. Henderson police say Buckner had been in trouble before.

Mrs. N. W. Bloom, 1125 Columbia avenue, is recovering from severe burns she received last Wednesday evening, while she was engaged in making taffy candy. Miss Edna Fee, of Pontiac street, was thrown from a horse on Shawnee place Saturday morning and was seriously hurt and rendered unconscious for two hours.

THE OUTER BOUNDARY OF GERMAN RUSSIA!

This is the last trench of the kaiser's legions in the czar's empire—the "farthest east" of the host under von Hindenburg that drove a wedge almost into the heart of the Muscovite domain. Photographer Durborough took this picture on a trip to the very front, shortly after his famous exploit in photographing the retreating Russians from the seat of a flying aeroplane.

HONEYMOON SHINES WITH LURID GLARE

George and Katy Salisbury Again Have Trouble to Air in Court.

It was only last March that George Salisbury bore Katherine Salisbury blushing from the shrine his radiant bride and the honeymoon season may not fairly be said to have expired by the statute of limitations. But that honeymoon has never shone with much save a red and fretful glare. George is in jail on a surety of the peace charge filed by Katie, and his wife promises to show him when the case is called in the city court Tuesday. Mrs. Salisbury, who is somewhat her husband's senior, had him arrested Sunday following trouble at their home in Wallen. After arraignment in the city court Monday morning George wanted time to get witnesses and a lawyer, and was granted a continuance, though Katie declared to the court that to hold up proceedings to get witnesses was a sheer waste of time "because there ain't any witnesses." The pair wrangled a lot during the formalities, Katie promising to show her new-made liege in shady colors and George trying to heckle Katie with the accusation that she got drunk Sunday and let the dinner burn up on the stove. The trouble, according to Katie's stories to the prosecutor and police is that George dissipates her money and does nothing useful. She says she staked him a week ago to $100 in perfectly good cash to launch himself in the meat market business and that with the money in his pocket George started on a merry spree. Katie had him arrested last July on an assault and battery charge, but dismissed the proceedings in Justice Nierman's court, when George entered into a formidable legal contract with her not to get soused any more and never to enter a saloon except in her company. Mrs. Salisbury says her husband has cost her several hundred dollars since they became one. The trouble will be thrashed out in the city court as soon as George can get his witnesses. After Mrs. Salisbury had left the court room she came flying back out of breath and in a fine state of excitement to say that a big roll of money in George's pockets when he was arrested was her own and she wanted it. George denied that it was his wife's and she was directed to the sheriff to get it.

Assault Case Under Advisement.

Charles Clutt, an employe in the Pennsylvania shops, was tried on a charge of assault and battery on the person of Russell Howey, inspector for the Fort Wayne & Northern Indiana Traction company's city lines, Saturday night. It was alleged that after a traffic tangle on Calhoun street between Berry and Main had been straightened out when a jitney bus and a street car had come together, that Clutt seized Howey by the tail of his overcoat as the latter mounted a moving car and tried to drag the inspector into the street, tearing the garment. Clutt denied that he had touched the inspector, though he was near him. It was a question of identity in which three or four witnesses for each side radically disagreed. Judge Kerr took the case under advisement until December 4.

Other City Court Cases.

Leonard Benward, a 20-year-old youth who has had a ripe experience as a minor criminal, was in on a loitering charge and was continued until Friday. His mother had complained that he tried to extort money from her and she feared him.

Walter Jacobs, Warren Jacobs, Henry Magee, William Nesbitt, Tom Dillon and John Hardesty, drunks, were turned loose. Jim Coffee, who was released Saturday morning on an indefinite continuance on a drunk charge, was in again and drew fifteen days. Mart Dowell got eleven days for being drunk and Paul Williams drew $5 and costs.

Theodore Baker, of Woodburn, was in court on a surety of the peace warrant sworn out by his mother, Margaret Baker. The case was continued to get witnesses in court and Baker went to jail in default of bond.

The case against Carl Herford for assault and battery on Anna Converse, the affidavit being signed by Leroy Converse, was continued until December 1 and the defendant furnished $25 bond for his appearance.

Miller waived extradition procedure and made no resistance to a return to North Carolina.

A LESSON IN NATURAL HISTORY.
Ever see a narwhale, children? He's an unruly creature. He inhabits the polar seas and is a bitter enemy to fish much larger as well as to men who would capture him. His lengthy prong is a deadly weapon! He pierces his enemy through and through with it!

SERBIAN TOWN SOON TO FALL

Bulgarians Near Victory in Battle Between Prilep and Monastir.

EMPEROR WILLIAM ARRIVES IN VIENNA

Given Notable Ovation on Visit to Aged Austrian Monarch.

Today's War News Given in Summary

A battle between Bulgarians and Serbians is raging between Prilep and Monastir, an Athens dispatch states, and it is thought there that Monastir cannot hold out much longer. The civilian population has left the city.

The northern army of Serbia is continuing its retreat toward Scutari, Albania, unofficial advices state. Berlin mentions a further pursuit of the Serbians, although announcement was made yesterday of the conclusion of the Serbian campaign. It may be that the German forces of the allied armies are not participating in the further operations.

A total of 502 guns, many of them of heavy calibre, were taken from the Serbians during the campaign, the German statement declares. An additional 1,500 Serbians were captured in the operations covered by today's official communication.

Operations on the Franco-Belgian front are largely artillery and aeroplane actions. Verdun has been bombarded, although ineffectually, by German aeroplanes, and French aviators have dropped bombs on the railroad station of Brieulles in retaliation, Paris reports, the railroad being cut.

Berlin announces the destruction of a French aeroplane by artillery fire.

Emperor William arrived in Vienna today and visited Emperor Francis Joseph. The two monarchs had not met since the outbreak of the war. Vienna greeted the German emperor with a notable demonstration.

Athens, Nov. 29.—Monastir has been evacuated by the civilian population. There is a prospect that the Serbian town will be occupied by Bulgarians as it seems likely, according to reports received here that the Serbs will not be able to resist long in the battle now in progress between Prilep and Monastir.

The northern Serbian army continues to retire toward the Albanian town of Scutari.

EMPEROR WILLIAM IN VIENNA.

Big Crowd Gives German Monarch Notable Demonstration.

Berlin, Nov. 29.—Emperor William arrived in Vienna today and paid a personal visit to the Austro-Hungarian monarch, Emperor Francis Joseph, at Schoenbrunn castle.

The German emperor was received at the railroad station, says the Overseas news agency, by Archduke Charles Francis, the heir to the throne, and Archduke Franz Salvatore and Archduke Charles Stephen. The news agency adds: "An immense crowd gathered to greet the German emperor and cheered with indescribable enthusiasm and joy. The entire city of Vienna had been decorated with bunting for the occasion.

"The meeting between the emperors, who had not seen each other since the outbreak of the war took place in Schoenbrunn castle and was a most cordial one. The monarchs could hardly master their emotion."

Army headquarters announced today that in the Serbian campaign 502 cannon were captured.

WORK IS STARTED ON PROPOSED 'BUS LINE

Solicitors Are Now Endeavoring to Sell Stock in New Company.

With little hope of ever settling the street car strike that has been in progress in Fort Wayne since September 27, solicitors were put to work Monday selling shares of stock for the proposed 'bus line to be operated in opposition to the street cars. After a sufficient amount of stock has been subscribed a company will be formed and incorporated for $100,000.

Shares of stock are being sold at the par value of $10, as follows: "We, the undersigned, subscribe for the number of shares of stock of the par value of $10 in the proposed transportation company, as set opposite our names. The payment on said stock is to be made as follows: Twenty per cent. on call of the board of directors and ten per cent. on the first of each and every month thereafter until paid in full."

Greenland Issues Statement.

A statement was issued Monday by Samuel W. Greenland, general manager of the Fort Wayne and Northern Indiana Traction company, setting forth in detail the strike situation and the effort the company has made to bring about a settlement of the trouble, including the correspondence between the officials of the company and the conciliation committee appointed by Governor Samuel M. Ralston.

Colonel J. Levering Jones, chairman of the executive board of the traction company, left the city Sunday for Toledo and from there will return to his home in Philadelphia.

FORCES DETOUR OF PRESIDENT'S TRAIN

Bad Freight Smash on the Pennsylvania East of Philadelphia.

Philadelphia, Nov. 29.—One of the most serious freight wrecks that has occurred in a long time on the New York division of the Pennsylvania railroad occurred at Cornwells, eighteen miles east of Philadelphia, early today and traffic was blocked many hours. The train on which President Wilson returned to Washington from New York was one of the many that had to be diverted over other routes. No one was hurt, but thirty freight cars were damaged and piled up over the four tracks of the road.

The accident was due to the failure of the engineer of one of the two freight trains involved to obey signals. Both freights were going east on different tracks and one crossed over at a switch and crashed into the middle of the other.

President Wilson's train was diverted at Trenton, N. J., to the Trenton division and run down along the New Jersey side of the Delaware river to the Delaware river bridge where it crossed into Philadelphia and resumed its journey along the regular route.

HIS LETTERS TO MRS. GALT WERE INSULTING

New York, Nov. 29.—A man describing himself as Samuel White, 27, an inventor, was arrested here today by police and secret service agents charged with having written insulting letters to Mrs. Edith B. Galt, President Wilson's fiancee, and her mother, Mrs. Bolling. White, according to the police, admitted having written to Mrs. Galt and Mrs. Bolling concerning a patent egg carrier to be used in the mails and two new musical instruments. The prisoner said, the police added, that he wrote the first letter for a Samuel Osborne, of Chicago, who had invented one of the musical instruments.

White told the police that he met Mrs. Galt and her mother at the Grand Centraal palace here in 1913.

MILITIA ORDERED OUT IN WAR ON LOTTERIES

New Orleans, La., Nov. 29.—Governor Hall today ordered the Bogalupo company of the Louisiana national guard into camp near Southport, in Jefferson parish, which adjoins this city. The governor declined to say whether he would proclaim martial law but said the troops would be held there. It is alleged the state law against lotteries is being violated in Southport. Some lottery shops have been raided.

LIQUOR MEN GET FEW MINOR CONCESSIONS

New Restrictions on Sale Go Into Effect in England.

London, Nov. 29.—The new restrictions on the sale of liquor became effective today. With the exception of certain minor concessions obtained at the eleventh hour, opposition to the measure provide proved futile. Subject to the usual exemption and to a few special provisions it is made an offense punishable by a fine of $500 or imprisonment for six months to sell or supply intoxicating liquors for consumption on the premises except between the following hours: Week days noon to 2:30 p. m. and 6:30 to 9:30 o'clock in the evening.

Sundays, 1 to 3 p. m. and 6 to 9 p. m. A relaxation of the order permits an extension for half an hour for consumption of liquor ordered during a period in which the sale is permitted. Another amendment permits delivery of liquors ordered during opening hours if paid on delivery.

Spirits for home drinking cannot be purchased on Saturday or Sunday, nor on other days except between noon and 2:30 p. m. This traffic is limited to the sale of bottles holding not less than a quart.

PURDUE TO ASSIST IN MEMORIAL PLAN

Charles G. Sauers, landscape expert from Purdue university, will be in Fort Wayne Friday for the purpose of investigating the question of a memorial to Johnny Appleseed, and also to secure a rough plan for the beautification of the grounds surrounding the new Lincoln school in Washington township.

The fact that Purdue university is to assist in the movement for a memorial to Johnny Appleseed, whose body is buried in the Archer cemetery, northeast of the city, will cause no little interest. The movement was first started by the Ohio Apple Growers' association some months ago.

D. O. McComb, superintendent of the Allen county schools, is president of the association, and F. G. Smeltzly is secretary.

KERN IS AGAIN FLOOR LEADER

Indiana Senator Unanimous Choice in Caucus of Democrats.

RULES REPORT GOES OVER TO WEDNESDAY

Discussion on Cloture May Prolong Conference Several Days.

Washington, Nov. 29.—Senator Kern, of Indiana, was re-elected chairman of the democratic senate caucus and floor leader by unanimous vote today at the conference of senate democrats.

Senator Pittman, of Nevada, was elected secretary of the conference to succeed Senator Saulsbury, of Delaware, who wished to relinquish the office. Selection of a vice-chairman, president pro tempore of the senate committee assignments and the report of the special committee on revision of the rules were postponed until Wednesday.

Senator Kern was authorized to name a new steering committee of eight members to be approved by the conference Wednesday. Chairman Owen, of the special committee to revise the rules, will submit a report Wednesday recommending a modified form of cloture on debate. Upon that a division of opinion is expressed and discussion may prolong the conference several days.

Nearly All Democrats There.

Practically all the majority members of both branches were here today to take up the work of organizing for the sixty-fourth congress, which convenes next Monday.

One of the most important matters which awaited the consideration of the senate caucus was a revision of the rules to provide for cloture of debate. A special committee, of which Senator Owen, of Oklahoma, is chairman, had prepared a report recommending a modified form of cloture designed to prevent protracted filibustering.

A majority of the democrats are said to favor cloture, although some are expected to vigorously oppose it.

The re-election of Senator Kern, as majority leader; Senator Clarke, of Arkansas, as president pro tempore, and Senator Lewis, of Illinois, as party "whip," was forecast. Important committee vacancies, mostly on the republican side, are to be filled, as well as committee places found for new democratic senators.

House democrats are confronted with a more difficult task because of the reduced democratic and increase republican membership. Not only are there many democratic vacancies on most of the important committees, but the increased republican membership necessitates changing the party ratio on near-

LIFELESS BODY IS FOUND IN A WAGON

Hans Knuth Dies Suddenly During Night in the McKinley Barns.

After he had failed to return home Sunday night, members of Hans Knuth's family became alarmed Monday morning and began an investigation as to where he might be. An inspection of the McKinley feed barn, on Beach street, where it was known he spent a great deal of his time, brought to light his lifeless body as it lay in one of the trucking wagons. The unfortunate young man was subject to convulsions and it is thought that while going through one of these seizures he was seized with an attack of heart trouble.

The deceased was thirty-five years of age. Sunday afternoon he had been around the house, 1646 Oakland street, and early in the evening had been in the office of the feed barn. Presumably he had gone into the barn and when he felt the attack coming over him he crawled into the wagon, where death claimed him a short time afterward.

He was the son of Mr. and Mrs. Henry Knuth, who survive him, as do five brothers and four sisters: Charles, John, Fred, William, Henry and Eucelia Knuth, Mrs. Albert Gauser, Mrs. John Bilser and Mrs. Glenn Moll, of Detroit.

HIS INJURIES PROVES FATAL

Ben Fishman, 18, Dies After Accident on Spy Run Avenue.

STREET CAR AND WAGON IN CRASH

Young Driver Was to Have Quit His Position at End of Day.

Promising his father that this would be his last day in the employ of the Merchants' Delivery company, Ben Fishman, aged 18, of 802 East Lewis street, left home Monday morning and in less than six hours was dead as the result of his wagon being struck by a Spy Run car at Spy Run and Riverside avenues. He drove out of Riverside to Spy Run directly in front of the car, and his delivery wagon was struck squarely and he was thrown to the pavement, his skull being fractured.

The accident occurred at 10:30 o'clock Monday morning and the lad died at St. Joseph's hospital shortly after noon. The police were called immediately after the crash and took young Fishman to St. Joseph's hospital, where Dr. E. J. McOscar did all that was possible to save his life.

The street car was driven by Charles K. Higgins, an old employe of the company. Higgins has been employed by the company for eighteen years. At the time the employes walked out he was ill and off duty and did not return to work until about a week ago. He has run on the Spy Run line for many years and the officials state he never before figured in a serious accident.

His Last Day.

"If I may work just today I shall resign Tuesday morning," said young Fishman early Monday morning when his father pleaded with him to leave the delivery company because of the dangers in driving on crowded streets. His father consented to allow him to finish the day.

Ben Fishman was eighteen years old and is survived by the parents, Mr. and Mrs. Max Fishman, 802 East Lewis street, and with whom he made his home; four brothers, Sam, Abraham, Louis and Felix, and one sister, Jeannette. He was born in Russia and came to this country six years ago, moving with his parents directly to Fort Wayne. He went to school for several

CONSTABLE CAUSES DELAY IN WEDDING

Because he was unable to pay his debts John Nanoff, a Bulgarian, was ordered taken to the county jail by Justice of the Peace Henry J. Grabner, Monday. Judgments were secured in Justice Grabner's court against Nanoff by Lebanoff Brothers in the sum of $23.00 and by Mike and John Cosmo for $13. Nanoff left the city some months ago, going to Detroit. Monday he returned to claim his bride to whom he was to be married within the next day or two when a constable spoiled the wedding plans by taking him in charge. Unable to settle the accounts against him the justice ordered him taken to jail, where he will have to remain for forty days unless he is able to settle before that time.

ADAIR ENTERS RACE FOR GOVERNORSHIP

Portland, Ind., Nov. 29.—Congressman John A. M. Adair, of this city, announced here today that he would be a candidate for the democratic nomination for governor of Indiana.

Mr. Adair is serving his fifth term as representative of the Eighth district in the national house of representatives.

Wilson to Cite Attacks on Industrial Concerns

Washington, Nov. 29.—President Wilson's address to congress next week not only will treat upon greater preparedness for national defense but will call to the attention of congress the explosions and fires in American industrial plants. The president intends to recommend that the Sherman law be amended to include severe penalties for such restraints of trade.

Any division in the ranks of American citizens whose sympathies with the warring belligerents may have led to excesses will be emphatically condemned as un-American by the president. In several recent speeches the president has spoken for "America first" and called upon Americans to stand united. That he considered the situation of sufficient importance to bring to the attention of congress, however had not generally been realized. The president is expected to refer to the subject in his address to congress.

Governor Ralston Comes to City Monday Evening

Governor Samuel M. Ralston will arrive in Fort Wayne Monday evening to spend the night and will leave Tuesday morning for Chicago. The governor and Mrs. Ralston will come from Huntington, where the state executive is to be the guest of honor at a banquet to be given by the Huntington Commercial club.

State Treasurer George A. Bittler, who is in the city today, will accompany a number of other Fort Wayne democrats to Huntington to attend the banquet, and will return with him at the conclusion of the addresses. At the governor's suggestion Mr. Bittler will breakfast with him Tuesday morning to discuss a number of official matters, and it is also Mr. Bittler's plan to take the governor and Mrs. Ralston for a brief automobile ride about the city, if the weather is inviting.

QUICKLY FOLLOWS BROTHER IN DEATH

JOHN LULEY.

His brother, Philip Luley, passed away only two months ago.

The deceased was a member of St. Peter's church, of the Catholic Benevolent League of Indiana, and held the office of first sergeant in the Emmet Commandery of the Catholic Benevolent Legion.

Fort Wayne friends who care to attend the funeral services are asked to take the Bluffton interurban which leaves the local station at 8 o'clock and get off at Stop 16. This car will stop at the place Tuesday morning.

ly all committees to provide for the enlarged majority.

There probably, however, will be few changes in chairmanships of important committees. Three democratic vacancies on the ways and means committee are to be filled and the naval committee reorganized in view of the defense program. Five democratic vacancies are to be filled, owing to the retirement of three advocates and two opponents of naval increases.

Before the house ways and means committee republican leader Mann appeared and stated what the republicans want in the way of increased representation on committees. In view of the increased republican membership it is thought the republicans will be allowed one more member on the more important committees. The democrats never are opposed to increasing the number of republicans on any committee which deals with party measures. It was decided to leave selections to Mr. Mann himself or the republican caucus. The republicans will caucus Thursday night and the democrats will pass upon their own selections Saturday night.

EXPOSITION NEARS ITS CLOSE.

San Francisco, Nov. 29.—The Panama-Pacific exposition has entered the last week of its existence and according to the official program it will be one of the busiest in the exposition's history. Continued interest in the big show was emphasized by the report today that the attendance exceeded 165,000 yesterday. It is planned to have closing day, December 4, celebrated throughout the world by a chain of toasts to be exchanged by radio, telegraph and cable.

BOARD ASKS BIDS TO HAUL GARBAGE

Question of Site for New Plant Remains Unsettled.

At its meeting Monday afternoon the board of works ordered advertisements for bids for collecting garbage next year and as the proposals will be based on delivery to the old plant, the prospect of a new one being completed next year seem to be as remote as ever. The bids will be received December 16.

So far there has been no agreement as to the location of the new garbage plant, and the outlook is for a rather stubborn contest on that point.

Mayor Hosey's plan to build the new crematory on the city's North Clinton street property, near the present crematory, will probably encounter stubborn opposition in the city council. The special committee on garbage disposal is said to be unanimous against such a plan and other members of the council will probably join the opposition. North side people and those in the Spy Run district do not want the crematory located where the old one is and councilmen representing these and contiguous sections will be apt to oppose the choice of such a site.

It is felt by other councilmen as well as these that since a new crematory is to be built a central location should be chosen for it. That the proposal to build an additional crematory at the end of Huestis avenue, as proposed by Mayor Hosey and the board of works, was based upon a purpose to eliminate some of the long hauls in garbage collection is pointed out as one of the reasons for demanding a central location.

FEAR EFFECT OF THE WEATHER.

Concrete Work Must Be at Contractor's Own Risk.

Fearing the effect of the frosty weather will be detrimental to the concrete work on the Wayne Trace pavement the board of works has formally notified the Moellering Construction company, contractor for the improvement, that further procedure on the job will be entirely at the company's own risk. The board will in this way save itself the responsibility should the pavement prove to be defective by reason of the action of frost during the work of construction. The board had representatives of the Moellering company in for a conference, Monday afternoon, to discuss further procedure on the dam across Spy Run in Lawton park. It was expected to make some arrangement for providing fires to heat materials so that the cement would set properly.

tenced on his plea and the other charges against him will be dismissed.

Agreement Was Reached.

The trial of Hanna on the charge of forgery, that had been proceeding on a change of venue in the Wells circuit court since last Tuesday, came to an abrupt close when the state dismissed its case and the jury was discharged.

There had been an agreement that if Hanna would plead guilty to the false pretense charge the others would be dismissed and at 11:15 the case in Bluffton was at an end.

Hanna, with his attorneys, Thomas & Townsend, and Prosecuting Attorney Harry H. Hilgemann, returned at once to Fort Wayne and the arrangement was hurriedly made for his appearance in the circuit court, where he was arraigned on the affidavit with the dual charge of grand larceny and false pretense.

After this procedure was over and Judge Eggeman had continued Hanna at liberty on his previous bond, he left court with his attorneys.

The penalty for obtaining money under false pretense is one to seven years in prison.

Grew Out of Big Smash.

The cases against Samuel D. Hanna grew out of the crash of the Hanna-Brackenridge company, a Fort Wayne manufacturing concern of which he was the president and general manager, more than two years ago. The affairs of the concern were tremendously involved and its liabilities were huge. Fort Wayne banks had been victimized by its paper. Hanna was charged with obtaining money at the Hamilton National bank on forged paper and it was on that charge he was being tried at Bluffton. He was also charged with grand larceny, perjury and false pretenses. The German-American bank was alleged to be victimized by these operations.

COLORED BURGLARS DID NOT GET FAR

Men Who Robbed Store in Fort Wayne Arrested at Ossian.

Harry Wood and Leslie Cook, both colored, are in jail charged with burglary, owing to the diligence with which Sheriff A. C. Gladieux struck the trail of the men who robbed the grocery and meat market of Robert Huser, 1909-11 Taylor street, early Monday morning. The robbers took a quantity of meat, a lot of cigarettes, smoking tobacco and other plunder. Their trail was struck south on the Lake Erie railroad and Sheriff Gladieux telephoned Marshal Van Anda, at Ossian, to look for the men. He found them soon afterward and they were brought here. They have confessed.

Paris, Nov. 29.—(4:20 p. m.)—Field Marshal Earl Kitchener, British secretary of war, arrived in Paris from Italy today. He was given an ovation by soldiers and travelers at the station when he stepped from the train.

Generally speaking the night passed quietly on the French front according to an announcement made this afternoon by the French war office. There have been some engagements with hand grenades in the Artois districts. The statement says that "During the day of yesterday four German aeroplanes flew over Verdun and threw down some bombs, but without causing any material damage. As a retalintory measure five French aeroplanes threw down about 20 shells on the railrond station at Briculles, to the south of St. Enay. SEE STEADY DECLINE IN COUNTRY CHURCHES

Facts Gathered for Commission on Church and Country Life.

Columbus, O., Nov. 29.—One out of every nine country churches have been abandoned in recent years. Only one-third are increasing in membership and two-thirds have either ceased growing or are dying. Eighty-three per cent. have less than 100 members; 21 per cent. have less than 25; 27 per cent. have between 25 and 50; and 34 per cent. have between 50 and 100. Only six per cent. have individual preachers, while 26 per cent. share ministers with another church; 23 per cent. have one-third the time of a minister; 27 per cent. have one-fourth time; 14 per cent. have one-fifth time; 5 per cent. have only one-sixth time. A large proportion of preachers receive about the same pay as a day laborer. Less than 40 per cent. of the rural population are church members.

These facts, shown in an extensive rural survey of Ohio, whose results were announced today, are applicable to most states, according to officers of the Commission of Church and Country Life. Plans for scientific surveys in all states, including Indiana, to secure definite data for each locality, will be formulated at the national convention of the Commission on Church and Country Life, to be held in Columbus, Ohio, Dec. 8, 9, and 10, with President Wilson and Gifford Pinchot among the speakers.

The Ohio survey is considered the most thorough ever undertaken but the campaign not only for surveys but also for speedy reforms to make churches community centers as well as houses of religious worship, is to be carried into every part of the country within the next year.

Here are the causes which the country church of the near future must promote in order to save itself according to a much-discussed report by President Kenyon L. Butterfield, of Massachusetts agricultural college, ready for presentation to the commission: Good roads, better farming, encouragement of agricultural college extension courses, community beautification, public health and recreation, temperance, better schools, Saturday half holiday for agricultural laborers, community athletics, observance of religious and patriotic holidays and home coming weeks, community planning and contentment with farm life.

The church must become the social center for the community, with its ministers leading in a variety of interest, and religion thereby will become a stronger appeal, says the Butterfield report. Naturally this program is expected eventually to dim denominational lines.

Concrete means of promoting the community church movement are disclosed in another report which the commission is expected to adopt as working plans. President Wilson, who will make an address at the convention, Dec. 10, is reported particularly interested in these plans.

They are summarized thus: First, rural ministers and church leaders during the next year will receive publications issued by the commission on church and country life devoted to the problems of rural church federations and combinations. This will prepare the way for discussion of church co-operation. Then in each township or natural community, churches will be urged to form a federation, with delegates and ministers from each church forming a supervisory committee to co-ordinate community activities. Ultimately this federation might employ a common minister and pay him a salary adequate to allow him to undertake wider social work. In many cases these churches could merge. Denominational connection with a certain church organization could be maintained, but within the community sectarian differences would be largely ignored.

It is a big program, but officers of the commission believe they can make great headway within the year. The movement will be directed by Gifford Pinchot, chairman, and Rev. Charles O. Gill, secretary of the commission.

STATEMENT BY THE TRACTION COMPANY

As an explanation of the Traction company's position in the present controversy, the following statement has been made:

Since the appointment of the governor's committee, representatives of the Traction company have met with this committee at different times and on November 13th, there was a joint meeting held of representatives of the former employes and of the Traction company. In discussing the general situation, it was suggested that a slight modification be made in the contract in reference to the arbitration board and also the question of re-employing a number of the former employes. This proposition was afterward put in written form in order that it might not be misunderstood, and submitted to the governor's committee, the proposition being as follows:

Committee.

Gentlemen:—Confirming the suggestions heretofore made to your committee, and for the purpose of aiding you in securing an adjustment of the unfortunate conditions now and heretofore existing in this city, the Fort Wayne and Northern Indiana Traction company hereby submits and offers the following:

1. That the existing contract with our present and future trainmen shall be amended by adding an additional section thereto, which shall provide that a committee consisting of the general manager and the heads of two departments of the company shall be appointed by the company to first hear all grievances of any kind of the company's employees as to wages or working conditions and such hearing shall be had within one week before such general manager and the head of a department other than the one in which such employee or employees may be at the time engaged. If such general manager shall be absent from the city or unable to act, the head of another department (other than the one in which the complaining employee or employees are engaged) shall act in his place. Such employee or employees may appear in person and be represented by any other employee or employees of the company in the same class of service.

If any employee is found by such committee to have been suspended or discharged without cause, he shall be reinstated with full pay from the date of such suspension or discharge. Any such grievance not satisfactorily disposed of in the foregoing manner shall be referred to the public service commission of Indiana for arbitration and final decision.

2. This company has at present approximately two hundred trainmen in its employ under written contracts executed by them and the company; but it believes it can, and, if sufficient vacancies occur, will re-employ fifty of its former employees within two weeks after a settlement is made, and others of such employees from time to time as vacancies shall occur, upon their making the usual application for employment and executing such contract as so amended. In the re-employment of such former employes, selections shall be made by the company and preference given to former employees having families dependent upon them.

This offer is to become effective upon the strike and boycott against this company being called off by the Amalgamated Association of Electric and Street Railway Employees of America and the Federation of Labor of Fort Wayne and its affiliated bodies. Respectfully submitted, Fort Wayne and Northern Indiana Traction Company.

(Signed.) By J. M. BARRETT, President.

This proposal was referred to the carmen and at one of their meetings it was rejected and a counter-proposition was made which was sent to the governor's committee under date of November 24th with a letter, copies of this proposition and letter being as follows:

Fort Wayne, Ind., Nov. 24, 1915.

SAMUEL M. FOSTER, Chairman,
WILLIAM P. BREEN,
W. D. CALVIN,
CHARLES A. DUNKELBERG,
REV. ARTHUR J. FOLSOM,
OWEN N. HEATON,
GAYLORD M. LESLIE,
CHARLES M'CULLOCH,
Committee.

Relative to the proposition submitted by the traction company in which heads of various departments of said company are to participate in the settlement of grievances we can see no advantage over that of submission of grievances to the general manager or head of departments with which employee is connected, nor can there be a definite promise to call the strike off without some definite proposition being made to take back and retain all the men at present affected by the controversy unless there is just cause for discharge.

Inasmuch as the Amalgamated Association of Street and Electric Railway Employees of American and the Fort Wayne Federation of Labor have submitted, through you, to the Fort Wayne and Northern Indiana Traction company, a counter proposition of settlement of the present carmen's controversy which calls for an arbitration committee, and believing in your sincerity of purpose, your justice and fairness, we respectfully request that the conciliation committee, or any portion of it, act as this board of arbitration to adjust any differences arising during the period of re-employment of former trainmen effected by this strike; providing that your acting in such capacity is agreeable to the traction company.

Looking forward to a just and speedy settlement of the unfair conditions at present existing, we are very respectfully yours.

COMMITTEE FOR CARMEN.
Fort Wayne Federation of Labor,
SAMUEL M FOSTER, Chairman.
WILLIAM P. BREEN,
W. D. CALVIN,
CHARLES A. DUNKELBERG,
REV. ARTHUR J. FOLSOM,
OWEN N. HEATON,
GAYLORD M. LESLIE,
CHARLES M'CULLOCH,
Committee.

The further propositions of the Fort Wayne and Northern Indiana Traction company submitted to us through your honorable body, has been given due consideration by the men affected and they in return wish to make a counter proposition which will meet with the hearty approval of the Amalgamated Association of Street and Electric Railway Employees of America and the Fort Wayne Federation of Labor:

1. We are willing to submit to the proposition that the strike against the traction company be called off at once, providing that all employees now on strike be placed on the payroll of the company at a minimum wage of $12 per week until such time as they shall be placed, and, also providing that men shall not be required to perform other than duties usually required of them. These men shall also be placed on former runs according to seniority, that is, the oldest man in the service shall be the first man put back on his former run, and so on until all are returned.

2. That none of the men so re-employed shall be discharged or suspended because of activity during this controversy and all men discharged or suspended during the life of this contract shall have the right to submit their grievances, if any there be, to the present conciliation committee, or any party of this committee, and if found to have been wrongfully discharged or suspended such employee shall be reinstated and shall receive full pay for time lost because of such wrongful discharge or suspension. The aggrieved employee may be represented before the conciliation committee by any person whom he wishes to choose. All grievances shall be submitted and decisions rendered within five days of discharge or suspensions.

3. All grievances relative to working conditions shall be taken up by a committee from the men with the general manager of the company.

4. All decisions rendered by the conciliation committee shall be binding upon both parties to this agreement from..... to May 1st, 1917.

COMMITTEE FOR CARMEN.
For Fort Wayne Federation of Labor.

The Traction company in its proposal stated that it now has in its employment approximately 200 men who have signed the following contract with the company:

THIS AGREEMENT, between the Fort Wayne and Northern Indiana Traction Company and its Trainmen, WITNESSETH:

1. That if, at any time the trainmen, or any of them have any grievances of any kind or character as to wages and conditions, they shall be presented to and taken up with the Company, and if not satisfactorily adjusted within ten (10) days thereafter, shall be referred to the Public Service Commission of the State of Indiana, for final decision. All members of the Commission shall sit upon hearing and participate in decision.

2. This agreement shall be signed by the undersigned trainmen of the Fort Wayne and Northern Indiana Traction Company the proper officials of the Fort Wayne and Northern Indiana Traction Company.

3. Said Public Service Commission, if the matter be referred to them, shall take up and hear evidence of all parties interested on any grievances as to wages, hours and conditions of service, and render decision concerning same. Said decision in effect to relate back to the date of such reference to the Commission.

4. This contract is made to avoid suspension of operation due to any labor controversies and it is agreed that strikes, lockouts and interruption of operation of any cars of Fort Wayne and Northern Indiana Traction Company shall not occur.

5. The above mentioned adjustments and arbitrations, if any, shall proceed only in the name of the complaining employee, employees or Committee thereof.

These men are not what is generally termed "strikebreakers," as they are all citizens of the State of Indiana and voluntarily made applications for positions with this company, a number of the men having been promoted from positions they formerly occupied with the company as section men. To accept the proposal made by the carmen would necessitate the dismissal from the service of the company of the men who are now employed and under contract with the company, the contract signed by the present men being identical with the contract signed by the former employes, dated July 23rd, 1915, and for the company to violate this contract would place them in exactly the same position that the former employes of the company now occupy, they having broken the contract made with the company on the above date.

The number of men at present employed is ample to operate full and adequate service on the city lines of Fort Wayne and to furnish identically the same, or more frequent service than was furnished prior to September 27th, when the former employes left the service of the company. The contracts that are in force at the present time, were made in good faith by the company and by the present employes and a great number of the men who were not residents of Fort Wayne have brought their families to the city and located here with the understanding that they would be given permanent employment and this understanding is supported by the contract itself.

It is the company's belief that there is nothing to be accomplished by further negotiations with the carmen in view of the statement made in their letter of November 24th, in which they state "Nor can there be a definite promise to call the strike off, without some definite proposal being made to take back all men at present affected by the controversy," and the company refuses, absolutely and positively to violate the contracts which it has with its present employes and it is the belief of the company that the citizens of Fort Wayne will approve of their position.

THE SENTINEL'S DAILY SCRIPTURE READING.

11 Thessalonians 2:1-14.

1 Now we beseech you, brethren, by the coming of our Lord Jesus Christ, and by our gathering together unto him,

2 That ye be not soon shaken in mind, or be troubled, neither by spirit, nor by word, nor by letter from us, as that the day of Christ is at hand.

3 Let no man deceive you by any means: for that day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition;

4 Who opposeth and exalteth himself above all that is called God, or that is worshipped; so that he as God sitteth in the temple of God, shewing himself that he is God.

5 Remember ye not, that, when I was yet with you, I told you these things?

6 And now ye know what withholdeth that he might be revealed in his time.

7 For the mystery of iniquity doth already work: only he who now letteth will let, until he be taken out of the way.

8 And then shall that Wicked be revealed, whom the Lord shall consume with the spirit of his mouth, and shall destroy with the brightness of his coming:

9 Even him, whose coming is after the working of Satan with all power and signs and lying wonders,

10 And with all deceivableness of unrighteousness in them that perish; because they received not the love of the truth, that they might be saved.

11 And for this cause God shall send them strong delusion, that they should believe a lie:

12 That they all might be damned who believed not the truth, but had pleasure in unrighteousness.

13 But we are bound to give thanks alway to God for you, brethren beloved of the Lord, because God hath from the beginning chosen you to salvation through sanctification of the Spirit and belief of the truth:

14 Whereunto he called you by our gospel, to the obtaining of the glory of our Lord Jesus Christ.

Military Training in High Schools

It is announced that the state board of education is shortly to be asked to include military training in the prescribed high school curriculum of Indiana. The idea appears to have originated with Pettis A. Reid, of Richmond, a member of the state board of education and of the Richmond school board, and it has already drawn the vigorous fire of opponents on the ground that it is but another step in the fostering of the sprit of militarism, against which this country has consistently contended, and against which it most certainly should stand.

But those who are advocating the compulsory training in the schools deny any purpose to foster the military spirit and assert only a desire to improve the physical condition of the boys in school, and to give them the benefit of the sort of systematic exercise that will give them carriage, alertness, habits of neatness and promptness, and that will round out and improve their physical machinery while their minds are also being trained. In all probability the advantage of some such training would never have been called into question but for the developments that have come with the European war, and the rather heated discussion pro and con as to the duty of the United States on the question of military preparedness. Unfortunately there are those seized by panic who would have the country assume unwarranted burdens and go to extreme lengths in a miliitary way, and their course may be the means of defeating much legitimate effort from which good results might come without doing violence to national traditions.

It will be readily agreed that the physical culture already in use in the lower school grades has been of immense benefit, and it has not tended toward militarism. There is ample need for something to take its place in the upper classes. We think the advantages of the training of the military system have been finely demonstrated in the case of Concordia college in Fort Wayne, and that, too, without the development of anything like the spirit of militarism. It would be difficult to find a finer looking lot of robust, upstanding young men than those Concordia college students since the introduction of the system of military training a few years ago. Something approximating it would develop the same excellent physical results among the boys in the high schools of Indiana.

In connection with the celebration of Mr. Carnegie's eightieth birthday anniversary, it was announced by close friends that the iron-master has in the past twenty years given away the sum of $350,000,000, and that in his announced determination to escape the "disgrace" of dying rich Mr. Carnegie has succeeded in reducing his wealth to a measly twenty millions of dollars. Moreover, the prediction is made that when his will is read it will be discovered that practically all of which he may die possessed will be found to have been left to charity. Mr. Carnegie's judgment in the bestowal of his gifts has ofen been criticized by those who believe they could have chosen a more practical form of benificence than public libraries, but two things stand out strongly in his effort. He has succeeded in getting rid of most of his money—which was what he started out to do—and its beneficial results are not transient, but enduring. That, after all, is the measure of pretty large-sized success.

Investigations of garbage disposal system by the city authorities give promise that it is possible to find an incinerator in which little or no fuel is necessary to insure the proper combustion of the city garbage, and this will mark a tremendous reduction in the cost of operation. The system in use in Fort Wayne for many years has been very expensive, the fuel running second alone to the cost of collection, which will always be the big items of expense, whatever system is adopted. If necessity for fuel can be eliminated, or practically so, in the new incineration system, Fort Wayne will have made a substantial advance in the solution of its big garbage problem.

Under the ruling of the secretary of state the name of Colonel Roosevelt must remain on the Nebraska primary ballot as a candidate for the republican presidential nomination next year despite the efforts of the enthusiast who placed it there to withdraw his action. But even disappointment may have its advantages. In the event Colonel Roosevelt changes his mind and concludes to run, his Nebraska lawyer friend is in possession of pretty good documentary evidence and sustain his claim as the original Roosevelt man. And, it may be remarked, political lightning has been known to find a much less obtrusive target than that.

And Allen produces more sugar beets than any other county in Indiana, says County Agent Henry. Come to think of it, Allen is a mighty fine county from whatever angle you view it.

GOLF AND AGRICULTURE.

(South Bend News-Times).

An interesting governmental question is raised by the National Golf association's request that the federal department of agriculture study and report on the kinds of grasses most suitable for golf courses.

This is probably the first intimation the agricultural department has had that its activities have anything in common with golf. The fact is that this game, though a most excellent sport for those who like it and can afford it, is in direct conflict with the most fundamental purposes of agriculture. Instead of making two cabbages grow where one grew before, golf makes green grass grow where cabbages once grew, and doesn't even utilize the grass for any economic purpose.

Every golf course represents so much land taken from the productive area. The economic loss is particularly noticeable in the vicinity of any large city, where the space devoted to chasing elusive pills over hundred-acre lots might profitably be devoted to market gardens and might conceivably lower the cost of living a little in those communities.

Golf is probably justified in spite of these facts, because of its contribution to the health of those who play it. But its claim on the department of agriculture is hard to figure out.

ONE WAY TO GET ACTION.

(Pittsburg Dispatch).

Another sample of the benevolent neutrality which the British authorities are trying to impose on American trade, meanwhile never overlooking the chance to promote British commerce at American expense, is offered in the release of toxin filters for a New York firm which had been held up since last May and the import of which was permitted only after it was pointed out how the British themselves would suffer.

The shipment of filter tubes of German manufacture was held up in Holland last May. They had been bought and paid for before last March. The British authorities tried in the meantime to impress on the importers that filters of English manufacture were superior to the German make and that they should be substituted. The importers fancied they knew best what they needed and stood their ground. An appeal to the state department brought no satisfaction, and then the New York firm sought the aid of several big laboratory concerns in different parts of the country. They went direct to Sir Richard Crawford, the British trade representative in Washington, and told him that unless the filters in question came through, tetanus, typhoid and other antitoxins ordered for the allies would not be delivered. The British representative said he didn't know this country was supplying antitoxins for the allies, but he got busy.

It seems action can be secured without too much deliberation and too many notes if the need is made plain.

NEWS OF FORT WAYNE'S NEIGHBORS

BURGLAR WAS WOUNDED.

Andrews Resident Exchanges Shots With Night Marauder.

Huntington, Ind., Nov. 29.—Awakened by repeated noises in an adjoining room at 1 o'clock in the morning, William Stanton, of Andrews, heard a burglar moving about and, armed with a shotgun, stepped into a third room to prevent his escape. The burglar also heard Stanton, stepped to door of the room, threw the glare of his flashlight on Stanton and fired, the bullet cutting through the clothing of Mr. Stanton's right arm and just grazing the flesh. At almost the same instant Stanton discharged his shotgun, with better success than his assailant, for a blood souked handkerchief and pieces of the flashlight were found. A gold watch and $18 were stolen, Stanton told Deputy Sheriff Ed Haley. The robber was between Stanton and the door and after the exchange of shots slipped out and escaped, leaving a trail of blood for a short distance. Stanton ran to a neighbor's home and told them he had killed a man, but when they returned found that the thief was gone.

VAN WERT AUTO THIEF IN JAIL.

Van Wert, Ohio, Nov. 29.—Bert Montague, well known here as a balloonist and former manager of a five-cent theater, lately a resident of Lima, has been placed under arrest at Alliance and will be brought to Van Wert to answer to a charge of stealing the A. M. Gribler automobile from the Smith garage, on South Washington street. An affidavit filed in the court of Mayor Gilpin holds Montague responsible for the theft of the machine. According to the story related in police circles, Montague burglarized the garage shortly after 5 o'clock, last Tuesday morning, and, in company with a Lima man, drove the car to Fort Wayne, where a bargain for its sale to the owner of a garage was struck, the purchase price being two hundred and fifty dollars. The buyer paid five dollars down to bind the bargain, pending an investigation, but Montague did not reappear.

FRACTURED HIP KILLS MAN OF 80.

Huntington, Ind., Nov. 29.—John Bechtol died Saturday at the home of his daughter, Mrs. Charles Urshel, of Clear Creek township, at the age of eighty years, four months and ten days, as a result of injuries suffered when he fell about six weeks ago, breaking his hip. Mr. Bechtol was born in Germany on July 17, 1835, and removed to this country in 1881, going first to Wabash county, Indiana, whence he moved to Bippus a few years ago, and lately to the home of his daughter in Huntington. He moved with his daughter's family to the place of late residence in Clear Creek township two weeks ago.

Mr. Bechtol is survived by the widow, Mrs. Lena Bechtol, and six children.

KENDALLVILLE MAN DIES WEST.

Kendallville, Ind., Nov. 29.—Members of the Gappinger family received a telegram announcing the sad news of the death of Albert Gappinger, a former resident here. He died at his home in Los Angeles, Cal. Death came after an illness of several months, resulting from Bright's disease. Albert Gappinger was born in Albion, Ind., and at the time of his death was fifty-five years old. For many years he made Kendallville his home, leaving here some twenty-five years ago and locating in the west, where he had since resided. He was identified with several fraternal societies. His last visit here was two years ago.

YOUNG AUTO DRIVER KILLED.

Streh, Ind., Nov. 29.—Milo Rasler aged 14, was killed about 7 o'clock Saturday night when an automobile he was driving plunged down an embankment and turning over pinioned the youth beneath the wrecked car. Young Rasler, who lives three miles northwest of Streh, had been on an errand to the home of a neighbor and was returning when the accident occurred. He was found dead beneath his car by Andrew Forest, who resides near the Pizgah picnic grounds, went he went to the scene to investigate the continued running of an automobile engine. The lad was alone in the machine when the accident occurred.

Bluffton, Ind., Nov. 29.—A marriage took place this afternoon at the county court house, with Justice J. K. Rinehart officiating, announcement of which will come as a great surprise to their many friends, and congratulations and well wishes await them particularly in Liberty Center and vicinity, where both have resided for years and are well known. The bride was Miss Erilla J. Collier, 50, and the groom was John Dean, 62, formerly trustee of Liberty township, now located at Fiat, Jay county, where he is in the mercantile and elevator business. The newly-married couple will reside at Fiat. Both have been married before.

QUITS ANDREWS SCHOOL BOARD.

Andrews, Ind., Nov. 29.—F. W. Kelsey has resigned from the board of school trustees of the town of Andrews and in so doing has suggested that the only way in which the town may have good schools and not raise the tax levy or reduce the efficiency of the teaching is to join with the township. It is Mr. Kelsey's intention to leave Andrews, where he has lived for twenty-one years. He suffers from asthma. He has disposed of most of his interests, and may spend the winter in Florida, but he has not decided this definitely.

REUNION OF DEKALB TEACHERS.

Auburn, Ind., Nov. 29.—Teachers prominent in their calling in "other days" will have part in the reunion to be held in Auburn next Wednesday afternoon in the Eckhart public library. One Smashing Blow

Some folks go on for years wondering why they have headches, nervousness, heart flutter, biliousness and various other ailments. But they never suspect a most common cause—coffee drinking.

Coffee contains caffeine, a powerful habit-forming drug. The little doses repeated daily irritate the nerves, unsteady the heart, hinder digestion and work havoc generally with many coffee users.

The simple, easy way to smash coffee troubles at one blow is to quit the coffee and use

POSTUM

—the pure food-drink.

There's "nothing missed" with the change; and thousands have found it means a big step toward health and comfort.

Postum is made of wheat and a bit of wholesome molasses—has a rich flavour, much like mild Java coffee, yet contains no drug or other harmful element.

Postum comes in two forms: The original **Postum Cereal** requires boiling; **Instant Postum** is soluble—a level teaspoonful in a cup of boiling water makes a delicious drink—instantly. Both kinds are equally delicious, and the cost per cup is about the same.

CAN WIN WITH YELLOW DOG, THEIR BELIEF

Penrose Indicates Position of Standpat Taft Republicans.

By Gilson Gardner.

Washington, Nov. 29.—That the republicans can name a yellow dog and win is the profound conviction of the party leaders who nominated Taft three years ago. Senator Penrose, who was one of these leaders, voiced his opinion in an interview published recently in a Dallas, Texas, newspaper. Penrose was in Dallas with the Liberty Bell (not intended as a joke).

"Any republican who is nominated for president," said the Pennsylvania senator, "will defeat Woodrow Wilson—certainly any republican who has been mentioned for the nomination thus far."

The senator disposed of the progressive party with a wave of his hand. "That is all gone. They have blown up; they don't count," he said.

The interesting thing about the Penrose statement is the fact that Penrose believes it, and will act accordingly. There is not a particle of doubt that Penrose, Barnes, Murray Crane, Root, Jim Watson, Tawney, Hilles, and other members of the republican national committee are planning to disregard the progressive element and name some man like Weeks of Massachusetts, or Burton of Ohio, as the republican candidate. The elimination of Root has resulted already in the solidifying of Root's strength for Weeks. Root and Lodge are now out for Weeks. Hughes is eliminated and the game becomes more simple.

The republicans evidently do not intend to accept Roosevelt's challenge to name a progressive like Cummins, or Borah, which means that the progressives will name Hiram Johnson, or some man equally good, will maintain their party solidarity and conduct a vigorous campaign, resulting certainly in the defeat of the standpat republican nominated, and the probable success of Woodrow Wilson.

"The Navy League can show its patriotism," says Representative Clyde Tavenner of Illinois, "and purge itself of any suspicion in connection with the charge that it is backed by gentlemen interested in the profits arising from the manufacture of munitions of war, by a very simple process. Let their board of directors pass a resolution in favor of government manufacture of all munitions of war and nobody will be asking for an investigation or intimating that their motives are unpatriotic."

In a statement issued by Arthur H. Dadmun, secretary of the Navy League, the letter says: "Among these unselfish American patriots (backing the league) is J. P. Morgan, who became a life member on the payment of $25 more than eight years ago. The only other contribution or support ever asked for received from Mr. Morgan was received four years ago, when he contributed $100 to meet the traveling expenses of speakers attending a western convention."

Mr. Tavenner has dug up a published statement which is admitted by Mr. Dadmun to be correct, showing that the elder Morgan pledged $5,000 to the league of which he paid $3,000, and that another contributor was Elbridge H. Gary, of the steel corporation, who gave $1,000 to the league. These were part of a fund of $17,000 which was pledged by prominent men to keep the work going. Mr. Tavenner insists that he is going to push his resolution for an investigation, not of the books of the navy league, but of the persons who were responsible for the organization of the navy league and its early activities and their connection with firms which manufacture munitions of war.

Another evidence of prosperity is issued by the postoffice department. A sure barometer of the workingman's savings, says the department, are the deposits in the postal savings banks. During the last month these have been larger than ever before. The total deposits in the postal banks for the United States showed an increase of $2,150,000 in October. This is one of the largest gains in the history of the service. Scores of small cities and towns accepted more savings in October than in the previous year, and postmasters in reporting postal savings business for the month frequently referred to large orders and overtime hours in the local manufacturing plants.

The total postal savings deposits on October 31, aggregated $71,500,000. Individual depositors numbered $552,000.

DEMOCRATS ASKING FOR MORE RALLIES

Party Leaders Report Wide Interest All Over Indiana.

By Willis S. Thompson.

Indianapolis, Nov. 29.—The democratic state central committee has received requests from local committeemen and enthusiastic party workers throughout the state, urging that dates be fixed and speakers be supplied for many more party rallies. Most of these have requested the presence of Senator Kern, Governor Ralston, Congressman Adair and Auditor of State Crittenberger as the speakers.

While Senator Kern and Governor Ralston have attended a good number of these meetings, while Adair has missed none and while Crittenberger has spoken at all save one and that one absence being forced by sickness; even with all this show of willingness to serve, there are circumstances that limit the ability of speakers to respond. It will not be possible for Senator Kern and Congressman Adair to do any more speaking until the senate and congress adjourns for the holidays.

Anticipating their return and having their promises to speak where called upon these dates have been fixed for holiday week: Monday, December 27, Brookville; Tuesday, December 28, Richmond; Wednesday, December 29, Fort Wayne; Thursday, December 30, Lafayette; Friday, December 31, Muncie.

Besides the four speakers named there will be others at the different meetings, including Treasurer of State George A. Bittler; Reporter of Supreme Court Phil Zoercher, Clerk of Supreme Court J. Fred France, Deputy State Auditor James H. Fry and others. An effort will be made to have National Committeeman Thomas Taggart speak at some one or more of the holiday meetings, but it is not possible to secure his promise so far in advance.

POLICE BAG 15-POUND SKUNK.

Dispose of "Wild Animal" Mrs. Lipshitz Heard in Woodshed.

Yonkers, Nov. 29.—"A big wild animal is roaring and rushing in my woodshed," Mrs. Rose Lipshitz, of Bellevue and Roberts avenue, telephoned to police headquarters one day recently. Lieutenant Quirk and Patrolman Wicht were sent to investigate. In the dark woodshed they saw two shining eyes, and five shots were fired.

On investigation the animal was found to be a skunk that weighed about fifteen pounds.

Redmerski—Seiler.

A beautiful Thanksgiving wedding that took place in St. Andrew's church was that of Miss Martha M. Seiler and Mr. Paul B. Redmerski. Rev. Father Hottenroth, of Goshen, celebrated the nuptial mass with Rev. Edmunds as deacon and Rev. George Horstman as subdeacon. The bride was beautifully gowned in white charmeuse made with court train. The bridal veil made with cap effect was held to the hair with a wreath of swansonia blossoms. Miss Marie Deck, as ring bearer, wore a white satin dress and carried the ring in the calyx of a calla lily. Miss Julie Deck, a bridesmaid, wore a yellow taffeta gown and carried a large bouquet of yellow chrysanthemums tied with yellow tulle. Miss Redmerski, sister to the groom, also a bridesmaid, was dressed in a Nile green [illegible] wore a shower bouquet of bride roses tied with white chiffon. Both bridesmaids wore Gowns of color to correspond with their bouquets. Mr. Joseph Seiler, a brother of the bride, acted as best man and Mr. Gerald Leeper, an intimate friend of the groom, acted as groomsman. Mr. Edmund Justus Hunt, of Chicago, a cousin of the bride, and Mr. Theodore Frank Aloysius Deck were the ushers. The bride and groom left on a two weeks' trip to Pittsburg, Harrisburg, Washington, Baltimore and New York points. For traveling the bride wore a purple suit of broadcloth trimmed with marten fur and hat of same coloring with bird of paradise trimming. Guests from away present at the wedding were Mrs. Charles Hintz, of Chicago; Mr. and Mrs. Sanders and son, Charles, of Morris, Ill., and Miss Miller, of Goshen. Mr. Redmerski is employed at the Pennsylvania shops as a machinist. Both bride and groom are well known in this city and have many friends. The bride is a daughter of the late John Seiler. Nuttle—Rothgeb.

One of the many pretty weddings of Thanksgiving day was the one in which Miss Mary E. Rothgeb, daughter of Mr. Jesse Rothgeb, of Gar Creek, became the bride of Mr. Elwood Nuttle, son of Mr. and Mrs. Daniel Nuttle, of Flint, Mich. The bridal party motored from Gar Creek to New Haven, where the wedding ceremony was performed by Rev. Mr. Leach, pastor of the Methodist Protestant church. The bride was handsomely gowned in white crepe de chine trimmed with white fur. A shower bouquet of bride roses was a beautiful part of her costume. Miss Edith Nuttle was bridesmaid and she presented a sweet appearance in a white voile dress trimmed with pink satin rosebuds. The bridesmaid carried an armful of pink carnations. Mr. Ralph Rothgeb, a brother of the bride, was a groomsman and Mr. Clarence Nuttle, the groom's brother, was the best man. After the wedding service the bridal party drove back to the home of the bride's father and partook of an elaborate dinner suited to the two events of the day, the wedding and Thanksgiving. The immediate relatives were present. White and pink predominated in the pretty decorations of the rooms and a handsomely ornamented wedding cake was conspicuous on the bride's table. White chrysanthemums and smilax were other decorations of the bridal table. Mr. and Mrs. Nuttle are to live with Mr. Rothgeb, at Gar Creek, for the present. The groom is a blacksmith.

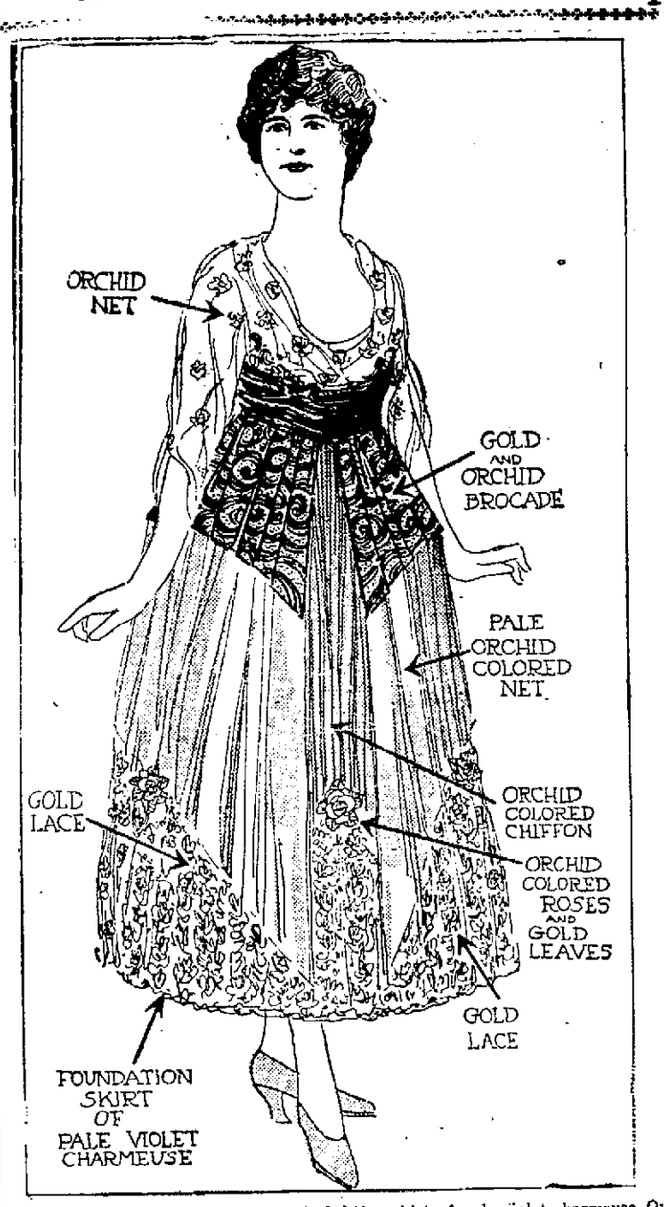
JEALOUSY GUARDED SECRET OUT.



Minneapolis, Minn., Nov. 26.—The jealously guarded secret of Mrs. Galt's trousseau is out. The chief morsel in the outfit has been described by no less a person than the modiste who is making it—Mrs. Margaret Wade Grinager, wife of Alexander Grinager, New York artist.

Mrs. Grinager formerly lived in Minneapolis, and wrote a description of the gown to a friend here. This is what she wrote:

"It is an evening gown with a foundation skirt of pale violet charmeuse. Over this is a skirt of orchid colored chiffon with a wide ruffle of rich gold lace, which is caught at the top at intervals by orchid colored roses and gold leaves. Over this is a very full skirt of paler orchid colored net, opening in front and back, revealing the richer skirt beneath. The bodice and top of the overskirt are of a rich gold and orchid brocade, the band on the overskirt being of the most cowboy chiffon. The corsage is of orchid net, with roses as garniture."

EPISCOPAL BAZAR TUESDAY.

The ladies of Trinity Episcopal church will hold a bazar on Tuesday afternoon and evening with cafeteria supper at 5:30 o'clock and will continue the bazar on Wednesday forenoon and afternoon. A splendid list of good things is promised for the supper.

AT THE MAJESTIC.

Ruth St. Denis' Dances Nearest to Visual Music.

It is in the true artistic beauty of the dances presented by the world famous danse artiste, Ruth St. Denis, wherein lies the slow transitions of line from exquisite rhythm to rhythm. In such dances the primitive art of arts was first revealed and held sacred, and from which painting, sculpture, music and poetry and later the drama slowly differentiated. The art of dancing is like them all, but chiefly like a union between music and colored sculpture. If we could pass from the changeless and perhaps tireless pose of a perfect statue to a series of others even stranger and stronger, and by endless shades of transition that are themselves the very poetry of scripture, we should score the nearest to seeing visual music.

Miss St. Denis, assisted by Ted Shawn and a notable company, comes to the Majestic theater Thursday night.

"It Pays to Advertise" at Majestic Friday and Saturday.

When one of Cohan and Harris' successes is announced, the patrons of the theater realize they can expect something worth while. This fact is perhaps the reason for the enthusiasm hereabouts towards the coming of "It Pays to Advertise," Cohan and Harris' latest farce hit, which ran for one entire year at the Geo. M. Cohaan theater in New York. This farce is today country-wide famous for the laughter contained within, and with the local presentation at the Majestic theater on Saturday matinee and night, December 4, the management expects the bona-fide capacity for this city.

Needless is it for the press agent to say much about any of Cohan and Harris' Broadway successes. They are all known to the average theater-goer, who delights in attending them, especially with the guarantee that Cohan and Harris will send their own company of skilled players.

Roi Cooper Megrue and Walter Hackett penned "It Pays to Advertise," which tells a breezy, good-natured story of the commercial success of a young man. The play is the funniest combination of circumstances ever staged, but is a practical lesson to those who do not believe it teaches a great truth.

AT THE TEMPLE.

"45 MINUTES FROM BROADWAY."

Temple Players Are Making Big Hit in Cohan Production.

With a host of surprising and delightful little specialty numbers interpolated, with a beauty chorus consisting of well known Fort Wayne girls and youths assisting the Temple Players this week are giving a rousingly hilarious production of George Cohan's favorite "Forty-five Minutes from Broadway." Ashton Newton has drilled the chorus to a degree of perfection almost unbelievable when the brief rehearsal periods are considered. Included in this chorus are the Misses Anna Drew, Oliver Babcock, Mary Shaw, Gladys Pranger Naomi Shivers, Marie Dieleman, Mabel Bowen, Gretchen Niedhanna, Ada Roebuck, Nellie Stevenson; Mildred Christman and Nellie Jennings and the Messrs. Esco Horn, Gerald Bartnett, William Beyer and Raymond Dodson. Miss Helen Farnan and little Geraldine Jennings do a specialty singing, "Mary is a Grand Old Name," Miss Farnan from an upper box and dainty little Geraldine singing from the stage. Maurice Jenkins is the riot of the show, especially when he sings "Forty-five Minutes from Broadway," while Miss Ethel Hamerick's depiction of the role of Mary is quite up to the standard this versatile girl has set by her efforts in other Temple Player productions.

On Tuesday afternoon the entire company and the chorus will entertain at a tango tea on the stage immediately following the matinee performance.

AT KEITH PALACE

A BILL OF FEATURES.

Will Cressy, Blanche Dayne, the Farber Girls and Others at Palace.

The bill of bills is being tapped this afternoon at the New Palace. Included in it are the royalty of vaudeville, including Will M. Cressy and Blanche Dayne, in Cressy's latest and best seller, One Night Only; the Farber Girls; Bert Fitzgibbons and a host of other Keith royal purples. Mr. Cressy and Miss Dayne's 1915 sketch rejuvenates the two characters. Miss Genevieve Montmorency, the star of the Elite Repertoire company, and Hip Flitters, proprietor of the town hall, characters that Mr. Cressy and Miss Dayne made famous three years ago. Since then the fair Genevieve has acquired an automobile and Hip has prospered a bit too.

The lovely young Farber sisters, the Misses Irene and Constance, are making their second appearance at the Palace. A year ago these girls worked one day when Miss Constance was taken seriously ill and they were forced to cancel. In that one day they so ingratiated themselves into the hearts of Fort Wayne that those fortunate enough to have enjoyed them are keen to welcome them back.

Bert Fitzgibbons, the man with the mobile face and with each pocket filled with laughs, is on this bill, as are Howard, the famous ventriloquist; Bertisch, the modern Hercules; Ward, and Faye, the English chappies, and Collier and Dewald, novelty skaters.

AT THE EMPRESS

Every mother, daughter, wife, husband and son in the city of Fort Wayne should see "Fine Feathers" at the Empress theater this week. It is easily the greatest production ever made by a local stock company and is a real dollar show at popular prices. Scenically and in the artists who play the show, it is on a par with the very best of the New York shows ever seen in this city. It tells a tale of modern life and is right up to the minute throughout. Eugene Walter is the author. When the show was seen here two years ago two dollar prices were charged for the production.

AT THE JEFFERSON.

CHIMMIE FADDEN OUT WEST.

With Victor Moore, a Hit at the Jefferson.

A better selection could not have been made for the part of Chimmie Fadden than Victor Moore, his portrayal of the Bowery boy, with all his toughness and all his odd puzzling ways, has a heart of gold and a very fine sense of honesty. In many respects his performance in Chimmie Fadden is better than his stage productions. This bill, with Get Rich Quick Wallingford, will be shown for the last times today.

The anticipated event will take place tomorrow. The Triangle premier for Fort Wayne. A triple bill, three stars, three features and a bargain matinee for Tuesday only. The two greatest picture programs in the world are the Paramount and the Triangle and the Jefferson holds both under contract and this gives you the assurance of seeing Metropolitan pictures of the $2 class at the Jefferson. The first showing is Marguerite Clark, in a Paramount picture, "The Prince and the Pauper." Dustin Farnum, in "The Iron Strain," Thomas H. Ince, Triangle. A Max Sennett Triangle-Keystone, featuring Charles Murray in "A Game Old Knight."

IS SERIOUS PROBLEM TO ENGLISH QUAKERS

Prospect of Conscription Brings Danger of Split in the Church.

London, Nov. 29.—For the English Quakers the possibility of conscription in Great Britain offers a very serious problem. It has even been suggested that there is danger of a split in the ranks of the church. A committee from the central organization is now engaged in sounding every male communicant of military age as to his intentions toward the society in the event of conscription.

A circular which has been sent to these possible subjects of conscription by the committee says:

"Whatever the future may have in store for us we are at least faced with the possibility of military or industrial compulsion. Should this actually come about, we assume that Friends will stand fast to their belief in the sanctity of human personality, and to the principles of Jesus Christ as they understand them, be the consequences what they may. We uphold liberty of conscience, a right won by much suffering in the past, and not lightly to be relinquished.

"Should Friends in any proposed legislation receive favored treatment, which is not extended to other conscientious objectors (as has been the case in the militia acts), we feel we should be in a difficult position. We should wish to support those outside our membership as far as possible, and some Friends feel it might be right for them to resign their membership to this end.

"This is a practical method which permits earnest consideration; but it should not be forgotten that it might prevent us serving the society in other directions, and its desirability must be carefully weighed against the force of the argument that if Quakers are given, and accept, exemption, there is every reason why the convictions of other conscientious objectors should be similarly recognized."

Each recipient of the circular is asked a series of questions as to his intentions "in order that those who wish to stand out in the event of conscript may be able to keep in close touch with the committee for rapid communication of advice and assistance."

STILL YOUNG AT SEVENTY.

Indiana Man Rolls Logs to Celebrate 50 Years of Marriage.

Evansville, Ind., Nov. 29.—In celebration of his golden wedding anniversary, Benjamin Eckert, age seventy, living in the Stringtown road near here, opened an old-fashioned log rolling contest by rolling the first and biggest log into place with his own hands. Mr. Eckert is vigorous despite his years and this fall plowed ten acres of wheat land in preparation for the planting.

Celebrating the anniversary with him were his wife, four children and twelve grandchildren. After the father had rolled the first log into place the sons entered into competition and put up a smokehouse in three hours. Mr. Eckert was born in Pennsylvania and came here twenty years ago when one of his sons bought a farm near the city. He was a soldier in the Union army during the civil war.

WANT SHARPE TO PUT YALE BACK ON GRID MAP.

AL SHARPE.

The man who coached Cornell to the gridiron championship of the east this season is the man wanted by Yale alumni to put Yale back on the map.

Dr. Al Sharpe has told Yale men that he is under contract to coach baseball, basketball and football at Cornell until 1920, but it is said Yale men will ask the Cornell Athletic association to release him.

Sharpe is a Yale man. He has had fine success at Cornell and this season his team was not beaten.

CAMP SOON TO GIVE HIS FOOTBALL VERDICT

What Will He Say About the Western Champs, is Question.

With only the All-American selection to wait for before football is put on the shelf, the question arises of how far west and south Walter Camp will go when he makes his pick.

The west and south have broken into the national limelight more this season than ever before, and it remains to be seen if these sections have edged in strong enough to gain recognition on an All-American team that heretofore has been confined mostly to the east, with an occasional mention for the middle west.

Oklahoma produced the longest forward pass of the year—55 yards, by "Spot" Geyer, of Oklahoma university, and Dakota Wesley gave the longest drop kick in history, a 63-yard boot by Mark Payne.

Besides, the Oregon Aggies invaded Michigan and walloped the Michigan Aggies and Wisconsin is after Gilmour Doble, of Washington university, at Seattle, whose Washington teams have not been beaten in eight years.

There are two great football players out in the northwest—Hap Miller, of the undefeated Washington university eleven, and Herman Abraham, of the Oregon aggies. When Abraham's team played the Michigan aggies he gave one of the greatest exhibitions of football ever seen in the middle west.

Notre Dame, in the middle west, has a great halfback in Stanley Cofall.

Many All-American selections are made every year, but Camp's pick is recognized as official. Camp is bound to name Mahan, of Harvard, for fullback, and Barrett, of Cornell, for quarterback. Now, is he going to stick in the east for the remainder of the outfit or is he going to recognize the stars of the south, southwest, west and northwest?

COACH GETS $10,000 FOR THREE MONTHS OF COACHING.

PERCY HAUGHTON

Ten thousand dollars for three months' work is the salary, it is said, Percy Haughon will get when he signs a new contract to coach Harvard football teams. Haughton shows up at Harvard each fall about Sept. 1 and is through before November ends.

But Haughton's value to Harvard is shown in figures. The eight Harvard teams Haughton has coached scored 116 points against Yale and held Yale to 12 points, three field goals and two safeties. Prior to Haughton's reign Harvard won only three games in Yale's 16.

Miss Marie Ahlesmeyer fell down the basement steps at the Hines residence on South Webster street, where she is employed, and was painfully injured Saturday. She was removed to her home on rural route No. 12.

Lodge elections are now taking place and presentation Chairs or Rockers are being purchased for retiring officers. At Foster's they have just placed on sale a very full line of these goods.

Willard to Meet Only Man Who Can Reach Him.

Fred. Fulton

FRED FULTON, WHOSE LONG ARMS AND LEGS MAKE HIM A PHYSICAL MATCH FOR THE GIANT JESS WILLARD.

(By Brown Holmes).

News from headquarters is to the effect that everything is set for Fred Fulton, of Rochester, Minn., to meet Jess Willard for the heavyweight championship at New Orleans in March.

When Willard steps into the ring with Fulton he will meet the only fighter in the business big enough to reach him. Moran, Coffey, Gunboat Smith and all the others are so much shorter than Willard in reach he has only to hold out his fist and their wallops miss their mark.

Also, Willard is so long of legs and tall of body that the others would have trouble getting to him with a solid wallop. Jack Johnson was the lankiest of the heavies until Willard came along.

Johnson had a wonderful uppercut, as Tommy Burns, Jim Flynn, Frank Moran and Jim Jeffries will testify, but Willard was so tall the blow wouldn't reach when Jack attempted to defend his title against Jess.

Fulton's reach measures 84½ inches, or seven feet and one-half inch. It's the longest reach in fistiana. Willard's reach is 83¾ inches. Willard is only two inches taller than Fulton. The newcomer is just as long in the legs, so in the matter of size he is a match for the champion.

It is claimed Fulton has never been hit hard. No wonder. He holds 'em off with the long left wing.

The title affair will be a fight between the Giants of the ring, with Willard favorite. Jess has shown class. Fulton has knocked out six men in his short career, but they were Jack Moran, Terry Keller, Art Pelkey, Jack Lewis, Tim Logan and Andre Anderson.

NEW BOWLING LEAGUE

The Olympic Bowling association has been formed at St. Peter's new hall, and the following officers have been elected: President, George Stang; treasurer, Julian Franke; secretary, A. H. Zurbach. Bowling will be started Tuesday evening.

ACHALLENGE.

The Standards challenge any team in the city at 110 pounds to a game to be played Wednesday evening at the Hanna school. Call 6563.

Scotland is taking to the use of mechanical potato planters.

CUB FLINGER FAILS TO "HIT 'EM WHERE THEY AIN'T."

Karl Adams, the tall, thin hurler of the Chicago Cubs, was the booby prize hitter of the National league this year, according to official averages.

Adams was in 26 games and at bat 30 times, but the pitchers never happened to pitch one where he was swinging his bat. Three doughnut holes represent his average.

The next lowest average was .071 by Lefty Niehaus, of St. Louis. He managed to sneak in a hit in fourteen times at bat.

Scotland now has 124 agricultural cooperative trading societies.

A DREARY OUTLOOK FOR ORGANIZED BALL

Lefty Gilbert and His Gang of Outlaws May Be Forced to Desert.

(Terre Haute Tribune).

The Terre Haute Central league club must post a $2,000 forfeit with the league in December or lose its franchise, and unless "Lefty" Gilbert's stock campaign, which he will inaugurate this week, is successful, there will be no club in Terre Haute next season. The present stockholders are confronting a big debt and unless sufficient stock is sold will not post the forfeit, which means there will be no league baseball in Terre Haute.

The present officials will retain their connections with the club if the sale is successful, but otherwise will turn the franchise back to the league.

The plan is to interest as many business men as possible, so as to stimulate additional interest in the national pastime in Terre Haute.

GOIN' STEPPIN'?
Given by the Gym Knits Tuesday Eve. at Wayne Knit club house.

FREDDIE WELSH IS THE ARTFUL DODGER

The idea of Freddie Welsh asking for a vote by sporting editors to decide the logical contenders for the lightweight championship is ridiculous, even though a press agent affair. If Welsh really wants to know the logical contenders for his crown all he has to do is watch the papers.

Charley White and Ted Lewis have been knocking lightweights cold for several months. They have performed so well they stand out head and shoulders above all the others, so Welsh ought not to have any trouble deciding who he should meet if he really wants to meet a boxer who has a chance.

Right on the heels of Welsh's plea for a vote comes news that White knocked out Milburn Saylor in one round and Lewis knocked down Jimmy Duffy nine times in the first round. Neither Saylor nor Duffy are dubs. White and Lewis in beating them in such short time, have done more than Welsh ever accomplished. Welsh has not scored a knockout since Hector was a wall-eyed pup.

In addition to Duffy, Lewis has beaten Jack Britton twice and gave Joe Mandot a walloping. White has taken care of all those Lewis overlooked.

Mandot may be matched with Welsh in the near future and while Mandot or Johnny Dundee can look good with Welsh, they do not stand out like White and Lewis.

If Welsh is really looking for a contender, which may be doubted, he need not spend his time considering Joe Rivers, Joe Azevedo or men like O'Leary, practically unknown, who was his last opponent.

HORSE PLUNGES INTO AUTO.

Louis Steiman, 14, Hurt in Accident on the Lincoln Highway.

As the result of a runaway horse owned by Joe Barty plunging into the automobile belonging to Amos Arter, 2028 Fairfield avenue, Louis Steiman, 14 years old, who occupied the rear seat in the machine, was painfully injured about the head and shoulders and sustained several deep cuts Saturday.

In his report of the accident to the police Arter declares that he heard the clatter of the approaching hoofs and pulled his machine to the side of the road. Instead of the horse passing as he expected, it jumped directly into the car, smashing the fenders, lights, windshield and the steering gear. Barty was thrown out of the buggy, but was not hurt. His rig, however, was badly wrecked. The accident occurred on the Lincoln highway, one and a half miles west of New Haven.

Action of Canada in Commandeering Wheat in Elevators Discused.

AMERICAN MARKET LITTLE DISTURBED

Experts Say Vast Store is Still Available in Western Canada.

Chicago, Nov. 29.—Action of the Canadian government on Saturday night in commandeering nearly 20,000,000 bushels of Nos. 1, 2 and 3 northern wheat in elevators from Fort William, on Lake Superior, to the Atlantic seaboard, is expected to result in only slight fluctuations in the American market, according to opinions early today of leading grain dealers in Chicago.

The action was taken under the special war act and an official statement issued at Ottawa states that the price will be fairly adjusted and the grain owners promptly paid by the Canadian government. It is estimated that there is still in the hands of farmers and dealers in western Canada about 130,000,000 bushels of wheat available for export out of a total of about 350,000,000 bushels in the entire dominion. It is understood that a large portion of the wheat commandeered will be shipped to Italy.

George E. Marcy, president of the Armour Grain company, and Joseph Rosenbaum, head of the J. Rosenbaum company, two of the largest exporters here, are among those who do not look for quick change in prices. Mr. Marcy predicted that the Canadian government's action would release greater quantities of wheat for immediate delivery.

C. H. Canby, president of the board of trade, would make no prediction further than to say that the demand for wheat in the United States would be affected in proportion to the extent of the Canadian seizures and according to the disposition the government proposes to make of the grain and the price it will pay.

Experts said the price of grain had been kept down, so far this year, for two reasons, the first they said is the enormous supply both inthe United States and Canada and, second, the absence of competitive bidding. Most of the supplies for Great Britain and its allies have been purchased through one agent, they asserted. Franklin M. Crosby, of Minneapolis, a prominent miller, was quoted as saying that the action "does not concern the American milling interests to any extent, as there is no Canadian grain coming in on purchase and very little in bond for reshipment."

MUST SEEK OTHER SUPPLY.

Commandeered Grain Under Contract to New York Shippers.

New York, Nov. 29.—Much of the wheat commandeered by the Canadian government was under contract to New York shippers according to grain dealers here. Many of them have sold grain for December shipment and must obtain it from other sources to meet their contracts. They hope to obtain a share of the Canadian surplus not commandeered. This situation is expected to increase demand for wheat in the United States as millers in this country who ordinarily have obtained much of their supply from Canada will be compelled to turn to a greater extent to the home market. Shipping agents here say that the seizure of the wheat by Canada does not mean that its shipment to Europe will be diverted from United States ports as they do not believe that Halifax and St. John can handle the Canadian crop. Portland, Maine, is considered a great outlet for Canadian wheat and shippers believe that a large proportion of the commandeered grain will be exported either through that or other United States ports.

NEGRO MUST HANG FOR MURDER OF MRS. ALLEN

Joliet, Ill., Nov. 29.—Joseph Campbell, a negro convict, was today found guilty of murdering Mrs. Maizie Odette Allen, wife of former Warden Allen, in the warden's apartments of the state penitentiary here. The verdict fixed the punishment at hanging and was returned after forty-four hours' deliberation by the jury.

Mrs. Allen, formerly a star in musical comedy, was found murdered in her bed at the state prison on the morning of June 20 last. Her skull was fractured and her body burned. Fire, by which the murderer is believed to have hoped to have hidden the evidence of his crime, was discovered before the body was consumed. Campbell, a negro trusty, was arrested shortly afterward. He was serving an indeterminate sentence for murder.

Warden Allen was absent at French Lick Springs at the time of the murder. The crime led to his resignation as warden. The law did not permit a warden to live outside the prison, and he said life within his old apartments would be unbearable for him.

ENGLAND IS PINNING HER FAITH TO WINTER

Hopes for Reinforcement of Allies Before Victorious Invaders Can Consolidate Stands.

London, Nov. 29.—(12:05 p. m.)—The British public is not inclined to grant the German contention that the Serbian campaign of the central powers has been brought to a successful conclusion. The hope is expressed here that the wintry weather will give time for reinforcing the Anglo-French troops until they are strong enough to assume the offensive before the invaders have consolidated their positions in Serbia. Russia is also counted on to play a part in these operations.

In the meantime the only active military operations seem to be centering around Monastir, the fate of which is obscure. The many contradictory reports on this subject vary from the assertion that the city is still in the hands of the Serbians to the claim that the Bulgarians, accompanied by detachments of Austrians and Germans, have occupied the city. Further to the north it is reported the Serbian armies, divided into two sections, are retreating into Albania and Montenegro. It is not yet apparent whether Austro-German forces are to be sent against the Anglo-French lines north of Saloniki, but at the other extreme of the Balkan front the Montenegrins are expecting a heavy attack from the Austrians.

The entente ministers at Athens are said to have received the reply of Greece to their second note. Greece is reported to have promised to meet all demands which do not threaten to compromise her neutrality.

An unmistakable lull prevails along the eastern front. From the west come official reports of a lively air and sea skirmish off the Belgian coast.

BIEDERWOLF NAMED AS AN INVESTIGATOR

Charles L. Biederwolf, secretary of the Commercial club, has been appointed by the educational research committee of the Associated Advertising Clubs of the World to secure all data and such other information necessary to show the amount of business that is being done in Fort Wayne. On December 3, as soon as the business men have closed their books for the month of November, investigators in all the leading cities of the United States and Canada will call upon representative merchants in the leading retail lines and ask a short list of questions which the committee finds to be a barometer of business. The investigation will consume four days. The work in Fort Wayne will be done by Mr. Biederwolf. The Associated Advertising Clubs of the World is making a thorough investigation of exact conditions of business and prospects for the year 1916 and it is no small honor that has been bestowed upon Fort Wayne in being selected as one of the leading marketing centers to be represented in this undertaking.

PUTTING MESSAGE IN FINAL SHAPE

President Back at White House Desk After New York Trip.

Washington, Nov. 29.—President Wilson returned from New York early today and immediately went to the white house and began work on his next annual address to congress.

On the return trip the president was accompanied by Senator Hughes, of New Jersey; Secretary Tumulty and Dr. Cary T. Grayson, the white house physician. Mrs. Norman Galt, his fiancee, remained in New York to purchase parts of her trousseau.

The president has the main outlines of his address to congress finished and expects to get it in final shape for the public printer today. He took the address with him to New York and discussed it with Col. E. M. House, his personal friend and political adviser.

While in New York the president is understood to have discussed the outlook for peace in Europe with Col. House, who went abroad several months ago to investigate the situation for the president. It is not believed, however, that the president will initiate a conference of neutral nations to attempt to end the war, as suggested to him last week by a delegation of peace advocates.

SILVER PLATED KNIFE, LODGED IN WOMAN'S STOMACH 8 MONTHS, REMOVED.

Knife removed from stomach of Mrs. Elizabeth Hoschberger and Dr. G. C. Amerson, who performed the operation.

DR. G.M.AMERSON

Chicago, Nov. 29.—There's one thing the human stomach cannot digest, and that's a silver-plated table knife.

For eight months Mrs. Elizabeth Hoschberger carried a silver table knife in her stomach.

The knife remained undigested, and Mrs. Hoschberger was bothered greatly with indigestion. Physicians refused to believe her when she told them what was the trouble.

Finally last Tuesday morning Mrs. Hoschberger consulted Dr. J. F. Pflock of the West Side hospital. She was X-rayed.

There was the knife lying diagonally in the right side of the stomach, the handle downward, just as Mrs. Hoschberger said it was.

Dr. G. C. Amerson was selected to perform the operation. Dr. Pflock assisted. With a tiny silver blade Dr. Amerson made a half-inch slit in the stomach; two fingers encased in rubber were thrust into the aperture; the tip of the knife was grasped, and ten minutes and a half of gentle manipulation freed the knife from the flesh.

BOWSER WORKING ON COOPERATIVE PLAN

Propose to Let Employes in the Shops Share in the Dividends.

When the plans now being worked out by John Leach are completed and adopted, the shop employes of S. F. Bowser & Company will share in the dividends of the company, in accordance with the wages each man earns. Details have not been worked out, but steps taken assure the employes that the plan will be operated to their advantage. The company expects the co-operative plan, as conceived by Mr. Leach, to result in closer attention to work by the employes and thus bring a saving in time and material in the cost of production. In fact, the output will increase without a corresponding increase in the cost of operating the factory. Only factory employes will be affected by the plan evolved by Mr. Leach. This means that between 525 and 550 men will participate in the dividends, which will be paid monthly. A meeting is being held this afternoon at the factory, at which Mr. Leach's plan will be unfolded and discussed in all its phases. For five weeks meetings have been held, at which Mr. Leach unfolded a part of his plan, one of the steps being the reduction of working hours with no reduction in wages from nine to eight and a half hours per day. The final feature of the plan is being unfolded this afternoon.

MADE HIS LAST RUN.

B. F. Campbell Completes Work at the Throttle.

B. F. Campbell brought the Broadway limited, No. 29, in from Crestline right on "the dot" this morning. The only feature unusual in the trip, for Engineer Campbell has made it a business to bring this magnificent train in on time, is the fact that it was his last run. He has passed the three score and ten mark in life's pathway and goes on the pension list Wednesday. Engineer Campbell does not retire from active work without reluctance, for he is seemingly young and good for many more years at the throttle, but it is the rule of the company and he always observes the rules.

E. Wells, of the Wabash, in response to an inquiry this morning. "Traffic on the Wabash is up to the limit of the equipment capacity," continued Mr. Wells, "and I am chasing around to see that none of the cars are locked up unnecessarily."

MACHINISTS MAKE GAIN.

The Machinists' union has made wonderful progress in Fort Wayne in the way of increasing its membership, according to report of the men engaged in the membership work. "Several of the big shops are 100 per cent. union and in others the percentage is about 95," said one of the officials of the union. From the same source it is learned that the increase is general throughout the state, particularly in South Bend, Laporte and other cities in the northeastern part. The injured man is a brother to Mrs. C. E. Haberkorn, wife of the Wabash machinist, who with her two daughters went to Delray this morning to see Mr. Bates. The latter formerly resided here and is well known in Fort Wayne.

SURVEY PROCEEDING SLOWLY.

STEINWAY

The purchase of a Steinway means the selection of the ideal piano, for in the Steinway tone and workmanship are of the first importance. From the day in 1853, when the first Steinway Piano was presented to the public, it has represented the loftiest phase of the piano industry. It was then and is now the standard of piano quality throughout the world, yet you will find that the Steinway costs only a trifle more than other makes.

Style "V," the new Upright, and style "M," the small Grand, offer a special advantage in price. They embody all the distinct Steinway features (there being but one grade of Steinway Piano), and are of a size to meet the requirements of the modern home or apartment.

Style "V" Upright, Mahogany, $500

Style "M" Grand, Mahogany, $750

MILK MASSAGE FINE TO CLEANSE SKIN

Fresh milk has been known for ages as having wonderful power of beautifying the skin and cleansing the pores of all poisons and impurities. In olden days milk baths were the morning requisite. Today the milk massage is the proper and popular method.

To make the milk massage, get about two ounces of powdered bryol crystal from your druggist, add it to half a pint of fresh skimmed milk, heat gently until a cream is formed. Apply this milk cream freely to the face, neck and arms, massage gently until cream is apparently all absorbed by the skin. Keep on massaging and the cream will roll out, bringing with it all the impurities and poisons out of the pores of the skin, and will leave the skin soft and white.—Advertisement.

IN THE CHURCHES

MANY PEOPLE LOOK UPON SIN AS A JOKE

Said Evangelist Patty in Powerful Discourse at Men's Mass Meeting.

The last week of the month's revival meetings at Simpson M. E. church opened Sunday afternoon at 3 o'clock with a big mass meeting for men. Evangelist Patty, who has stirred the entire community with his wonderful power of appeal the past three weeks, spoke on the moral and mental insanity of men before an audience which filled the entire auditorium of the church. In the course of his stirring discourse he said that too many people of today looked upon sin as a joke and that through the furtive efforts of the devil their souls had become so hardened that they were sure to become inmates of the asylum of hell which Satan has prepared for them.

Eight men stepped forward at the close of the sermon and made a public confession and accepted Christ as their Savior. Thus far the number of converts has been extremely gratifying, but it is anticipated that many more will come forward during the last week's meetings.

Rev. Patty in an eloquent manner showed the similarity between the mentally and morally insane people. He dwelt at length on the latter because people as a rule do not recognize these as soon as the former. In enumerating those people who were morally insane the evangelist scored heavily against the desire of worldly passions, prostitution, card playing and drinking.

In a graphic manner Evangelist Patty told his audience of the trial of Jesus and showed how Pontius Pilate without a doubt was morally insane. "Fort Wayne," said the speaker, "is filled with Pontius Pilates who may have the most sagacious minds yet turn Jesus Christ to the bloodhounds of hell.

"A mentally insane person," continued the speaker, "usually turns against his best friends whom he thinks are going to harm him at all times. A person morally insane does the same thing. He is endeavoring to assist the devil, who is really his worst enemy, to take away the throne from God Almighty and place satan there."

In closing he made an appeal to all those who were not already right with God to make a stand at once and told several stories of where people had been accosted and asked to confess Jesus and had refused. A few hours later they met sudden death and then it was too late.

A big mass meeting for everybody, men, women and children, will be held at the church next Sunday afternoon at 3 o'clock. Rev. Mr. Patty will deliver a sermon on the theme, "The Second Coming of Christ."

Another interesting service was held Sunday evening and a number professed confession. Monday evening will be Associated Christian Workers' night and the young people have planned to attend in a body. The junior boys' and girls' choruses will sing.

ISN'T IT SHOCKING! — DAME FASHION'S FUR-TRIMMED STOCKINGS.

Dame Fashion won't stop at anything—so she's skipped right past shoe tops and now three or four rows of fur on Milady's stocking is the latest.

Do you think it shocking—we mean the stocking. Just glance at the illustration above.

The new style so far is only used on filmy, thin stockings to be worn with a dancing frock and slippers.

An endless variety of kinds of fur are called into use by the new fad for one's stockings must match the color of one's evening frock, and, of course, the fur must be of the same color as the stockings.

Three rows of fur are most popular, but four rows are quite proper.

And do they show, of course they do when one tangoes in a dress with the latest full blown or hoopskirted effect.

SAFETY FIRST IN JUVENILE BOOKS

New Boy Scout Movement to Pick Good Reading is Onder Way.

"What Boys Live By," might very well have been used as a title to characterize the new book list just issued by the Library Commission of the Boy Scouts of America in an effort to present to the parents of 8,000,000 American Boys, the truth about juvenile fiction and to furnish a complete and satisfactory guide to good reading for these same millions.

The survey is one of the first of its kind ever attempted. Out of a thousand volumes, some of which have withstood time and the reading of three generations, and some of which are of comparatively recent origin, 300 stood the test. These have been grouped in a special list entitled "Books Boys Like Best," which is being distributed all over the country through public libraries and bookstores.

Librarians, teachers and book dealers in all parts of the country co-operated in making the selections. A list of one thousand books waas sent to them, with a request to check the most popular books, as evidenced by the sale or the circulation. By this method the boys unconsciously select their own reading list and the list for the growing generation of youthful bookworms.

In the published list the books have been grouped according to the boy's chief reading interests: (1) Stories of Adventure; (2) The What and How to Do Books; (3) Books of Information. Besides the listing of the stories of adventure according to a boy's heroes, in each instance there is an interpretative introduction, showing just how that particular group of books is likely to influence the boy in his moral and mental development.

"It is not for an instant contended, of course, that this list contains all of the good boys' books," said Franklin K. Mathiews, the Chief Scout librarian. "But these are a careful selection of the good books that boys themselves have shown they like best. There will be no necessity of urging the reading of them, and, collectively, they alone will keep even the reading boys busy for some years."

The work is a part of the Boy Scout movement's plan to help parents who care what influences get into their boys' lives through their reading. "Safety First" Juvenile Book Week, Nov. 28-Dec. 4, will be the beginning of a national campaign to stamp out the intemperate reading of cheap books among boys.

NEW DISCOVERY DISSOLVES HAIR HARMLESSLY!

There is only one superfluous hair-remover known which will not cause redness, irritation or injury to the skin. This is a formula recently discovered, which not only is as harmless as water to the skin, but removes any hair instantly without leaving any evidence whatever that a hair-remover has been used. The skin will be soft and white. This toilet preparation, brand new, and being used by thousands of ladies, is known as the new Sulfo Solution. This comes in the form of a creamy, golden liquid. It is applied with the fingers or a little cotton swat, on the hairs to be removed. Almost immediately the hairs dissolve completely. The cream is then wiped off, leaving the skin in exquisite condition, without the least reddening or smarting. It can be applied to the most delicate skin or any part of the body, and will not even leave the skin red. The whole thing is all done in a few moments with perfect ease, and it never fails to remove all hairs no matter how thick or bristly. Its use positively defies detection. Aside of its marvelous results, it is the most economical hair-remover known. Sulfo Solution is made by the Cooper Pharmacal Co., of Chicago, Ill., costs $1.00 a bottle and is sold in Fort Wayne by Meyer Bros. Co. and Dreier Drug Co.—Advertisement.

Favorite Cough Medicine.

There are good reasons why Chamberlain's Cough Remedy is preferred to any other by many mothers of young children. Read what one of them says about it: "Last winter my daughter had an attack of croup and I gave her Chamberlain's Cough Remedy. It relieved her at once. My experience and that of my friends is that this medicine will do all that is claimed for it," writes Mrs. W. H. Wood, Lima, Ohio. Obtainable everywhere.—Advertisement.

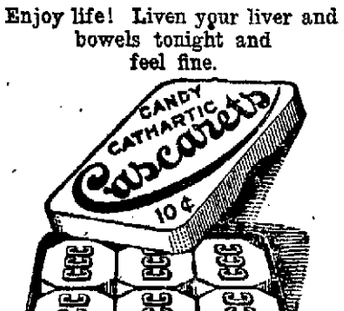
IT'S YOUR LIVER! YOU'RE BILIOUS, HEADACHE, SICK!

Don't stay constipated with breath bad, stomach sour or a cold.

Enjoy life! Liven your liver and bowels tonight and feel fine.



Tonight sure! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store now? Eat one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or bother you all the next day like calomel, salts and pills. They act gently but thoroughly. Mothers should give cross, sick, bilious or feverish children a whole Cascaret any time. They are harmless and children love them. —Advertisement.

"BOOK OF GOLD" WAR'S SORROW MEMORIAL TO THE BELGIAN KING.

San Francisco, Cal., Nov. 29.—"The Book of Gold" is a volume of mingled tears, romance, tragedy and devotion to an ideal.

Reposing here in the Belgian section of the French exposition pavilion, its pages are filled with names subscribing to the Belgian relief fund.

"The Book of Gold" is in charge of Mme. Jules Clerfayt, whose tragedy is interwoven with its story. She is the widow of Jules Clerfayt—personal friend of King Albert—who recently died of overwork and heartbreak for the tragic fate of his country men. She sits there beside the book in deep mourning, but with pathetic determination to be of service.

Before her marriage Mme. Clerfayt was beautiful Carmelito Castello, of San Francisco. Her late husband, a direct descendant of Field Marshal Francois Clerfayt, had the order of Leopold II conferred upon him by King Albert.

Mme. Clerfayt decided to carry forward the relief work begun here by her husband. Thus the "Book of Gold" was prepared. It contains the names of notables and of more humble personages from all over the world—a sort of bond of sorrow that has linked the citizens of every belligerent nation.

There are German, English, French and Italian, as well as Belgian and American signatures.

On its pages are the names of the mother of Brand Whitlock, of Helen Keller, blind genius; of E. S. Curtis, noted Indian photographer, of governors and mayors, of Samuel Hill, who some years ago built a house for King Albert in Seattle, Wash., at the time Belgium's monarch visited this country.

When the "Book of Gold" has been filled it will represent the contribution of many thousands of dollars to the Belgian relief funds, and will then be forwarded as a memorial to Albert, soldier-king of a brave little army.

AND THEN SPEAKING OF ARTFUL DODGING

This from Texas Congressman Keeps the Ladies All Guessing.

By Gilson Gardner.

Washington, Nov. 29—A prize—a postcard portrait of Susan B. Anthony with two green trading stamps—is offered by the Congressional Union for Woman suffrage to anyone who can tell the union what is meant by the following words spoken by Representative Robert L. Henry, of Texas, chairman of the committee on rules in the 63rd congress, when waited on at his home in Texas by a delegation of women, urging his support for the suffrage amendment. This is what Mr. Henry said:

"I am a trustee for the democratic party, as chairman of the rules committee, and sometimes I might say things in my own individual capacity that I should not say as chairman of that committee. This question will come before the committee, I am quite confident, and I will say this, that when it does it will receive full and careful consideration."

Mrs. Rotan, chairman of the delegation: "It certainly will be brought before them again."

Mr. Henry: "I will say this, that I shall be glad to hear any additional argument upon any point and I will always be in a receptive mood as a representative and chairman of the committee, but you ladies can understand that I might express myself as an individual in a way that might not meet the approval of my party and they might call a caucus and say to me, 'You are the agent and representative of your party, and as such you have no right to bring this matter up while you are chairman of the committee on rules.' And again the president might call me to a conference and inquire into my remarks and it might be that he might have changed his views on that question (laughter) and as a party leader I might find that I would have to cooperate with him temporarily on this question; but as an individual I would rather not discuss the merits from any standpoint of this amendment. I prefer just to say that I am glad to have this hearing and I will not be dilatory when it comes up for consideration. I will study it and go over every phase again and it may be that the committee on rules will bring the question up again in the house of representatives, and if they see fit to do so, I will be glad to vote on the question."

Mrs. Thompson: "Did you vote in favor of a committee on woman suffrage?"

Mr. Henry: "I have always felt that there should be a committee on suffrage, but the committee on rules being privileged to bring up any question at any time, feeling that there was not strength enough in favor of this to warrant the belief that such an amendment could be carried, I never found the occasion when I felt that there was a majority of the votes on the side of such, and therefore, I did not care to lead your cause to defeat on that question. I favored that committee on suffrage and shall favor it again. As I said before, it is one of the paramount issues of this country and there ought to be a committee separate and distinct on suffrage and I shall fight for it again and often, but whether you can pass it through the house is another question. I have long learned that that body is one that it is not always well to count on. It might be that you could even pass a resolution for a committee on suffrage, but I am not sure about it. If I happen to be chairman of the committee on rules, there is one thing that I can promise and that is that you shall have an opportunity to present your views to the committee."

Mrs. Thompson here asked whether Mr. Henry would state whether he was in favor of suffrage.

Mr. Henry: "That would be discussing the merits of the question and as I said, I can not separate myself from my position that I hold. I have always held, and I think it better always to issue bulletins than to state my views. I have never known the women of the country to take hold of any question where they did not feel that they were not right on it, and I commend you for the interest and the efforts that you are displaying in this cause; at the same time I do not agree with some of them. I wish I could on all questions, but of course there are two sides to it. As a matter of right perhaps it would do to submit this question to the states; that is as a matter of the rights of the individuals under the constitution, but as a matter of policy it might not be the right thing to do. There are a great many matters that are right theoretically but that are matters of policy I would not commend. You might submit this question and there might be perhaps any number of other things and other amendments that might be brought in."

Mrs. Thompson stated that all suffrage parties had centered on this one amendment.

Mr. Henry: "I did not mean on suffrage; I mean of all kinds. I think that without taking any part in any factions among the women of this cause in the country, I can say that I do not think there has ever been drawn up a resolution that is in more felicitous language than the Susan B. Anthony amendment and I feel safe in saying that if you can get this amendment passed that you will get all that you want and maybe a little more."

HOT WATER THE BEST LIVER AND BOWEL MEDICINE

Says glass of hot water before breakfast washes poisons from system.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.—Advertisement.

DR. JOSEPHINE BAKER

—for a woman to save the lives of 20,000 babies in eight years. One would think that would be distinction enough for any woman, but Dr. Josephine Baker is not satisfied. She is director of the bureau of child hygiene of the New York board of health, where 60,000 are treated every year. "We have reduced the death rate in New York to 95 of every thousand babies," said Dr. Baker, in describing her work, "but we are not satisfied, for we believe we can reduce this still further."

OUCH!

He—If you are so forgetful, how is it that you remembered me?

She—Lots of times I remember the little things when the big ones escape my notice.

WEALTH BRINGS FRIENDS.

Two Hundred Richmond Men Write to Miss Winifred Sammons.

Richmond, Ind., Nov. 29.—Miss Winifred Sammons, age seventeen, the $50,000 heiress, left today for Cheboygan, Mich., realizing that it would have been unnecessary for her to work as a house servant here had she only made known her prospects. Two hundred Richmond men have written Miss Sammons since it became known that when she is twenty-five years old she will inherit $50,000.

The girl ran away from home last June after a quarrel with her father, a Lansing theatrical man. She tried to make a living as a servant, but because of her unfamiliarity with kitchen utensils she could not "make good." She finally was sent to the Home for Friendless Women. Her aunt, Miss Lottie Sammons, a newspaper woman, took the girl back to Cheboygan after buying her a big Thanksgiving dinner and promising her an automobile and a piano.

Singing the Praise of Chamberlain's Tablets.

"Ever since I used Chamberlain's Tablets for indigestion, when living in Fulton, N. Y., about five years ago, and they did me so much good I have been singing their praise in the ears of neighbors and friends," writes Mrs. Ernest Crookes, Camillus, N. Y. Obtainable everywhere. —Advertisement.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Nov. 29.—Canadian comandeering of millions of bushels of wheat brought about an excited rush of buying here today and caused a decided upturn in prices. The market, however, as a whole did not prove as well as many traders had expected and the advances were moderate compared with wha had previously been witnessed many times since the beginning of the war. Opening prices of wheat here, which ranged from 1½c to 2½c higher, with December at $1.05 to $1.06, and May at $1.07 to $1.08½, were succeeded by a decline to slightly under the lower side of the initial range. December sagging to $1.04⅞.

The close was firm at 2¼c to 2⅝@2½c net advance with December $1.05¾ and May, $1.08½.

Corn was bullishly affected by the advance in wheat. After opening a s hade off to ⅜c to ½c up the market rose to more than a cent above Saturday's finish but gradually receded.

The close was firm at a net gain of 1c to 1¼@1⅝c.

Oats developed firmness with corn and wheat.

Grain strength and a rise in the hog market carried provisions up grade.

THE DAY ON WALL STREET.

New York, Nov. 29.—On the resumption of trading today stock of various descriptions recorded moderate advances, with greater gains for a few specialties. Mercantile marine preferred rose 2¼, which it soon increased to 3½ at 70¼ and General Motors rose 4¼ at 460¼, later going to 465. Some rails were fractionally better and standard industrials manifested a similar tendency. Offsetting features, however, included further weakness in American Tobacco, which yielded 7½ points to 212, with some heaviness in Northern Pacific, Canadian Pacific and New Haven.
Dealings became increasingly dull after the opening, with a sagging tendency to rails and standard shares. Canadian Pacific and "Soo," its subsidiary, were lower by a point or more, also St. Paul, a condition ascribed to the Canadian government's seizure of large quantities of wheat within the dominion. Stocks of an obscure nature rose three to four points but failed to enlist public interest. By midday heaviness became more pronounced, with a renewal of activity. Bonds were steady.
Trading became stagnant in the final hour, with more variable price changes. The closing was irregular.

MOB HANGS A NEGRO NEAR INDIANA LINE

Evansville, Ind., Nov. 29.—Forty masked men early yesterday at Henderson, Ky., thirteen miles from here, forced an entrance to the cell of Ellis Buckner, colored, 24 years old, in the county jail. They took him to the river front, three blocks away, and hanged him to a willow tree in a lonely spot. The victim was charged with an attempt to assault Miss Annie Hardin, a white girl.
At 2 o'clock in the morning the mob, according to Henderson police, formed suddenly in front of the jail and demanded entrance. Arizona Grayson, deputy sheriff, and the jailor were the only ones in the jail. The mob threatened to batter down the door and wreak vengeance on the officers, the police say, and the doors were opened. Then the mob demanded that the corridor and cell doors be opened.
The negro was dragged to the foot of Powell street and hanged, a rope being thrown across the limb of a willow tree there. Chief of Police Graves located the body at 10 o'clock and cut it down. Henderson police say Buckner had been in trouble before.

Mrs. N. W. Bloom, 1125 Columbia avenue, is recovering from severe burns she received last Wednesday evening while she was engaged in making taffy candy.
Miss Edna Fee, of Pontiac street, was thrown from a horse on Shawnee place Saturday morning and was seriously cut and bruised about the face and body.

THE OUTER BOUNDARY OF GERMAN RUSSIA!

This is the last trench of the kaiser's legions in the czar's empire—the "farthest east" of the host under von Hindenburg that drove a wedge almost into the heart of the Muscovite domain. Photographer Durborough took this picture on a trip to the very front, shortly after his famous exploit in photographing the retreating Russians from the seat of a flying aeroplane.

HONEYMOON SHINES WITH LURID GLARE

George and Katy Salisbury Again Have Trouble to Air in Court.

It was only last March that George Salisbury bore Katherine Salisbury blushing from the shrine his radiant bride and the honeymoon season may not fairly be said to have expired by the statute of limitations. But that honeymoon has never shone with much save a red and fretful glare. George is in jail on a surety of the peace charge filed by Katie and his wife promises to show him when the case is called in the city court Tuesday. Mrs. Salisbury, who is somewhat her husband's senior, had him arrested Sunday following trouble at their home in Wallen. After arraignment in the city court Monday morning George wanted time to get witnesses and a lawyer, and was granted a continuance, though Katie declared to the court that to hold up proceedings to get witnesses was a sheer waste of time "because there ain't any witnesses." The pair wrangled a lot during the formalities, Katie promising to show her new-made liege in shady colors and George trying to heckle Katie with the accusation that she got drunk Sunday and let her dinner burn up on the stove. The trouble, according to Katie's stories to the prosecutor and police is that George dissipates her money and does nothing useful. She says she staked him a week ago to $100 in perfectly good cash to launch himself in the meat market business and that with the money in his pocket George started on a merry spree. Katie had him arrested last July on an assault and battery charge, but dismissed the proceedings in Justice Nierman's court, when George entered into a formidable legal contract with her not to get soused any more and never to enter a saloon except in her company. Mrs. Salisbury says her husband has cost her several hundred dollars since they became one. The trouble will be thrashed out in the city court as soon as George can get his witnesses. After Mrs. Salisbury had left the court room she came flying back out of breath and in a fine state of excitement to say that a big roll of money in George's pockets when he was arrested was her own and she wanted it. George denied that it was his wife's and she was directed to the sheriff to get it.

Assault Case Under Advisement.

Charles Clutt, an employe in the Pennsylvania shops, was tried on a charge of assault and battery on the person of Russell Howey, inspector for the Fort Wayne & Northern Indiana Traction company's city lines, Saturday night. It was alleged that after a traffic tangle on Calhoun street between Berry and Main had been straightened out when a jitney bus and a street car had come together, that Clutt seized Howey by the tail of his overcoat as the latter mounted a moving car and tried to drag the inspector into the street, tearing the garment. Clutt denied that he had touched the inspector, though he was near him. It was a question of identity in which three or four witnesses for each side radically disagreed. Judge Kerr took the case under advisement until December 4.

Other City Court Cases.

Leonard Benward, a 20-year-old youth who has had a ripe experience as a minor criminal, was in on a loitering charge and was continued until Friday. His mother had complained that he tried to extort money from her and she feared him.

Walter Jacobs, Warren Jacobs, Henry Magee, William Nesbitt, Tom Dillon and John Hardesty, drunks, were turned loose. Jim Coffee, who was released Saturday morning on an indefinite continuance on a drunk charge, was in again and drew fifteen days. Mart Dowell got eleven days for being drunk and Paul Williams drew $5 and costs.

Theodore Baker, of Woodburn, was in court on a surety of the peace warrant sworn out by his mother, Margaret Baker. The case was continued to get witnesses in court and Baker went to jail in default of bond.

The case against Carl Herford for assault and battery on Anna Converse, the affidavit being signed by Leroy Converse, was continued until December 1 and the defendant furnished $25 bond for his appearance.

"DOC" MILLER IS TAKEN AWAY.

R. H. Miller, alias "Dr. Miller," the man who was working here as a street car strike-breaker when arrested a few days ago, was on Monday taken back to Asheville, N. C., by Deputy Sheriff William F. Pond, and Miller will be tried in that state for forgery. He is accused of numerous forgeries aggregating about $350. Miller waived extradition procedure and made no resistance to a return to North Carolina.

A LESSON IN NATURAL HISTORY.
Ever see a narwhale, children? He's an unruly creature. He inhabits the polar seas and is a bitter enemy to fish much larger as well as to men who would capture him. His lengthy prong is a deadly weapon! He pierces his enemy through and through with it!
—Old Nick.
No. 1—This narwhale you see here is a captive in my private aquarium. I caught the monster in the polar seas.
No. 2—One fine day I left the big ship and went for a row among the ice bergs. Suddenly I was surrounded by a school of narwhales! Excitement followed!
No. 3—As they pierced my oars, and stabbed at my boat, we led a merry chase around the ocean! Soon the leader of the school rammed his prong clear through the bottom of my boat!
No. 4—I made a sail of my big hat and started for port, taking Mr. Narwhale along! That's how I captured that fellow!
